

STATE OF NEW JERSEY  
DEPARTMENT OF CONSERVATION AND DEVELOPMENT  
ATLAS SHEET No. 34

SHEET 34  
DIVISION OF GEOLOGY AND TOPOGRAPHY  
HENRY B. KÜMMELE, State Geologist

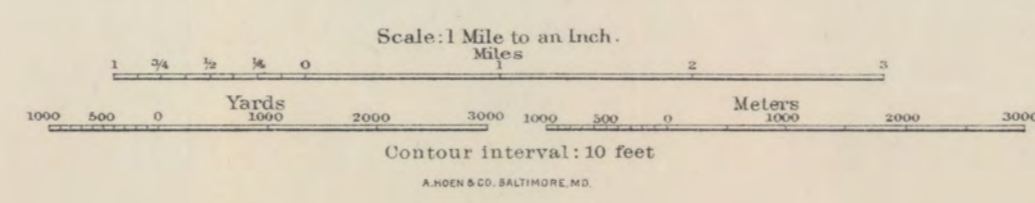

ORIGINAL SURVEY, 1886  
PRINCIPAL FEATURES REVISED, 1910, 1927, 1935  
EDITION OF 1936

NOTE.—The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean low tide is shown by the figures on the line. The time of fall from any line to the next is, as the figures will show, 10 feet. Figures not on any line show the actual elevation of the surface at a point indicated by a small cross. Figures on blue ground indicate the depth of water at mean low tide.
