

NJ Offshore Wind Environmental Resources Working Group

Quarterly Meeting

December 20, 2021

Agenda

11am-11:45am: NJ Research & Monitoring Initiative (RMI)

- In August, we shared *NJ's Offshore Wind Research Priorities* list. We received a number of comments which the RMI team will share, and provide an update on our continued regional coordination and future plans.

11:45am-1pm: Fisheries Compensation

- RODA will provide an overview of their report released today, [Impact Fees for Commercial Fishing from Offshore Wind Development: Considerations for a National Framework](#)
- **At 12pm**, Brian Hooker of BOEM will join us to provide a brief overview of the fisheries mitigation guidance BOEM is developing.
- DEP will then solicit feedback and comments focusing on the **financial compensation** aspect of the RFI:
 - How can engagement with the industry around compensation be improved? Please describe what you envision as successful coordination around compensation.
 - What information/data could inform potential economic losses? Direct and indirect losses.
 - Do you have recommendations for additional steps to inform the process?
