1.0 SUMMARY

Boswell Engineering (Boswell) has completed this Preliminary Assessment Report (PAR) in conformance with the guidelines set forth by the New Jersey Department of Environmental Protection's (NJDEP) *Technical Requirements for Site Remediation, N.J.A.C. 7:26E et seq.* and *Preliminary Assessment Technical Guidance Document* for the properties located at:

- 1401 64th Street,
  Block 205, Lot 30; and

- 6300 Meadowview Road,
  Block 205, Lot 22.

Hereinafter referred to as "the properties" or "the site". Both properties are located in the Township of North Bergen, Hudson County, New Jersey. The properties lie adjacent to each other and are developed as a Township Recreation Center.

Boswell's qualifications to prepare this PAR are included in ***Appendix L***. The Terms and Conditions of this PAR are included in ***Appendix M***. The Green Acres Preliminary Assessment Checklist is found in ***Appendix A***.

1.1 Areas of Concern (AOC)

This assessment has revealed the following potential environmental areas of concern (AOC) associated with the properties:

AOC-1: Historic Fill

Based upon topography, fill material may have been brought to the site in the past to regrade the property for development.

AOC-2: Former Auto Wrecking Operations (Block 205, Lot 30)

The 1936 Sanborn map illustrates an auto wrecking operation at the northwest corner of Lot 30 in 1936.

AOC-3: Floor Drains Parks & Recreation Building

Floor drains were observed in the garage/break room of the Parks & Recreation Building.

AOC-4: Pole-Mounted Electrical Transformer

An electrical transformer was observed on the utility pole outside the Recreation Center building.

2.0 SITE DESCRIPTION

2.1 Location and Legal Description

This PAR addresses the properties located at:

- 1401 64th Street, Block 205, Lot 30; and,
- 6300 Meadowview Avenue, Block 205, Lot 22.

The parcels are contiguous and developed with recreational facilities. The sites lie in the Township of North Bergen, Hudson County, New Jersey and are depicted on the maps included in ***Appendix B***.

2.1.1 1401 64th Street

According to the Township Tax Collector's Office, Block 205, Lot 30 is a rectangular shaped parcel encompassing approximately 2.1-acres. The lot has 278' of footage along 64th Street. The Township records also report the property's zoning as Class 15C – Public Property.

The Township Tax Assessor lists the property owner as:

North Bergen Board of Education
4233 Kennedy Boulevard
North Bergen, NJ 07047

2.1.2 6300 Meadowview Avenue

According to the Township Tax Collector's Office, Block 205, Lot 22 is an irregular shaped parcel encompassing approximately 2.7-acres. The lot has 155' of footage along 64th Street. The Township records also report the property's zoning as Class 15C – Public Property.

The Township Tax Assessor lists the property owner as:

North Bergen Board of Education
4233 Kennedy Boulevard
North Bergen, NJ 07047

2.2 Site and Vicinity Characteristics

The area surrounding the subject properties consists of a densely developed urban community, including a mixture of single and multifamily residences, commercial establishments and light industry.

According to the USDA/SCS Soil Survey Map for Bergen County (***Appendix B***), the subject property's soil is classified as Urban Land (Ur) and Yalesville loam (Yl). Urban Land consists of areas that have been cut and filled or where buildings, paved

surfaces, etc. cover 85 percent of the ground surface. Yalesville loam consists of 3 to 8 percent slopes. Due to the soil's variability, on-site investigation is needed to determine the characteristics of individual areas.

The New Jersey Geological Survey classifies the bedrock beneath the properties as Jurassic Diabase ***(Appendix B)***. Rock outcrops were noted both on the sites and in the surrounding area.

There are no surface water bodies or streams located on the properties. The Cromakill Creek, is the nearest body of water and is located approximately 0.71 miles west of the site. The creek eventually outlets to the Hackensack River.

2.3 Utilities

The following is a description of local utilities available to the subject properties:

A. Water Supply

Suez (United Water) supplies potable water to the properties.

B. Sewage Disposal

Sanitary sewerage is conveyed to the North Bergen MUA system and ultimately treated at the Passaic Valley Sewerage Commission (PVSC) treatment plant in Newark, New Jersey.

C. Heat

Public Service Electric and Gas (PSE&G) supplies natural gas service to the area.

D. Electric

PSE&G also provides electricity to the area.

E. Stormwater

Stormwater flow at the site is either by overland flow to the stormwater inlets along the paved roads and parking areas which eventually outlet to the Township's stormwater system or direct infiltration in areas with pervious cover.

2.4 Description of Structures and Site Improvements

The site consists of two (2) adjacent parcels (Lots 22 & 30) that have been developed into a Township recreational complex. The site includes a recreation center building, softball field with bleachers and concession stand, a playground and an office building for the Township's Parks & Recreation Department.

2.5 Current Use of Properties

The properties are utilized as a recreational complex for the Township of North Bergen.

2.6 Past Uses of Property

Prior to at least 1910 the properties were undeveloped. The Sanborn Maps indicate that an auto wrecking operation occupied a portion of Lot 30 from at least 1936 to at least 1950. From 1950 to approximately 1961 the property was vacant. From 1961 to the present, the properties have been developed for Township recreational use.

2.7 Sanborn Fire Insurance Maps

Boswell reviewed Sanborn Maps, dated 1900-2006, (***Appendix E***). A review of the maps indicated the following:

1900 The 1900 Sanborn Map labels Meadowview Avenue as "Liberty Street". This map illustrates both parcels as vacant with no structures. Dwellings are scattered throughout the surrounding area.

1910 The 1910 Sanborn Map is similar to 1900 and illustrates the property as vacant, there is however an increase in development in the surrounding area.

1936 The 1936 Sanborn Map labels the northern portion of Lot 30 as "Auto Wrecking" with a storage building and a store. The remainder of the parcel, as well as Lot 22, is undeveloped.

1950 The 1950 Sanborn Map no longer illustrates the auto wrecking buildings. The parcels are again both vacant. "Liberty Street" is now labeled as Meadowview Avenue.

1979 The 1979 Sanborn map illustrates an athletic field on Lot 22 as well as a playground maintenance shop and two (2) smaller structures.

One (1) of the structures (the existing concession stand) is described as a restroom. Lot 30 remains vacant.

1988 The 1988 Sanborn map is similar to 1979 and does not show any discernable changes to the site or the surrounding area.

1991 The 1991 Sanborn map is similar to 1988 and does not show any discernable changes to the site or the surrounding area.

1994 The 1994 Sanborn Map shows no changes at Lot 22. A public building is now seen at the south end of Lot 30 and the area is labeled park and recreation.

1995 The 1979 Sanborn map is similar to 1994 and does not show any discernable changes to the site or the surrounding area.

1999 The 1999 Sanborn map illustrates a large building labeled "North Bergen Recreation Center" on the south end of Lot 22, connected to the previous building. The rest of the parcel remains the same as seen in 1995. A building remains present on Lot 30, however its configuration and orientation are different from that depicted in 1995.

2001 The 2001 Sanborn map is similar to 1999 and does not show any discernable changes to the site or the surrounding area.

2002 The 2002 Sanborn map is similar to 2001 and does not show any discernable changes to the site or the surrounding area.

2003 The 2003 Sanborn map is similar to 2002 and does not show any discernable changes to the site or the surrounding area.

2005 The 2005 Sanborn map is similar to 2003 and does not show any discernable changes to the site or the surrounding area.

2006 The 2006 Sanborn map is similar to 2005 and does not show any discernable changes to the site or the surrounding area.

2.8 Aerial Photograph Review

Aerial photographs illustrating the site and surrounding area are provided in ***Appendix F***. A review of the historic aerial photographs indicated the following:

1931 The 1931 aerial photograph shows a possible rectangular building at the northwest corner of Lot 30 in the area of the former auto wrecker. The remainder of the site appears to be vacant and undeveloped however there appear to be paths traversing the site.

1940 The 1940 aerial photograph depicts what appears to be a small rectangular structure at the northwest corner of Lot 30, likely the auto wreckers depicted on the 1936 Sanborn Map. The remainder of the site appears to be vacant and undeveloped.

1943 The 1943 aerial photograph is of poor quality however theer does appear to be a trail traveling north-south thru Lot 30.

1951 The 1951 aerial photograph shows no longer illustrates the buildings associated with the auto wreckers. Most of the properties are vacant once again, however there appears to be a structure at southwest corner of Lot 22. Closer examination reveals that the building lies on the immediately adjacent Lot 24, however a fenced yard extends onto Lot 22.

1954 The 1954 aerial photograph is similar to 1951. The property does however appear to be cleared and leveled,

1961 The 1961 aerial photograph depicts that a baseball field has been constructed on the site and encompasses a large portion of both parcels.

1966 The 1966 aerial photograph illustrates a small, possibly playground structure, at the site's northwest corner. It appears the area may have been raised as there is a fence on the structure's north and west sides. Additionally, a small structure is now seen at the current location of the Recreation Center building garage.

1974 The 1974 aerial photograph shows a large building addition has been constructed to the structure at the southeastern portion of the property.

1976 The 1976 aerial photograph is of poor quality, however there does not appear to be any discernable changes to the sites.

1981 The 1981 aerial photograph is similar to 1974 and shows no change to the site or the surrounding properties.

1985 The 1985 aerial photograph is similar to 1981 and shows no change to the site or the surrounding properties.

1995 The 1995 aerial photograph depicts another much larger building addition to the earlier structures. Additionally, a second structure is now seen northwest of the building addition. Lastly, it appears that

the playground at the site's northwest corner has been redeveloped.

2006 The 2006 aerial photograph is similar to the 1995 aerial photograph, with no changes to the sites or surrounding properties.

2010 The 2010 aerial photograph is similar to the 2006 aerial photograph, with no changes to the sites or surrounding properties.

2013 The 2013 aerial photograph is similar to the 2010 aerial photograph, with no changes to the sites or surrounding properties.

2017 The 2017 aerial photograph is similar to the 2013 aerial photograph, with no changes to the sites or surrounding properties.

2.9 City Directory Review

EDR researched City Directory Abstracts for the subject property. The following City Directory listing was found for 6300 Meadowview Ave. Complete copies of the City Directory Abstracts are included in ***Appendix H***.

6300 Meadowview Ave		
Year	**Uses**	**Sources**
2010	North Bergen Recreation	EDR Digital Archive

2.10 Industrial Search Report

The EDR Industrial Site Package did not report the subject property as having any records for air emissions or emergency releases, wastewater/stormwater discharges or permits, and federal Occupational Safety and Health Administration (OSHA) inspections, violations or accidents.

EDR completed a search of the available Industrial Directories of various years from 1901 to 2019 found no listings for the years provided for the sites: 1401 64th Street, and 6300 Meadowview Avenue. A copy of the Industrial Site Package and the Industrial Directory Search Report is included in ***Appendix J***.

2.11 Historic Topographical Maps

Boswell obtained the following historical topographic maps ***(Appendix G)*** illustrating the site and surrounding area.

1888 The 1888 topographic map depicts no structures on either property. The surrounding area is fairly developed.

1900 The 1900 topographic map is similar to the 1888 map and shows no changes to the sites or surrounding areas. No structures are seen on either property.

1903 The 1903 topographic map is similar to the 1900 map and shows no changes to the sites or surrounding areas. No structures are seen on either property.

1905 The 1905 topographic map is similar to the 1903 map and shows only roadways. No structures are depicted on the properties

1935 The 1935 topographic map is similar to the 1905 map and does not depict any structures on either property.

1940 The 1940 topographic map is similar to the 1935 map and illustrates no discernable changes to the sites. No structures are seen on either property.

1943 The 1943 topographic map depicts a structure at Lot 30's northwest corner. There is also an increase in development in the surrounding area.

1947 The 1947 topographic map shows only roadways and large buildings. No structures are depicted on the properties.

1966, 1967 The 1966, 1967 topographic map is similar to the 1947 map and does not show any changes to the sites or surrounding area.

1979, 1981 The 1979, 1981 topographic map is similar to the 1966, 1967 topographic map and illustrates no discernable changes to the sites. No structures are seen on either property.

1995, 1997 The 1995, 1997 topographic map is similar to the 1979, 1981 map and shows no changes to the sites or surrounding areas. No structures are seen on either property.

2013, 2014 The 2013, 2014 topographic map depicts no structures, but labels many of the streets. The roadways appear the same as in the 1995, 1997 map. There appear to be no changes to the site or the surrounding areas. No structures are seen on either property.

3.0 RECORDS REVIEW

3.1 Federal and State Database Information

The included EDR Radius Report ***(Appendix N)*** presents findings for all pertinent environmental risks. Federal and State databases were searched to provide the information regarding the project site and sites in the surrounding area within 1-mile. The EDR Report presents the data in both a summarized and detailed format. A summary of the Federal and State databases searched by EDR is included in the EDR Report.

Federal and State regulatory agency databases were searched in order to determine if any pertinent records and/or files exist regarding environmental or enforcement actions at the Site or at adjacent properties. The listings compiled by the United States Environmental Protection Agency (USEPA) and the NJDEP are presented in the EDR Report dated November 6, 2020. The EDR Report was reviewed to aid in the identification of recognized environmental conditions in connection with the Property. An evaluation of the EDR Report and a summary of sites within 1-mile of the subject property with the corresponding reference map identification numbers are presented in Section 4.2. A Glossary of Terms is included in ***Appendix K***.

3.2 EDR Report – Site Summary

The EDR report shows a listing in the NJDEP NJEMS database for the 64th Street Softball Field Improvements. The listing is for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit. The NJPDES permit most likely relates to the installation of the synthetic turf field and improvements in 2018.

The EDR database also shows a listing for the North Bergen Board of Education Early Childhood Center with an address of 1401 64th Street. The listing appears to be related to the documents submitted by the Board of Education's LSRP related to licensing a proposed child care center. It should be noted that this facility was never constructed or operated at the site.

3.3 EDR Report – Surrounding Vicinity Summary

The EDR Report also identified a number of unmapped sites within 1-mile of the subject properties. The sites are mapped and the distance and locations relative to the subject properties are included in ***Appendix N.*** EDR did not identify any sites within 1/8-mile that likely pose an environmental concern to the subject properties.

Additional information pertaining to Federal and State databases can be reviewed in ***Appendix N***.

3.4 Physical Setting Sources

The current USGS 7.5 Minute Topographic Map NJ Quadrangle depicting the sites has been reviewed and included in this report (***Appendix C***).

3.5 Chain of Title/Lien Information

The chain of title search was performed as part of the property survey. The chain of title revealed that there are no environmental liens on either of the subject properties. The applicable chain of title report pages is included in ***Appendix I***.

CHAIN OF TITLE				
1401 64th Street (Block 205, Lot 30) & 6300 Meadowview Ave				
Date Executed	**Date Recorded**	**Vested In**	**Received From**	**Type**
08/20/1974	02/18/1975	North Bergen Board of Education	Township of North Bergen	Chain 1 Deed Book: 3179 Page: 973

4.0 INFORMATION FROM SITE RECONNAISSANCE AND INTERVIEWS

The following section provides the results of Boswell's site reconnaissance and owner/occupant interviews.

4.1 Summary of Site Reconnaissance/UST Search

On January 7, 2021, Boswell inspected the subject properties to identify any present or potential environmental concerns related to on-site activities. Items noted at each location included the property use, improper storage, handling and disposal of hazardous materials, the type of heating systems and any fuel oil storage. The inspection was limited to visual observations and interviews with occupants and property owners, where possible. The site inspection photographs can be found in ***Appendix D***.

The inspection findings are as follows:

Currently, the co-joined parcels are used for park and recreation purposes and include a synthetic turf softball field, playground, concession stand building, recreation center building, and a building housing the North Bergen Parks and Recreation office. All buildings are heated by natural gas and it is reported that they have never utilized fuel oil.

The synthetic turf field is approximately 2-years old. The concession stand located at the north end of the field was built in 1998. The building contains a kitcand is connected to the sanitary sewer.

A playground area is located at the north east corner of the parcel and has a woodchip surface.

The Recreation Center building, at the southeast portion of the site was built in 1967 and houses the recreation center facility, offices, storage for recreation equipment and uniforms. The building is heated by natural gas. Attached to the building are two (2) garages which are used as a small wood shop and storage for maintenance equipment. All flammables (i.e. gasoline, oils) are placed in cabinets, and the garages have no floor drains. The sinks all connect to the municipal sanitary sewer.

The Parks and Recreation office building contains offices, restrooms, and a storage room. The garage bay portion of the building has been converted to a break room. Two (2) floor drains were noted inside the garage bay and are connected to the municipal sanitary sewer. No staining or odors were noted at the floor drains. The storage room held cleaning supplies, paints and field marking paint. Chemical storage noted inside the building also included two (2) poly 55- gallon drums of COVID-19 disinfectant. All storage containers were labeled and no spillage or

staining was noted in the storage areas. A 30 KW natural gas-fired emergency generator is situated outside of the building.

Several Conex boxes were observed along the west side of the parking lot at the property's west side. The Conex boxes are utilized for storage of the Township's holiday decorations and as well as playground and recreation equipment.

4.2 Interviews with State and Local Officials

The following are the results of Boswell's Open Public Records Act (OPRA) search with the various governmental agencies. A copy of the Government Records Request Forms and the responses obtained are provided in ***Appendix O***.

4.2.1 Township of North Bergen

Boswell submitted an OPRA request to the Township of North Bergen for information in their files regarding the subject property. The North Bergen Fire Department and Building Department reported that they did not have any records related to hazardous material storage, spill incidents or underground storage tanks. The North Bergen Board of Education's LSRP provided copies of the Preliminary Assessment Report and a sample location map for a limited Site Investigation (SI) conducted at the site. Boswell contacted the LSRP, Mr. Don Bello, who reported that the PAR was completed in 2013 and involved multiple lots including Lots 20 and 30. The PAR and limited soil sampling were done for a proposed Board of Education project which was never completed. The sampling involved collecting 18 soil samples at the playground and ballfield area at the northwest corner of the site. This area was the location of the former auto wrecking operation depicted on the 1936 Sanborn map. The sampling results identified polycyclic aromatic hydrocarbons (PAH) and lead above the NJDEP Residential Direct Contact Soil Remediation Standards (RDCSRS). Various PAHs and metals were also reported above their respective Default Impact to groundwater Soil Screening Levels (IGWSSLs).

The North Bergen Parks and Recreation Department provided copies of various documents related to the 2018 softball field improvement project. This includes laboratory analytical data for five (5) soil samples collected in March 2018 by Remington & Vernick Engineering. The samples were analyzed for full Target Compound List/Target Analyte List and extractable petroleum hydrocarbons. The analytical results show arsenic above the RDCSRS in one (1) sample and PAHs above the RDCSRS in three (3) samples. No information is included as to where the samples were collected. Remington & Vernick were the project engineers for the 64th Street softball field improvements project and the samples may have been collected to characterize the soil at the project area. The Township of North Bergen contacted Remington & Vernick to obtain additional information regarding the samples, but has not yet received a response.

4.2.2 Hudson County Records

Boswell submitted an OPRA request to the County of Hudson for information in their files regarding the subject property. The County did not have any responsive records pertaining to our request for either of the two (2) sites.

4.2.3 NJDEP Records

Boswell reviewed the online NJDEP DataMiner database and also submitted an Open Public Records Act (OPRA) request.

The DataMiner Activity Report shows the subject property as the 64th Street Ballfield Site, NJDEP ID: 608240 and shows that the following forms have been submitted: Confirmed Discharge Notification, LSRP Retention, Initial Receptor Evaluation and Remediation Timeframe Notification. The NJDEP DataMiner also reports that Donald M. Bello is the LSRP for the site.

The NJDEP Office of Record Access provided a copy of the September 14, 2018 NJPDES 5G3 Construction Activity Stormwater permit for the North Bergen Recreation Center softball field improvements.

5.0 RESULTS AND RECOMMENDATIONS

This office has performed a Preliminary Assessment in conformance with the requirements set forth by the NJDEP *Technical Requirements for Site Remediation*, N.J.A.C. 7:26E and *Preliminary Assessment Technical Guidance Document* for:

- 1401 64th Street,
  Block 205, Lot 30; and

- 6300 Meadowview Road,
  Block 205, Lot 22.

Both properties are located in the Township of North Bergen, Hudson County, New Jersey.

This assessment has revealed the following environmental area of concern (AOC) associated with the property. Boswell's findings and associated recommendations are discussed below.

5.1 Results & Recommendations

AOC-1: Historic Fill

Results: The property is located in an area of visible rock outcrops and varying topography. The possibility exists that fill material from off-site sources may have been deposited at the site as part of the property development. Previous samples collected at the property by others reported PAHs, arsenic and lead above their respective NJDEP Residential Direct Contact Soil Remediation Standards (RDCSRS). These contaminants are typically found in historic fill material.

The North Bergen Board of Education has retained an LSRP to address the fill material. Further remedial investigation and a remedial action will be required. The remedy will likely include institutional (deed notice) and engineering (cap) controls to prevent contact with the historic fill material.

Recommendations: Boswell recommends that the Board of Education continue with the work thru their LSRP.

AOC-2: Former Auto Wrecking Operation (Lot 30)

Results: A review of the historic Sanborn Maps, indicates a former auto wrecking operation at the site's northwest corner. The operation was present from at least 1936, until possibly as late as 1950. Although the exact operations are unknown, based on the nature of the auto wrecking business, the possibility exists that discharges to the environment including lubricating oils, lead-acid batteries and gasoline could have occurred during automobile dismantling.

As indicated above, the North Bergen Board of Education has retained an LSRP to address the site's environmental matters. A limited site investigation identified PAHs, arsenic and lead above their respective NJDEP RDCSRS. These contaminants are typically found in historic fill material, but may also be attributable to the former auto wrecking operation. Further remedial investigation and a remedial action will be required. The remedy will likely include institutional (deed notice) and engineering (cap) controls to prevent contact with the historic fill material.

Recommendations: Boswell recommends that the Board of Education continue with the work thru their LSRP.

AOC-3: **Floor Drains Parks & Recreation Building**

Results: Boswell observed floor drains in the garage/break room. It was reported that the drains discharge to the municipal sanitary sewer. No staining or odors were observed around the drains there is no petroleum or chemical storage in the room.

Recommendations: Boswell recommends no further investigation for AOC-3.

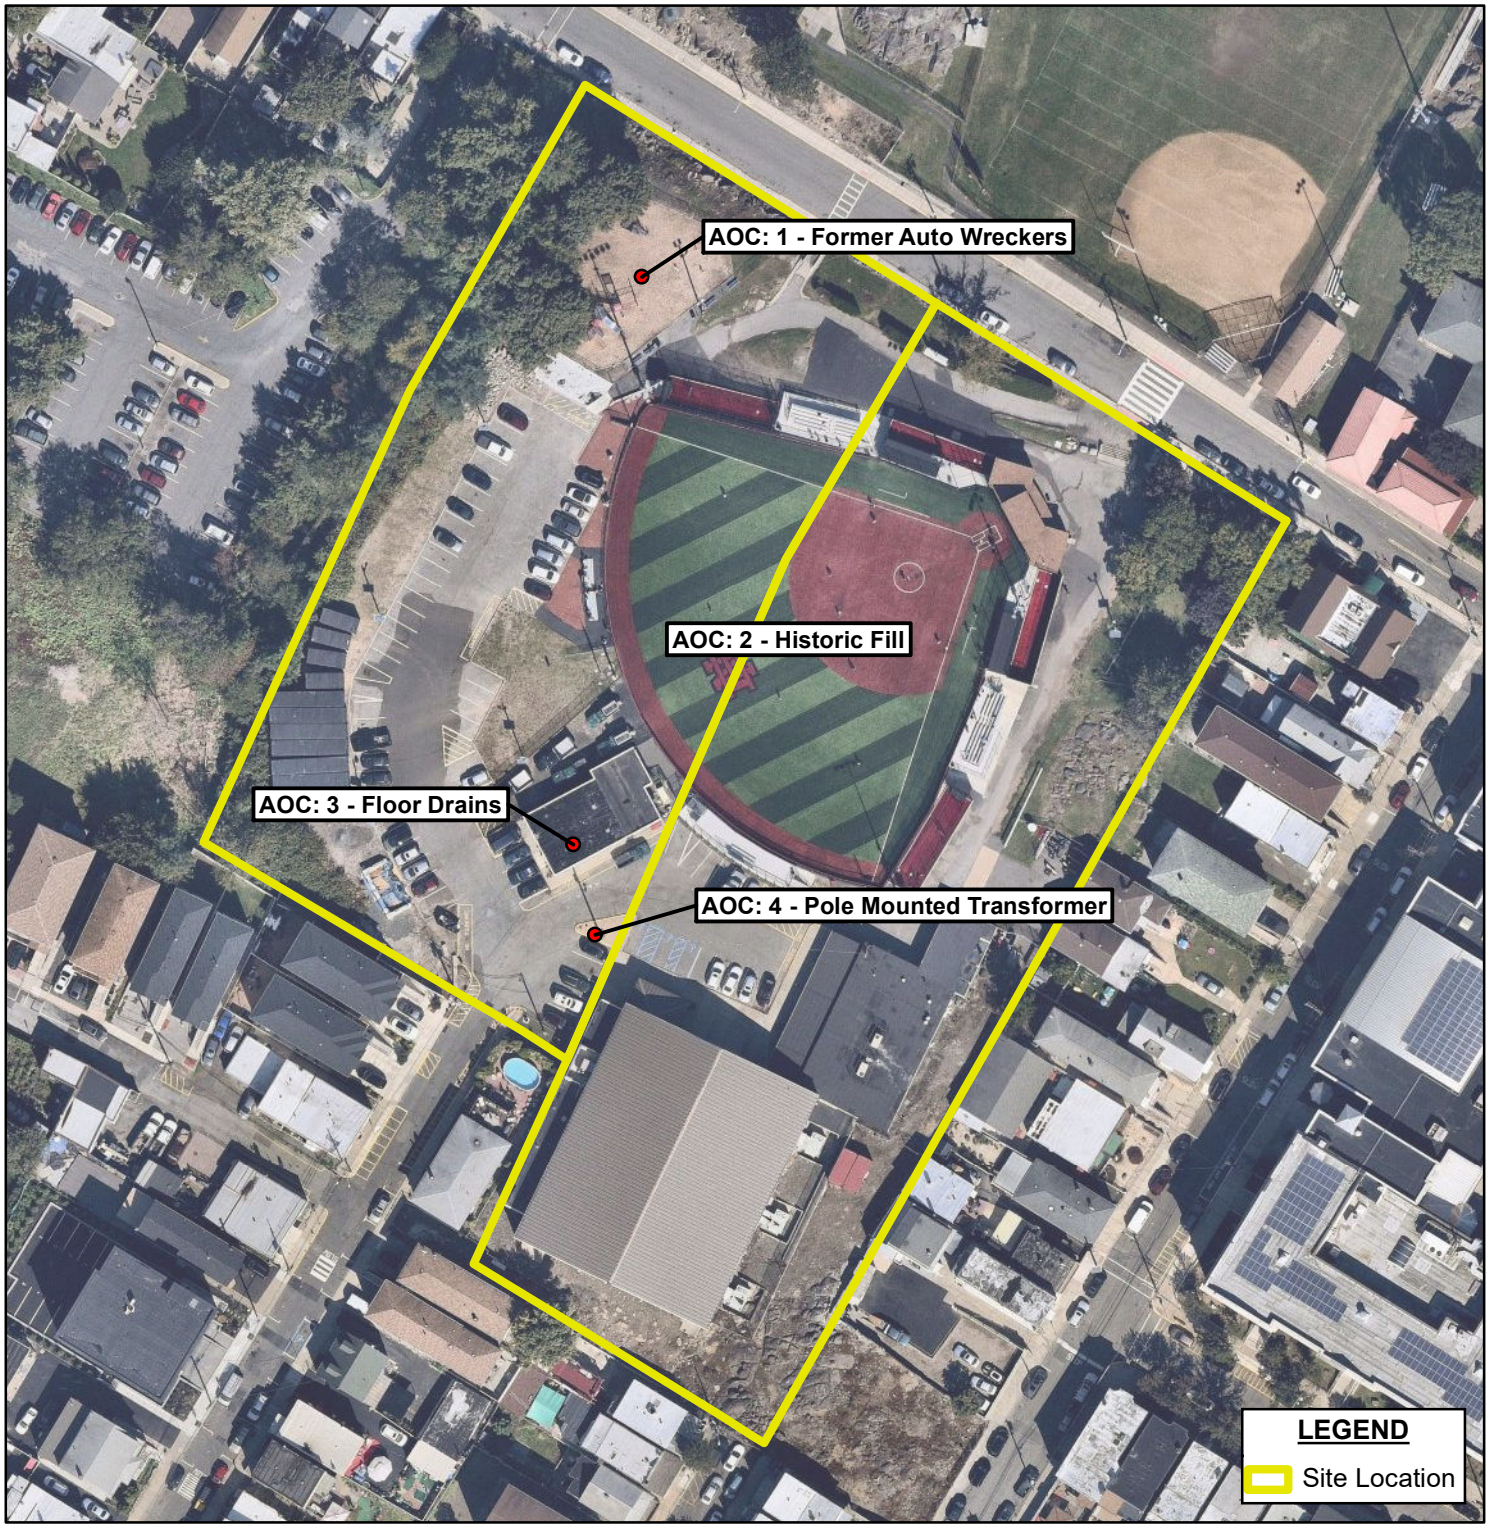

AOC-4: **Pole-Mounted Electrical Transformer**

Results: An electrical transformer was observed on the utility pole outside the recreation center building. No evidence of leakage or staining was observed on the transformer or the concrete sidewalk beneath.

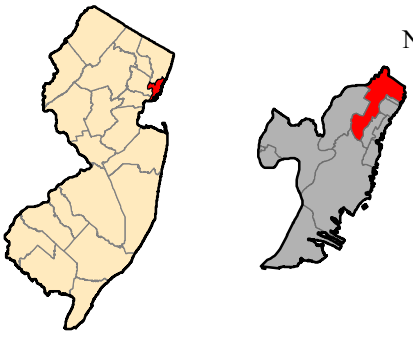

Recommendations: Boswell recommends no further investigation for AOC-4.

Township of North Bergen, Hudson County, New Jersey

Rev. 2/01/2013

Green Acres Program - Preliminary Assessment Checklist

To ensure that your Preliminary Assessment and Preliminary Assessment Report meet the minimum requirements as defined in the Technical Requirements for Site Remediation, N.J.A.C. 7:26E-3.1 through 3.2, as well as the NJDEP's January 2012 Preliminary Assessment Technical Guidance document **(http://www.state.nj.us/dep/srp/guidance/srra/pa_soils_guidance.pdf)** and to avoid delays to your project that may result from submitting incomplete information, please complete the attached checklist.

1. Have you performed a diligent inquiry into the operation and ownership history of the property from 1932 or before the property was developed and naturally vegetated, whichever is later? Yes X No____

2. Have you performed inquiries of current and former employees and agents whose duties include or included any responsibility for hazardous substances, hazardous wastes, or pollutants, and any other current and former employees or agents who may have knowledge or documents relevant to the inquiry? Yes X No____

3. Have you reviewed the following sources of information in order to prepare the site history?

a. Sanborn Fire Insurance Maps;
b. MacRae's Industrial Directory;
c. Title and Deed;
d. Site plans and facility as-built drawings;
e. Federal, state, county and local government files; and
f. The NJDEP's Geographic Information System Yes X No____

4. Have you presented a description of any past industrial or commercial operations conducted on site by each owner and operator? Yes X No____

5. Have you listed the hazardous substances, hazardous wastes, hazardous constituents and pollutants, that are or were historically present on the site? Yes X No____

6. Have you identified all former and current wastewater discharges (sanitary and/or industrial waste), and mapped all discharge and disposal points on a scaled site map? Yes X No____

7. Have you identified the source of potable and/or industrial process water? Yes X No____

8. Have you identified how structures on the property are heated? Yes X No____

9. Have you presented an interpretation of the aerial photography for the period dating from 1932, or the earliest photograph available, to the present? Yes X No____

10. Have you provided a copy of the aerial photographs which depict the property boundaries of the property? Yes X No____

11. Have you identified any current or prior remediation activities on the site, including the name of any government agency involved and case identification number? Yes X No____

12. N.J.A.C. 7:26E-1.8, defines areas of concern as areas in which pollutants, hazardous substances or wastes may have been discharged to the environment. (See the Technical Requirements for Site Remediation for a complete listing of areas of concern.) Have you presented a list of any potential areas of concern, identified during the performance of the preliminary assessment? Yes X No____

13. Have you presented a recommendation, per N.J.A.C.7:26E-3.2(a)6, for each area of concern identified at the site, and provided documentation to support this belief? Yes X No____

14. Have you listed any administrative, civil, or criminal enforcement actions for alleged violations of environmental laws which may have resulted in an environmental impact on the site? Yes X No____

15. Have you conducted a site visit to confirm the findings of the review of historic information obtained through diligent inquiry? Yes X No____

16. Have you provided a copy of the United States Geologic Survey 7.5 minute topographic quadrangle, or a copy of a portion thereof, that includes the site? Yes X No____

17. Have you certified the report, pursuant to N.J.A.C. 7:26C-1.5? Yes X No____

The certification wording is provided below:

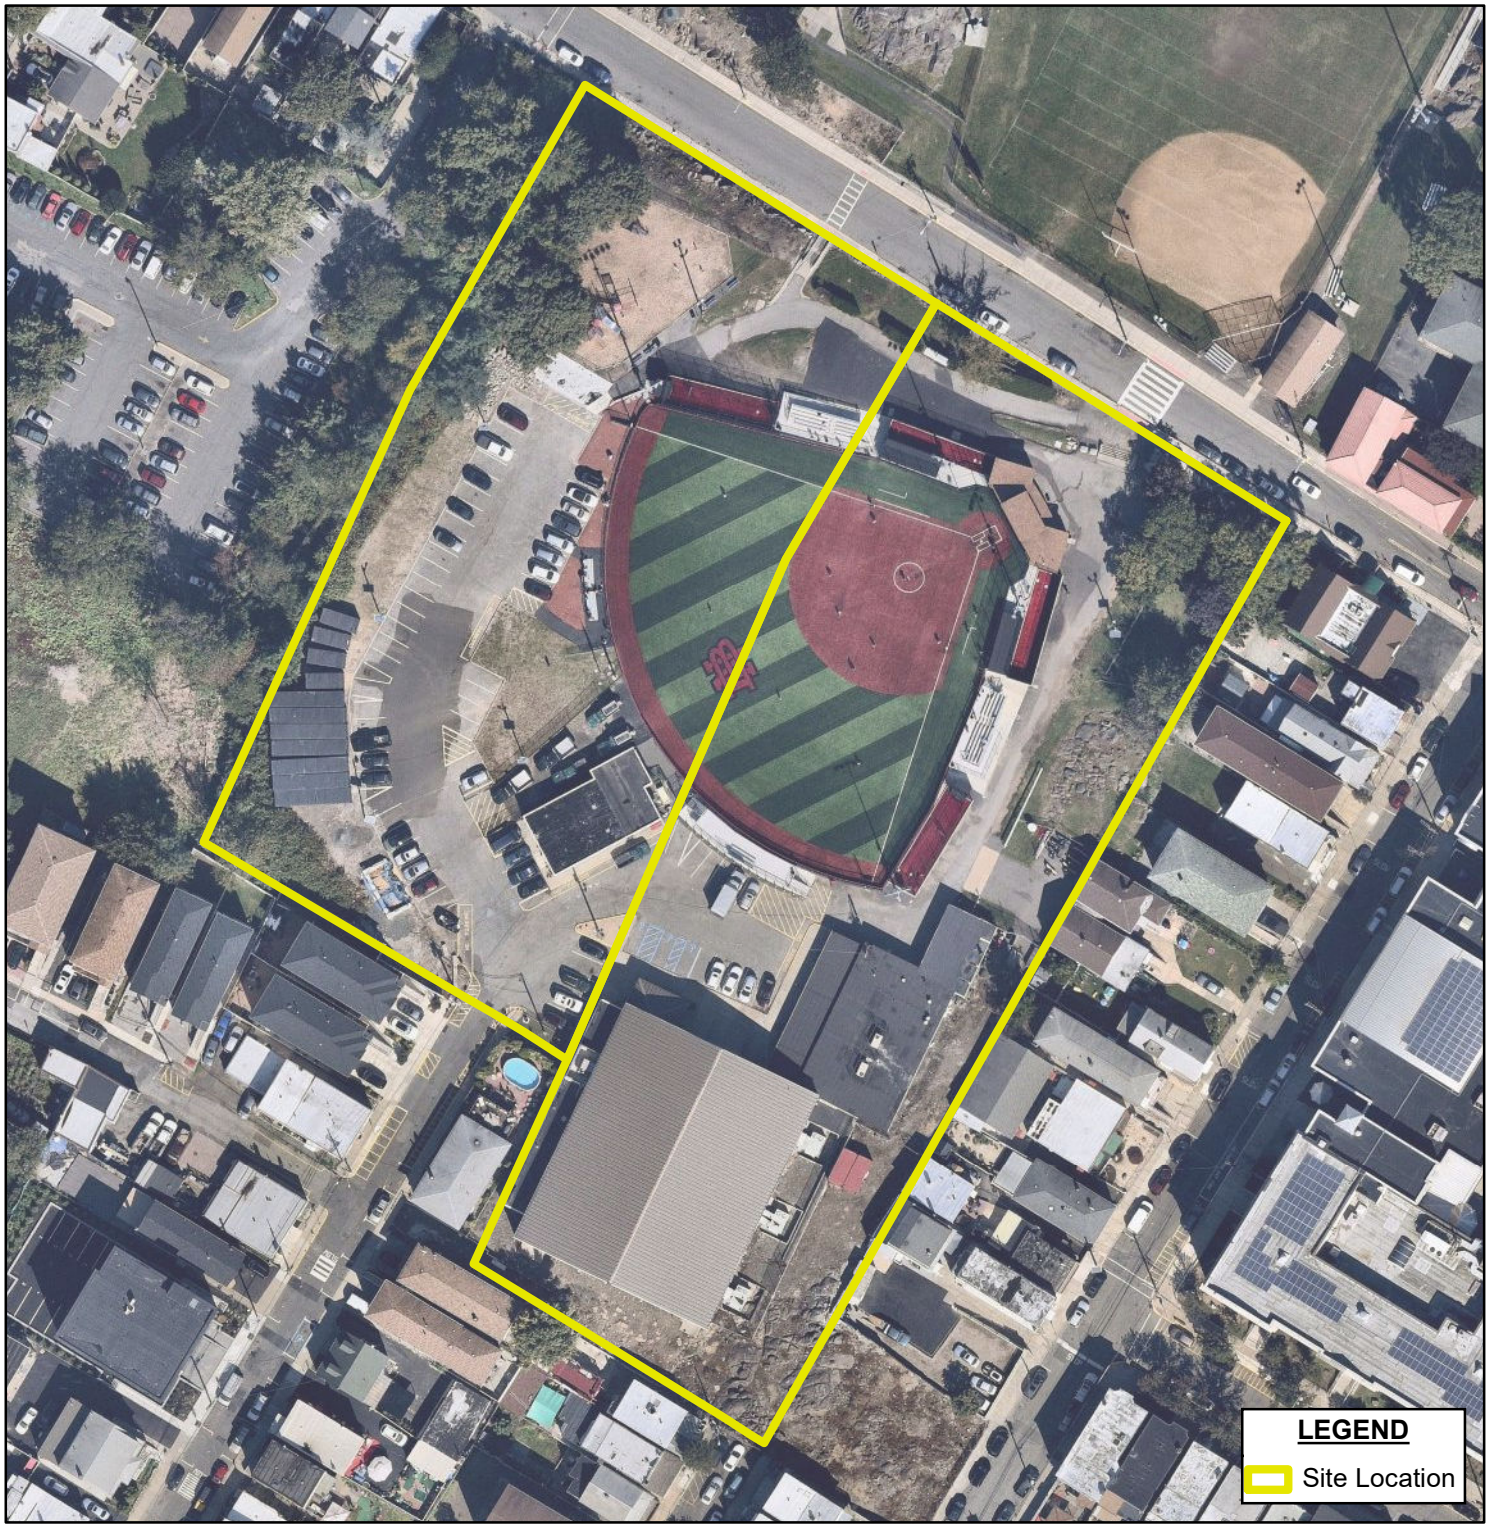

I certify under penalty of law that I have personally examined and am familiar with the information submitted herein, including all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, to the best of my knowledge, I believe that the submitted information is true, accurate and complete. I am aware that there are significant civil penalties for knowingly submitting false, inaccurate or incomplete information and that I am committing a crime of the fourth degree if I make a written false statement which I do not believe to be true. I am also aware that if I knowingly direct or authorize the violation of any statute, I am personally liable for the penalties.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OR DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT.** Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction orforecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

EDR Chain of Title

The EDR Chain of Title Report tracks a line of successive owners from the present back to 1932 of a particular parcel of property, linked together by recorded transactions which pass title. Available nationwide, this report provides a summary of a property's ownership history and is a valuable source for determining the prior uses of a property.

A network of professional abstractors following established procedures, uses client supplied address information to locate:

• Historical Chain of Title research

Thank you for your business.

1956

BEGINNING at a point in the westerly line of Durham Avenue, distant four hundred seventy-five (475) feet southerly from the intersection formed by said westerly line of Durham Avenue with the southerly side of 64th Street; said point of beginning being the southeasterly corner of Lot 3 in Block 205 as shown on the Tax Map of the Township of North Bergen; and running thence (1) westerly and parallel to said southerly line of 64th Street, North fifty-two degrees thirty minutes twenty seconds West (N 52°40'20"W) ninety-five and seventeen hundredths (95.17) feet to the southwesterly corner of said Lot 3; thence (2) northerly and in continuation of the westerly line of said Lot 3, North thirty-five degrees fifty-six minutes forty seconds East (N 35°56'40"E) four hundred seventy-two and sixty-seven hundredths (472.67) feet to a point in the westerly line of Lot 21 in said Block 205 which is distant two and fifty hundredths (2.50) feet southerly from the northwesterly corner of said Lot 21 and which point is also the intersection of the westerly line of said Lot 21 with the southerly line of that portion of 64th Street running westerly from said westerly line of Lot 21; thence (3) westerly and along the southerly line of said 64th Street, North fifty-one degrees forty-nine minutes West (N 51°49' W) four hundred thirty-seven and ninety-eight hundredths (437.98) feet to the North easterly corner of Lot 41 in said Block 205; thence (4) southerly and along and beyond the easterly line of said Lot 41, South thirty-six degrees seven minutes West (S 36°07'W) one hundred sixty-nine and forty-four hundredths (169.44) feet to an anglepoint in the easterly line of Lot 85 in said Block 205; thence (5) continuing southerly along and beyond said easterly line of Lot 85, South thirty-one degrees fourteen minutes thirty-eight seconds West (S 31°14'38"W) two hundred seventy-three and ninety hundredths (273.90) feet to a point in the easterly line of Lot 82 in said Block 205 and which last described point is also the northwesterly corner of Lot 29 in said Block 205; thence (6) easterly along and beyond the northerly line of said Lot 29, South fifty-two degrees thirty-eight minutes fifty-two seconds East (S 52°38'52"E) two hundred nineteen and twenty-five hundredths (219.25) feet to the northeasterly corner of Lot 24 in said Block 205; thence (7) southerly and along the easterly line of said Lot 24, South thirty degrees forty-seven minutes thirty-one seconds West (S 30°47'31"W) one hundred fifteen and seventy-six hundredths (115.76) feet to a point in the northerly line of Lot 582 in said Block 205; thence (8) easterly, along and beyond the northerly line of said Lot 582, South fifty-two degrees thirty-eight minutes fifty-two seconds East (S 52°38' 52"E) two hundred eighty-three and fifty-two hundredths (283.52) feet to

a point in the westerly line of Durham Avenue; thence (9) northerly and along said westerly line of Durham Avenue, North twenty-two degrees twenty-one minutes thirty-eight seconds East (N 22°21'38"E) seventeen and ninety-one hundredths (17.91) feet to an anglepoint therein; thence (10) continuing northerly and along said westerly line of Durham Avenue, North thirty-seven degrees thirty-seven minutes forty seconds East (N 37°37'40"E) sixty and thirty-three hundredths (60.33) feet to the point or place of beginning.

Excepting therefrom the lands and premises, including the building thereon, being more particularly described as follows: Starting at a point in the westerly line of Durham Avenue, distant four hundred seventy-five (475) feet southerly from the intersection formed by said westerly line of Durham Avenue with the southerly line of 64th Street, said starting point being the southeasterly corner of Lot 3 in Block 205 as shown on the Tax Map of the Township of North Bergen, Hudson County, New Jersey, and running thence westerly and along the southerly side of said Lot North fifty-two degrees thirty minutes twenty seconds West (N 52°30'20"W) ninety-five and seventeen hundredths (95.17) feet to the southwesterly corner of said Lot 3; thence northerly, along and beyond the westerly line of said Lot 3 North thirty-five degrees fifty-six minutes forty seconds East (N 35°56'40"E) ninety-nine and eighteen hundredths (99.18) feet to a point opposite the southerly face of a certain one story concrete block and brick building standing on the tract herein being described; thence westerly, North fifty-six degrees twenty-nine minutes twenty seconds West (N 56°29'20"W) twenty-four and ninety-six hundredths (24.96) feet to the southeasterly corner of the aforementioned building and which point is the place of beginning of the tract herein being described; thence (1) westerly and along the southerly face of said building North fifty-six degrees twenty nine minutes twenty seconds West (N 56 29'20"W) fifty and three hundredths (50.03) feet to the southwesterly corner of said building; thence (2) northerly and along the westerly face of said building North thirty-three degrees thirty minutes forty seconds East (N 33°30'40"E) eighty and forty-one hundredths (80.41) feet to the northwesterly corner of said building; thence (3) easterly, along and beyond the present northerly wall of said building South fifty-six degrees twenty-nine minutes twenty seconds East (S 56°29'20"E) fifty (50) feet more or less to a point opposite the easterly face of said building; thence (4) southerly to and along said easterly face, South thirty-three degrees thirty minutes forty seconds West (S 33°30'40"W) eighty and four tenths (80.4) feet more or less to the southeasterly corner of said building, being the point or place of beginning.

Reserving, in addition thereto, the rights of the public, of ingress and egress for pedestrian and vehicular traffic to all public streets abutting the lands and premises hereinabove described, comprising Lots 1, 2, 622G and Plot 22, Block 205 on the Tax Map of the Township of North Bergen, Hudson County, N. J.

Containing an area of five and twenty-one thousandths (5.021) acres. Also known as Lots 1, 2, 622G and Plot 22, Block 205 on the Tax Map of the Township of North Bergen, Hudson County, New Jersey, be and is hereby conveyed to the North Bergen Board of Education to be used in connection with the contemplated construction of a school thereon.

The execution of the within instrument was duly authorized by an Ordinance duly adopted by the Board of Commissioners of the Township of North Bergen at a meeting duly held, constituted and convened on the 18th day of July, 1974.

Together with all and singular the buildings, improvements, ways, woods, waters, watercourses, rights, liberties, privileges, hereditaments and appurtenances to the same belonging or in anywise appertaining; and the reversion and reversions, remainder and remainders, rents, issues and profits thereof, and of every part and parcel thereof; And also all the estate, right, title, interest, use, possession, property, claim and demand whatsoever, of the Grantor both in law and in equity, of, in and to the premises herein described, and every part and parcel thereof, with the appurtenances. To Have and to Hold all and singular, the premises herein described, together with the appurtenances, unto the Grantees and to Grantees' proper use and benefit forever.

And the Grantor covenants that it has not done or executed, or knowingly suffered to be done or executed, any act, deed or thing whatsoever whereby or by means whereof the premises conveyed herein, or any part thereof, now are or at any time hereafter, will or may be charged or encumbered in any manner or way whatsoever.

In all references herein to any parties, persons, entities or corporations, the use of any particular gender or the plural or singular number is intended to include the appropriate gender or number as the text of the within instrument may require.

Wherever in this instrument any party shall be designated or referred to by name or general reference, such designation is intended to and shall have the same effect as if the words "heirs, executors, administrators, personal or legal representatives, successors and assigns" had been inserted after each and every such designation.

In Witness Whereof, the Grantor has caused these presents to be signed and attested by its proper corporate officers and its corporate seal to be hereto affixed the day and year first above written.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

lawful money of the United States of America, to it in hand well and truly paid by the Grantees, at or before the sealing and delivery of these presents, the receipt whereof is hereby acknowledged, and the Grantor being therewith fully satisfied, does by these presents grant, bargain, sell and convey unto the Grantees forever,

All that *tract or parcel* of land and premises, situate, lying and being in the Township of North Bergen in the *County of* Hudson *and State of New Jersey, more particularly described as follows:*

2956

BEGINNING at a point in the westerly line of Durham Avenue, distant four hundred seventy-five (475) feet southerly from the intersection formed by said westerly line of Durham Avenue with the southerly side of 64th Street; said point of beginning being the southeasterly corner of Lot 3 in Block 205 as shown on the Tax Map of the Township of North Bergen; and running thence (1) westerly and parallel to said southerly line of 64th Street, North fifty-two degrees thirty minutes twenty seconds West (N 52°40'20"W) ninety-five and seventeen hundredths (95.17) feet to the southwesterly corner of said Lot 3; thence (2) northerly and in continuation of the westerly line of said Lot 3, North thirty-five degrees fifty-six minutes forty seconds East (N 35°56'40"E) four hundred seventy-two and sixty-seven hundredths (472.67) feet to a point in the westerly line of Lot 21 in said Block 205 which is distant two and fifty hundredths (2.50) feet southerly from the northwesterly corner of said Lot 21 and which point is also the intersection of the westerly line of said Lot 21 with the southerly line of that portion of 64th Street running westerly from said westerly line of Lot 21; thence (3) westerly and along the southerly line of said 64th Street, North fifty-one degrees forty-nine minutes West (N 51°49' W) four hundred thirty-seven and ninety-eight hundredths (437.98) feet to the Northeasterly corner of Lot 41 in said Block 205; thence (4) southerly and along and beyond the easterly line of said Lot 41, South thirty-six degrees seven minutes West (S 36°07'W) one hundred sixty-nine and forty-four hundredths (169.44) feet to an anglepoint in the easterly line of Lot 85 in said Block 205; thence (5) continuing southerly along and beyond said easterly line of Lot 85, South thirty-one degrees fourteen minutes thirty-eight seconds West (S 31°14'38"W) two hundred seventy-three and ninety hundredths (273.90) feet to a point in the easterly line of Lot 82 in said Block 205 and which last described point is also the northwesterly corner of Lot 29 in said Block 205; thence (6) easterly along and beyond the northerly line of said Lot 29, South fifty-two degrees thirty-eight minutes fifty-two seconds East (S 52°38'52"E) two hundred nineteen and twenty-five hundredths (219.25) feet to the northeasterly corner of Lot 24 in said Block 205; thence (7) southerly and along the easterly line of said Lot 24, South thirty degrees forty-seven minutes thirty-one seconds West (S 30°47'31"W) one hundred fifteen and seventy-six hundredths (115.76) feet to a point in the northerly line of Lot 582 in said Block 205; thence (8) easterly, along and beyond the northerly line of said Lot 582, South fifty-two degrees thirty-eight minutes fifty-two seconds East (S 52°38'52"E) two hundred eighty-three and fifty-two hundredths (283.52) feet to

a point in the westerly line of Durham Avenue; thence (9) northerly and along said westerly line of Durham Avenue, North twenty-two degrees twenty-one minutes thirty-eight seconds East (N 22°21'38"E) seventeen and ninety-one hundredths (17.91) feet to an anglepoint therein; thence (10) continuing northerly and along said westerly line of Durham Avenue, North thirty-seven degrees thirty-seven minutes forty seconds East (N 37°37'40"E) sixty and thirty-three hundredths (60.33) feet to the point or place of beginning.

Excepting therefrom the lands and premises, including the building thereon, being more particularly described as follows: Starting at a point in the westerly line of Durham Avenue, distant four hundred seventy-five (475) feet southerly from the intersection formed by said westerly line of Durham Avenue with the southerly line of 64th Street, said starting point being the southeasterly corner of Lot 3 in Block 205 as shown on the Tax Map of the Township of North Bergen, Hudson County, New Jersey, and running thence westerly and along the southerly side of said Lot North fifty-two degrees thirty minutes twenty seconds West (N 52°30'20"W) ninety-five and seventeen hundredths (95.17) feet to the southwesterly corner of said Lot 3; thence northerly, along and beyond the westerly line of said Lot 3 North thirty-five degrees fifty-six minutes forty seconds East (N 35°56'40"E) ninety-nine and eighteen hundredths (99.18) feet to a point opposite the southerly face of a certain one story concrete block and brick building standing on the tract herein being described; thence westerly, North fifty-six degrees twenty-nine minutes twenty seconds West (N 56°29'20"W) twenty-four and ninety-six hundredths (24.96) feet to the southeasterly corner of the aforementioned building and which point is the place of beginning of the tract herein being described; thence (1) westerly and along the southerly face of said building North fifty-six degrees twenty nine minutes twenty seconds West (N 56 29'20"W) fifty and three hundredths (50.03) feet to the southwesterly corner of said building; thence (2) northerly and along the westerly face of said building North thirty-three degrees thirty minutes forty seconds East (N 33°30'40"E) eighty and forty-one hundredths (80.41) feet to the northwesterly corner of said building; thence (3) easterly, along and beyond the present northerly wall of said building South fifty-six degrees twenty-nine minutes twenty seconds East (S 56°29'20"E) fifty (50) feet more or less to a point opposite the easterly face of said building; thence (4) southerly to and along said easterly face, South thirty-three degrees thirty minutes forty seconds West (S 33°30'40"W) eighty and four tenths (80.4) feet more or less to the southeasterly corner of said building, being the point or place of beginning.

Reserving, in addition thereto, the rights of the public, of ingress and egress for pedestrian and vehicular traffic to all public streets abutting the lands and premises hereinabove described, comprising Lots 1, 2, 622G and Plot 22, Block 205 on the Tax Map of the Township of North Bergen, Hudson County, N. J.

Containing an area of five and twenty-one thousandths (5.021) acres. Also known as Lots 1, 2, 622G and Plot 22, Block 205 on the Tax Map of the Township of North Bergen, Hudson County, New Jersey, be and is hereby conveyed to the North Bergen Board of Education to be used in connection with the contemplated construction of a school thereon.

The execution of the within instrument was duly authorized by an Ordinance duly adopted by the Board of Commissioners of the Township of North Bergen at a meeting duly held, constituted and convened on the 18th day of July, 1974.

Together with all and singular the buildings, improvements, ways, woods, waters, watercourses, rights, liberties, privileges, hereditaments and appurtenances to the same belonging or in anywise appertaining; and the reversion and reversions, remainder and remainders, rents, issues and profits thereof, and of every part and parcel thereof; And also all the estate, right, title, interest, use, possession, property, claim and demand whatsoever, of the Grantor both in law and in equity, of, in and to the premises herein described, and every part and parcel thereof, with the appurtenances. To Have and to Hold all and singular, the premises herein described, together with the appurtenances, unto the Grantees and to Grantees' proper use and benefit forever.

And the Grantor covenants that it has not done or executed, or knowingly suffered to be done or executed, any act, deed or thing whatsoever whereby or by means whereof the premises conveyed herein, or any part thereof, now are or at any time hereafter, will or may be charged or encumbered in any manner or way whatsoever.

In all references herein to any parties, persons, entities or corporations, the use of any particular gender or the plural or singular number is intended to include the appropriate gender or number as the text of the within instrument may require.

Wherever in this instrument any party shall be designated or referred to by name or general reference, such designation is intended to and shall have the same effect as if the words "heirs, executors, administrators, personal or legal representatives, successors and assigns" had been inserted after each and every such designation.

In Witness Whereof, the Grantor has caused these presents to be signed and attested by its proper corporate officers and its corporate seal to be hereto affixed the day and year first above written.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.

SECTION 3: DATABASES SEARCHED AND UPDATE DATES

To maintain currency of the following federal, state and local databases, EDR contacts the appropriate government agency on a monthly or quarterly basis as required.

Elapsed ASTM days: Provides confirmation that this report meets or exceeds the 90-day updating requirement of the ASTM standard.

FACILITY RELATED DATABASES

AIR EMISSIONS

ERNS: Emergency Response Notification System
Source: National Response Center, United States Coast Guard
Telephone: 202-267-2180
Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 06/15/2020
Database Release Frequency: Quarterly
Date of Last EDR Contact: 09/22/2020
Date of Next Scheduled Update: 01/04/2021

ICIS: Integrated Compliance Information System
Source: Environmental Protection Agency
Telephone: 202-564-2501
The Integrated Compliance Information System (ICIS) supports the information needs of the national enforcement and compliance program as well as the unique needs of the National Pollutant Discharge Elimination System (NPDES) program.

Date of Government Version: 11/18/2016
Database Release Frequency: Quarterly
Date of Last EDR Contact: 10/01/2020
Date of Next Scheduled Update: 01/18/2021

WATER DISCHARGES

PCS: Permit Compliance System
Source: EPA, Office of Water
Telephone: 202-564-2496
PCS is a computerized management information system that contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS tracks the permit, compliance, and enforcement status of NPDES facilities.

Date of Government Version: 07/14/2011
Database Release Frequency: Semi-Annually
Date of Last EDR Contact: 10/02/2020
Date of Next Scheduled Update: 01/18/2021

FINDINGS

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) NJ MacRAE'S Industrial Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's NJ MacRAE'S Industrial Directory Report includes a search and abstract of available industrial directories. For each address, the directory lists the name of the corresponding occupant.

A summary of the information obtained is provided in the text of this report.

FINDINGS

APPENDIX K

Glossary of Terms

GLOSSARY OF TERMS

Aerial Photographs	Photographs taken from an airplane, helicopter or satellite (from a low enough altitude to allow identification of development and activities) of areas encompassing the *property*. Aerial photographs are often available from government agencies or private collections unique to a local area.
Asbestos	Six naturally occurring fibrous minerals found in certain types of rock formations. Of the six, the minerals chrysotile, amosite and crocidolite have been most commonly used in building products. When mined and processed, asbestos is typically separated into very thin fibers. Because asbestos is strong, incombustible, and corrosion-resistant, asbestos was used in many commercial products beginning early in this century and peaking in the period from World War II into the 1970's. When inhaled in sufficient quantities, asbestos fibers can cause serious health problems.
Asbestos Containing Material (ACM)	Any material or product that contains more than one percent asbestos.
Building Department Records	Those records of the local government in which the *property* is located indicating permission of the local government to construct, alter or demolish improvements on the *property*. Often building department records are located in the building department of a municipality or county.
Commercial Real Estate	Any real *property* except a dwelling or property with no more than four dwelling units exclusively for residential use (except that a dwelling or property with no more than four dwelling units exclusively for residential use is included in this term when it has a commercial function, as in the building of such dwellings for profit). This term includes but is not limited to undeveloped real property and real property used for industrial, retail, office, agricultural, other commercial, medical, or educational purposes; property used for residential purposes that has more than four residential dwelling units; and property with no more than four dwelling units for residential use when it has a commercial function, as in the building of such dwellings for profit.
Commercial Real Estate Transaction	A transfer of title to or possession of real property or receipt of a security interest in real property, except that it does not include transfer of title to or possession Transaction of real property or the receipt of a security interest in real property with respect to an individual dwelling or building containing fewer than five dwelling units, nor does it include the purchase of a lot or lots to construct a dwelling for occupancy by a purchaser, but a commercial real estate transaction does include real property purchased or leased by persons or entities in the business of building or developing dwelling units.

GLOSSARY OF TERMS
(continued)

Construction Debris	Concrete, brick, asphalt and other such building materials discarded in the construction of a building or other improvement to property.
Contaminated Public Wells	Public wells used for drinking water that have been designated by a government entity as contaminated by toxic substances, or as having water unsafe to drink without treatment.
Demolition Debris	Concrete, brick, asphalt and other such building materials discarded in the demolition of a building or other improvement to property.
Drum	A container (typically, but not necessarily, holding 55 gal (208 L) of liquid that may be used to store hazardous substances or petroleum products.
Dry Wells	Underground areas where soil has been removed and replaced with pea gravel, coarse sand, or large rocks. Dry wells are used for drainage, to control storm runoff, for the collection of spilled liquids (intentional and non-intentional) and wastewater disposal (often illegal).
Due Diligence	The process of inquiring into the environmental characteristics of a parcel of commercial real estate or other conditions, usually in connection with a commercial real estate transaction. The degree and kind of due diligence vary for different properties and differing purposes.
Dwelling	Structure or portion thereof used for residential habitation.
Environmental Site Assessment	The process by which a person or entity seeks to determine if a particular parcel of real property (including improvements) is subject to recognized environmental conditions. At the option of the user, an environmental site assessment may include more inquiry than that constituting appropriate inquiry.
Fill Dirt	Dirt, soil or other earth that is obtained off-site, that is used to fill holes or depressions, create mounds, or otherwise artificially change the grade or elevation of real property. It does not include material that is used in limited quantities for normal landscaping activities.
Fire Insurance Maps	Maps produced for private fire insurance map companies that indicate uses of properties at specified dates and that encompass the property. These maps are often available at local libraries, historical societies, private resellers, or from the map companies who produce them.

GLOSSARY OF TERMS
(continued)

Hazardous Substance	A substance defined as a hazardous substance pursuant to CERCLA 42 USC §9601(14), as interpreted by EPA regulations and the courts: "(A) any substance designated pursuant to section 1321(b)(2)(A) of Title 33, (B) any element, compound, mixture, solution or substance designated pursuant to section 9602 of this title, (C) any hazardous waste having the characteristics identified under or listed pursuant to section 3001 of the Solid Waste Disposal Act (42 USC § 6921) (but not including any waste the regulation of which under the Solid Waste Disposal Act (42 USC § 6901 et seq.) has been suspended by Act of Congress), (D) any toxic pollutant listed under section 1317(a) of Title 33, (E) any hazardous air pollutant listed under section 112 of the Clean Air Act (42 USC § 7412), and (F) any imminently hazardous chemical substance or mixture with respect to which the Administrator (of EPA) has taken action pursuant to section 2606 of Title 15. The term does not include petroleum, including crude oil or any fraction thereof which is not otherwise specifically listed or designated as a hazardous substance under subparagraphs (A) through (F) of this paragraph, and the term does not include natural gas, natural gas liquids, liquefied natural gas, or synthetic gas usable for fuel (or mixtures or natural gas and such synthetic gas)."
Hazardous Waste	Any hazardous waste having the characteristics identified under or listed pursuant to section 3001 of the Solid Waste Disposal Act (42 USC § 6921) (but not including any waste the regulation of which under the Solid Waste Disposal Act (42 USC § 6901 et seq.) has been suspended by Act of Congress). The Solid Waste Disposal Act of 1980 amended RCRA. RCRA defines a hazardous waste, in 42 USC § 6903, as: "a solid waste, or combination of solid wastes, which because of its quantity, concentration, or physical, chemical or infectious characteristics may (A) cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness; or (B) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed.
Hazardous Waste Site	Sites on which a release has occurred, or is suspected to have occurred, of any Contaminated Sites hazardous substance, hazardous waste, or petroleum products, and that release or suspected release has been reported to a government entity.

GLOSSARY OF TERMS
(continued)

Landfill	A place, location, tract of land, area, or premises used for the disposal of solid wastes as defined by state solid waste regulations. The term is synonymous with the term solid waste disposal site and is also known as a garbage dump, trash dump, or similar term.
Local Government Agencies	Those agencies of municipal or county government having jurisdiction over the property. Municipal and county government agencies include but are not limited to cities, parishes, townships, and similar entities.
LUST Sites	State lists of leaking underground storage tank sites. Section 9003 (h) of Subtitle I of RCRA gives EPA and states, under cooperative agreements with EPA, authority to clean up releases from UST systems or require owners and operators to do so.
Material Safety Data Sheet (MSDS)	Written or printed material concerning a hazardous substance which is prepared by chemical manufacturers, importers, and employers for hazardous chemicals pursuant to OSHA's Hazard Communication Standard, 29 CFR 1910.1200.
Owner	Generally the fee owner of record of the property.
Petroleum Exclusion	The exclusion from CERCLA liability provided in 42 USC § 9601(14), as interpreted by the courts and EPA: "the term (hazardous substance) does not include petroleum, including crude oil or any fraction thereof which is not otherwise specifically listed or designated as a hazardous substance under subparagraphs (A) through (F) of this paragraph, and the term does not include natural gas, natural gas liquids, liquefied natural gas, or synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas)."
Petroleum Products	Those substances included within the meaning of the petroleum exclusion to CERCLA, 42 USC § 9601(14), as interpreted by the courts and EPA, that is: petroleum, including crude oil or any fraction thereof which is not otherwise specifically listed or designated as a hazardous substance under Subparagraphs (A) through (F) of 42 USC § 9601(14), natural gas, natural gas liquids, liquefied natural gas, and synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas). (The word fraction refers to certain distillates of crude oil, including gasoline, kerosene, diesel oil, jet fuels, and fuel oil, pursuant to Standard Definitions of Petroleum Statistics.

GLOSSARY OF TERMS
(continued)

Physical Setting Resources	Sources that provide information about the geologic, hydrogeologic, hydrologic or topographic characteristics of a property.
Practically Reviewable	Information that is practically reviewable means that the information is provided by the source in a manner and in a form that, upon examination, yields information relevant to the property without the need for extraordinary analysis of irrelevant data. The form of the information shall be such that the user can review the records for a limited geographic area. Records that cannot be feasibly retrieved by reference to the location of the property or a geographic area in which the property is located are not generally practically reviewable. Most databases of public records are practically reviewable if they can be obtained from the source agency by the county, city, zip code, or other geographic area of the facilities listed in the record system. Records that are sorted, filed, organized, or maintained by the source agency only chronologically are not generally practically reviewable. For large databases with numerous facility records (such as RCRA hazardous waste generators and registered underground storage tanks), the records are not practically reviewable unless they can be obtained from the source agency in the smaller geographic area of zip codes. Even when information is provided by zip code for some large databases, it is common for an unmanageable number of sites to be identified within a given zip code. In these cases, it is not necessary to review the impact of all of the sites that are likely to be listed in any given zip code because that information would not be practically reviewable. In other words, when so much data is generated that it cannot be feasibly reviewed for its impact on the property, it is not practically reviewable.
Pits, Ponds or Lagoons	Man-made or natural depressions in a ground surface that are likely to hold liquids or sludge containing hazardous substances or petroleum products. The likelihood of such liquids or sludge being present is determined by evidence of factors associated with the pit, pond or lagoon, including, but not limited to, discolored water, distressed vegetation, or the presence of an obvious wastewater discharge.
Property	The real property that is the subject of the environmental site assessment described in this practice. Real property includes buildings and other fixtures and improvements located on the property and affixed to the land.
Reasonably Ascertainable	For purposes of both Practice E 1527 and Practice E 1528, information that is (1) publicly available, (2) obtainable from its source within reasonable time and cost constraints, and (3) practically reviewable.

GLOSSARY OF TERMS
(continued)

Recorded Land Title Records	Records of fee ownership, leases, land contracts, easements, liens, and other encumbrances on or of the property recorded in the place where land title records are, by law or custom, recorded for the local jurisdiction in which the property is located. (Often such records are kept by a municipal or county recorder or clerk). Such records may be obtained from title companies or directly from the local government agency. Information about the title to the property that is recorded in a U.S. district court or any place other than where land title records are, by law or customs, recorded for the local jurisdiction in which the property is located, are not considered part of recorded land title records.
Site Reconnaissance	The site reconnaissance includes, but is not limited to, the site inspection done in connection with such a Phase I Environmental Site Assessment.
Site Inspection	The inspection of the property during which observations are made constituting the site reconnaissance section of Practice E 1527 and the site visit requirement of Practice E 1528.
Solid Waste Disposal Site	A place, location, tract of land, area, or premises used for the disposal of solid wastes as defined by state solid waste regulations. The term is synonymous with the term landfill and is also known as a garbage dump, trash dump, or similar term.
Solvent	A chemical compound that is capable of dissolving another substance and is itself a hazardous substance, used in a number of manufacturing/ industrial processes including but not limited to the manufacture of paints and coatings for industrial and household purposes, equipment clean-up, and surface degreasing in metal fabricating industries.
State Registered USTs	State lists of underground storage tanks required to be registered under Subtitle Section 9002 of RCRA.
Sump	A pit, cistern, cesspool, or similar receptacle where liquids drain, collect, or are stored.
Underground Storage Tank (UST)	Any tank, including underground piping connected to the tank, that is or has been used to contain hazardous substances or petroleum products and the volume of which is 10% or more beneath the surface ground.
USGS 7.5 Minute Topographic Map	The map (if any) available from or produced by the United States Geological Survey, entitled “USGS 7.5 Minute Topographic Map,” and showing the property.

GLOSSARY OF TERMS
(continued)

Wastewater	Water that (1) is or has been used in an industrial or manufacturing process, (2) conveys or has conveyed sewage, or (3) is directly related to manufacturing, processing, or raw materials storage areas at an industrial plant. Wastewater does not include water originating on or passing through or adjacent to the site, such as stormwater flows, that has not been used in industrial or manufacturing processes, has not been combined with sewage, or is not directly related to manufacturing, processing, or raw materials storage areas at an industrial plant.
Zoning/Land Indicating Use Records	Those records of the local government in which the property is located the uses permitted by the local government in particular zones within its jurisdiction. The records may consist of maps and/or written records. They are often located in the planning department of a municipality or county.

This glossary was developed in accordance with the general terms presented and issued by the American Society for Testing and Materials.

N:\ENV\Boiler Plates\Phase I\ESA Glossary of Terms.doc

APPENDIX L

Qualifications

FRANK J. ROSSI, LSRP
Environmental Science Department Head

EDUCATION:

M.S., Chemical Engineering, New Jersey Institute of Technology
B.S., Chemistry, Fairleigh Dickinson University

PROFESSIONAL REGISTRATION:

Licensed Site Remediation Professional (LSRP) – New Jersey

CERTIFICATIONS:

OSHA 40-Hour HAZWOPER & 8-Hour Annual Refresher
Confined Space Entry
AHERA Asbestos Inspector/Management Planner
NJDEP Licensed for UST – Installation, Testing, Closure & Subsurface Evaluation
NPDES Certified Stormwater Inspector

HIGHLIGHTS:

- Project Manager for the Preliminary Assessments of numerous several hundred-acre facilities.
- Extensive turn-key experience from PAs through a project's investigation and remediation.

RELEVANT EXPERIENCE:

Mr. Rossi has over 33 years of experience as a project manager/senior environmental/chemical engineer. He has a strong diverse background in chemical, civil and environmental engineering. Mr. Rossi also has extensive hands-on experience in all types of field applications, including but not limited to, **Preliminary Environmental Site Assessments**, Site Investigations (SI) underground storage tank (UST) removals and installations, remedial investigations (RI) and remedial actions (RA).

His specific experience with **Preliminary Assessment (PA)** projects includes:

- Project manager for the **PA** of Greystone Psychiatric Hospital in Morris Plains, New Jersey. Performed a through and detailed assessment of this 900-acre, 125-year old facility. Work included a thorough inspection of over 50 buildings, some currently in use and others abandoned for decades.

- Project manager for the **PA** of the proposed Pulte Homes Greenpark Village, a 700-unit active adult community in Wanaque, New Jersey. Performed a detailed PA of this 500-acre parcel containing a significant number of environmental constraints including, subsurface 18th century iron mines, USTs, wetlands and the adjacent former DuPont Gunpowder Works.

- Project manager for the **PA** of the Fairleigh Dickinson University, Rutherford, New Jersey campus. Prior to the property's sale, performed a detailed PA of this 11.5-acre college campus comprising 13 buildings housing offices, auditoriums, classrooms, laboratories, residence halls, etc.

- Project manager for the **PA** of Venezia's Auto Supply, an existing gasoline filling station/auto supply business operating continuously since 1920. The PA revealed the site contained at least nine (9) USTs over the years, a 40,000-gallon AST, and a floor drain system connected to a septic disposal field. Following completion of the PA prepared a detailed Site Investigation Workplan (SIW) addressing each of the environmental AOCs.

- Project manager for the **PA** of a former PSE&G vehicle maintenance garage in Pompton Lakes, New Jersey. Performed and prepared a comprehensive PA Report detailing such areas of environmental concern as undocumented USTs, in-ground hydraulic lifts, floor drains and waste oil contaminated septic system.

- Project manager for the **PA** of a former gasoline filling station in Garfield, New Jersey. Through the analysis of historic Sanborn Fire Insurance Maps identified six (6) USTs remaining on the property since the station's closure in the late 1960s. Following the PA, performed the site's UST removal, site investigation and provided professional oversight during the facility's demolition.

BOSWELL
ENGINEERING

CHRIS EDWARD ARNTZ, P.E., P.P., LSRP
Chief Environmental Project Engineer

EDUCATION:

M.S., Geoenvironmental Engineering, New Jersey Institute of Technology
B.S., Civil Engineering, New Jersey Institute of Technology
A.S., Mathematics/A.A., Liberal Arts, Raritan Valley Community College

PROFESSIONAL REGISTRATION:

Professional Engineer – New Jersey, New York & New Hampshire
Professional Planner – New Jersey
NJDEP Licensed Site Remediation Professional (LSRP)

CERTIFICATIONS:

OSHA 40-Hour HAZWOPER & 8-Hour Site Supervisor
AHERA Asbestos Inspector/Management Planner
NJDEP Licensed for UST – Installation, Testing, Closure and Subsurface Evaluation

HIGHLIGHTS:

- Extensive due diligence experience with both real estate Phase I Environmental Site Assessments and NJDEP Preliminary Assessments.
- Prepared Preliminary Assessments for projects ranging in size from single-family residences to several hundred-acre abandoned industrial facilities.

RELEVANT EXPERIENCE:

Mr. Arntz has over 28-years of diverse experience in civil and environmental engineering. He has performed numerous **Preliminary Assessments (PA)**, site/remedial investigations (SI/RI) and remedial actions pursuant to the NJDEP regulations. He has provided design, technical, logistical and administrative support at hazardous waste sites to both public and private clients. Mr. Arntz also served as a Region II Technical Assistance Team (TAT) Group Leader to the U.S. Environmental Protection Agency's Superfund program. His specific experience with **PAs** includes:

- Project engineer for the **PA** of Greystone Park Psychiatric Hospital in Morris Plains New Jersey. Performed a through and detailed assessment of this 900-acre, 125-year old facility. Work included a thorough inspection of over 50 buildings, some currently in use and others abandoned for decades. Identified numerous environmental areas of concern (AOC) including, underground storage tanks (UST), 55-gallon drum and electrical transformer disposal areas and a forgotten manufactured gas plant (MGP). Following several months of fieldwork, authored a comprehensive PA Report.

- Project engineer for the **PA** of a former plastics manufacturer in Northvale, NJ. Performed a comprehensive investigation in accordance with the NJDEP's Industrial Site Recovery Act (ISRA) identifying a floor drain system through which a former building owner previously discharged chlorinated volatile organic contaminants (CVOC) into an onsite septic system. Subsequently completed the project's SI, RI and RA. Prepared detailed cost estimates for all work resulting in the property's sale and redevelopment into a self-storage facility.

- Project engineer for the **PA** of Fairleigh Dickinson University's, Rutherford, NJ campus. Prior to the property's acquisition by Felician College, performed a detailed PA of this 11.5-acre college campus comprising 13 buildings including offices, auditoriums, classrooms, laboratories and residence halls.

- Project engineer for the **PA** and subsequent site/remedial investigation and remedial action of a former PSE&G maintenance garage in Pompton Lakes, NJ. Performed a PA and authored a detailed report identifying previously undocumented USTs, in-ground hydraulic truck lifts and a floor drain system through which oil was improperly disposed to an onsite septic field. Provided expert testimony in Superior Court on behalf of the client's remedial cost recovery efforts.

- Project engineer for the **PA** of the Pulte Homes Wanaque Reserve, a 700-unit active adult condominium community in Wanaque, New Jersey. Performed a detailed PA of this 500-acre parcel containing a significant number of environmental constraints including, subsurface iron mines dating from the colonial era, USTs, wetlands and the former DuPont Gunpowder Works.

BOSWELL
ENGINEERING

THOMAS J. O'NEILL, LSRP
Senior Environmental Project Scientist

EDUCATION:

BA, Environmental Science, William Paterson University

PROFESSIONAL REGISTRATION:

NJDEP Licensed Site Remediation Professional (LSRP)

CERTIFICATIONS:

USEPA Preliminary Assessment/Site Investigation (PA/SI) Training
OSHA 40-Hour HAZWOPER & 8-Hour Site Supervisor
Confined Space Entry
New Jersey Lead Inspector/Risk Assessor
AHERA Asbestos Inspector/Management Planner

HIGHLIGHTS:

- Performed Preliminary Assessments for the USEPA's Superfund Program.
- Performed PAs as part of municipal property acquisitions under NJDEP's Green Acres Program.

RELEVANT EXPERIENCE:

Mr. O'Neill has over 31-years of experience in environmental science. As an Environmental Scientist for the US Environmental Protection Agency's Region II Superfund Technical Assessment and Response Team (START), Mr. O'Neill has participated in numerous **Preliminary Environmental Site Assessments**, site investigations, site remediations, and underground storage tank (UST) removals.

His specific experience with **Preliminary Assessment (PA)** projects includes:

- Prepared a **PA** for a former lighting manufacturer in accordance with the NJDEP's Industrial Site Recovery Act (ISRA) regulations. In addition to the review of Federal, State and local records, historical research was also conducted using chain of title information and MacRae's Industrial Directory. A Site Investigation (SI) was subsequently performed to investigate areas of environmental concern identified during the PA.

- Performed two (2) **PAs** of five (5) residential and two (2) commercial/industrial buildings for the Hackensack University Medical Center (HUMC). During the PA performed all necessary due diligence in accordance with the ASTM 1527-00 standards including, reviewing Sanborn Maps, aerial photographs, industrial directories and government records.

- Conducted a **PA** of an apartment building and attached warehouse in Jersey City, New Jersey. The property had been developed for over 100-years and was previously used by commercial, industrial and residential tenants. Boswell conducted a thorough review of federal, state and local records to obtain past tenant history and the location of former buildings on the site that had since been razed. Using the PA results proceeded with a Phase II investigation consisting of soil borings and groundwater sampling at several areas of concern.

- Performed a **PA** on three (3) contiguous commercial/residential properties in Palisades Park, New Jersey as part of due diligence prior to the property purchase. Conducted thorough research into the prior occupancy of multi-tenant commercial buildings and garages on the subject properties using Sanborn Maps, historic City Directories and interviews with local officials. Multiple information sources were used and corroborated in order to minimize gaps in tenant information.

- Conducted two (2) separate **PAs** for the Borough of Woodcliff Lake, New Jersey in order to obtain funding to purchase property through **New Jersey's Green Acres program**. In addition to the standard PA reporting, potential wetlands, threatened and endangered species, and environmentally sensitive areas on the subject properties were also evaluated.

Tiffany Khorozian
Environmental Scientist

BOSWELL ENGINEERING

YEARS OF EXPERIENCE: 2 Years

EDUCATION:

B.S. Environmental Science, Ramapo College of New Jersey

ACCREDITATIONS / CERTIFICATIONS:

OSHA 40-Hour HAZWOPER and 8-Hour Annual Refresher
AHERA Asbestos Building Inspector, 2019
Introduction to Wetlands Identification, 2019
LSRPA Due Diligence in New Jersey Course, 2020

EXPERIENCE:

Ms. Khorozian has two (2) years of experience in the field of environmental science and remediation which includes experience with Preliminary Assessments (PA) and Site/Remedial Investigations (SI/RI) performed in accordance with the New Jersey Department of Environmental Protection (NJDEP) Site Remediation Program (SRP) regulations. Ms. Khorozian has experience conducting multi-media field sampling including soil, groundwater, and methane. Ms. Khorozian also has experience and knowledge interpreting laboratory data and preparing the requisite reports for submittal to the SRP.

Ms. Khorozian's specific environmental experience includes the following representative projects:

- ***12 Woodport Road, Sparta, NJ.*** Participated in the investigation of chlorinated volatile organic contaminants (CVOC) released form a dry cleaner's septic system. Conducted quarterly groundwater sampling, monthly groundwater gauging, and provided in depth review and interpretation of laboratory data and remedial activities as part of the site's RI.

- ***Westvale Park Methane Monitoring, Westwood, NJ.*** Installed quarterly temporary methane monitoring points and obtained off-gas readings at a former municipal landfill that was developed into a Borough park. Also provided oversight of required air testing for the site's NJDEP Air Permit.

- ***G.I. Auto Salvage, Montville, NJ.*** At a former automotive junkyard, performed groundwater sampling and collected field parameter data such as methane concentrations at each of the monitoring wells. Provided technical oversight during the decommissioning of multiple monitoring wells that were damaged by onsite activities, or no longer needed for the continuing investigation.

- ***Mary Street Water Tank, Hawthorne, NJ***. Participated in the remediation of lead contaminated soil at a Borough owned 3-million-gallon water storage tank. Collected post-excavation soil samples and interpreted/tabulated laboratory data during the project's RI phase.

- ***River Drive, Garfield, NJ.*** Conducted soil and groundwater sampling as part of the RI on seven (7) separate Brownfield properties along River Drive. The City planned to acquire these properties as part of a riverfront walkway and park project. Provided an in-depth review and interpretation of laboratory data and remedial activities as part of the RIR for submittal to the NJDEP.

- ***KB Newark, Newark, NJ.*** Completed the requisite Biennial Certification in accordance with the site's Remedial Action Permit (RAP). Work included a comprehensive site inspection noting changes to the engineering control due to recent improvements, and completing all necessary Licensed Site Remediation Professional (LSRP) forms for submission to the NJDEP.

- ***ENOR Plastics, Northvale, NJ.*** Assisted with the delineation of CVOCs released into an onsite septic system. Work included groundwater sampling and provided in depth review and interpretation of laboratory data as part of the site's RI Report for submittal to the NJDEP.

- ***Meadowlands Conservation Trust, North Bergen, NJ.*** Performed a detailed PA for a 50-acre undeveloped parcel located in the New Jersey Meadowlands. Since most of the property was inaccessible wetlands, utilized aerial drone technology to successfully complete the site inspection and identify potential environmental AOCs.

APPENDIX M

Terms and Conditions

TERMS & CONDITIONS

The New Jersey Department of Environmental Protection (NJDEP) Green Acres Program Rules (N.J.A.C.7:36) establish the procedures by which the State will provide funding to local government units and nonprofits to acquire or develop lands for recreation and conservation. As part of the application process for funding, local government units and nonprofits are required to perform a Preliminary Assessment (PA).

Boswell Engineering has completed a PA of the subject property as required by the NJDEP Green Acres Program. The function of this report is to assist our client in identifying any deleterious environmental conditions or hazards requiring attention. The assessment was conducted to identify present or potential environmental areas of concern (AOC) resulting from activities on-site, or in its immediate vicinity.

The purpose of this PA was to identify, through diligent inquiry, potential AOCs in accordance with the requirements of the New Jersey Department of Environmental Protection's (NJDEP), *Technical Requirements for Site Remediation*, N.J.A.C. 7:26E-3.1 & 3.2 (Technical Requirements) and *Preliminary Assessment Technical Guidance*. Diligent inquiry means conducting a search of all documents that are reasonably likely to contain information related to the object of the inquiry and making reasonable inquiries of current of former employees who may have knowledge of hazardous substances, hazardous wastes, or pollutants at a site.

The Technical Requirements define the term "AOC" as an existing or former location where hazardous substances, hazardous wastes, or pollutants are or were known to have been discharged, generated, manufactured, refined, transported, stored, handled, treated, disposed or where hazardous substances, hazardous wastes, or pollutants have or may have migrated.

The PA is intended to reduce, but not necessarily eliminate, uncertainty regarding the potential for AOCs in connection with the Property recognizing the reasonable limits of time and cost. The performance of a PA at a property will help minimize public liability for site cleanup costs and help ensure that any lands acquired or developed with public funds can be utilized for recreation without risk to public health.

Limitations and Exceptions of Assessment

A PA **does not** include the following services:

A. Site Investigation (SI), Remedial Investigation (RI), soil and groundwater sampling laboratory analysis, etc.

B. Remedial Action Workplan (RAW), supervision of cleanup, Response Action Outcome (RAO), etc.

C. Environmental Impact Statement (EIS).

D. Wetlands delineation, Letter of Interpretation (LOI), etc.

E. Surveys for asbestos containing material (ACM), lead based paint, radon, methane gas, lead in drinking water, industrial hygiene, biological agents and mold.

F. Underground storage tank (UST) integrity testing and removal.

H. Geophysical survey.

Limiting Conditions and Methodology Used

The scope of the environmental services included in this report are summarized as follows:

A. Perform a site reconnaissance of the subject property to ascertain any physically detectable environmental concerns.

B. Research and review reasonably ascertainable historical information and documents regarding the subject site in order to identify areas and/or items of potential environmental concern.

C. Compile a pertinent regulatory history of the subject site and of any on-site structures and/or facilities utilizing readily available State, County and local records.

D. Contact applicable regulatory agencies to determine if any environmental violations and/or enforcement actions have occurred on, or adjacent to the subject site.

E. Present a determination regarding the present condition of the project site and, if necessary, offer recommendations for the next stage of assessment.

The scope of our services consists of four (4) tasks:

A. **Records Review:** Obtain and review reasonably ascertainable historical information and documents that will help identify recognized environmental conditions in connection with the Property. This includes review of the following:

1. Currently available listings from Federal and State databases:

2. Aerial photographs.

3. U.S. Geologic Survey (USGS) Topographic Maps to obtain information concerning the Site and nearby property topography.

4. Industrial & City Directories

5. Chain-of-title information, if available, to identify past owners/occupants of the Site whose names may suggest activities typically associated with the use, generation, storage and disposal of hazardous materials/waste.

6. Sanborn Fire Insurance Maps (Sanborn Maps).

7. Prior environmental records and reports.

8. NJDEP Geographic Information System (GIS).

9. Open Public Records Act (OPRA) requests to State, County and local offices such as the NJDEP, County Health Department, local health, fire and building departments, or any other local agency having jurisdiction over hazardous waste disposal or other environmental matters.

B. **Site Reconnaissance:** Obtain information indicating the likelihood of recognized environmental conditions in connection with the Property by visual and physical observation of the Site and adjoining properties:

1. A site reconnaissance survey identifies potential indicators of hazardous materials and/or wastes on the Site. The indicators may include, but are not limited to, 55-gallon drums, chemical containers, waste disposal areas, industrial facilities, discolored surface soils, electrical transformers potentially containing PCBs, underground storage tanks and areas conspicuously absent of vegetation. Storm and wastewater discharge points, as well as Site waste disposal operations would also be identified.

2. A survey of the adjacent properties, from public thoroughfares, to evaluate their potential impact on the subject Site. The survey's results determine if any developed properties potentially use, store, generate or dispose of hazardous materials or waste.

It should be understood that a site reconnaissance is a visual survey only and **does not include** physical investigation such as soil excavation, concrete demolition and the movement of large or permanent objects. The information gathered during the reconnaissance is entirely dependent upon the conditions encountered during the survey.

C. **Interviews with Owners and Occupants:** Present and/or former owners and occupants will be asked written and/or oral questions concerning property usage. Responses to these questions may reveal information regarding the existence of pertinent documents. Additionally, any threatened, pending or past proceedings concerning the Property's environmental conditions may be uncovered.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 07/29/2020 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

Latitude (North):	40.795389 - 40° 47' 43.40''
Longitude (West):	74.021415 - 74° 1' 17.09''
Universal Tranverse Mercator:	Zone 18
UTM X (Meters):	582557.3
UTM Y (Meters):	4516293.0
State Plane X (Feet):	624625.2
State Plane Y (Feet):	715016.9
Elevation:	202 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	6049416 WEEHAWKEN, NJ
Version Date:	2014
East Map:	5940599 CENTRAL PARK, NY
Version Date:	2013

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

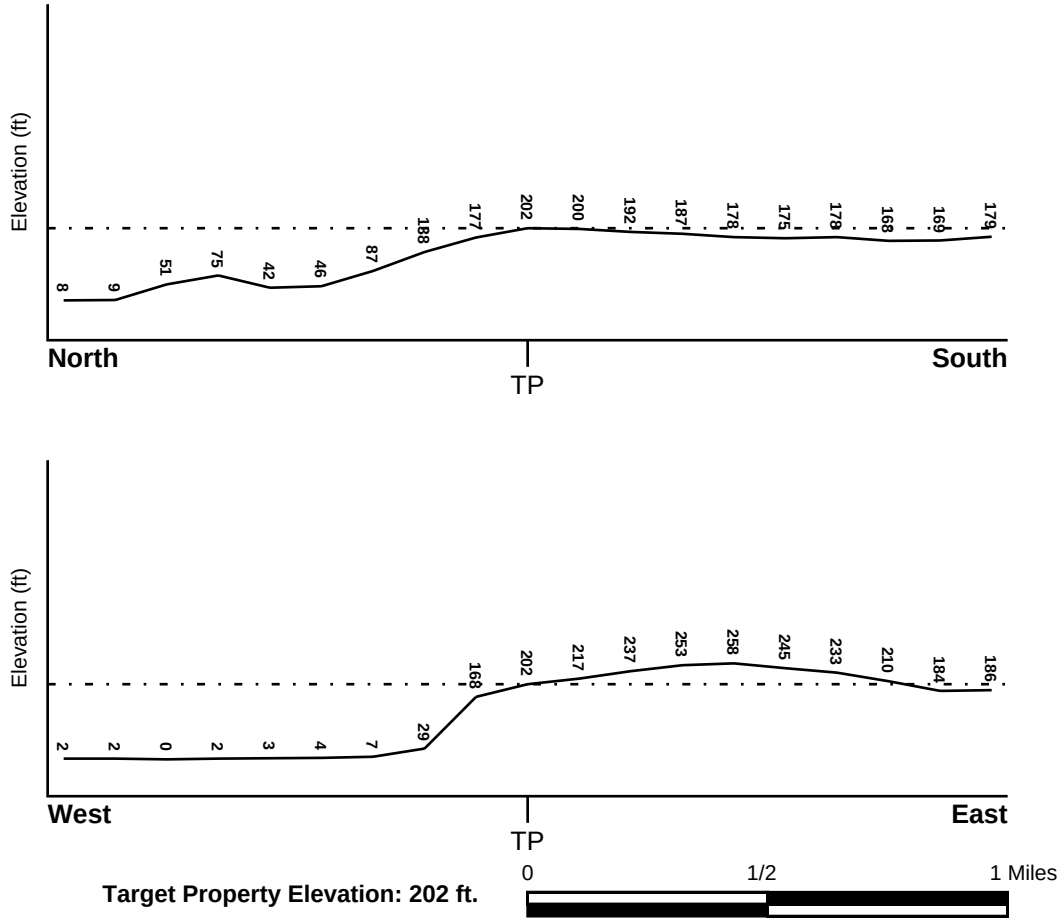

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 202 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
34003C0267G	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
34003C0266G	FEMA FIRM Flood data
3604970069F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
WEEHAWKEN	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
1	1/4 - 1/2 Mile ENE	WSW
1G	1/4 - 1/2 Mile ENE	WSW

For additional site information, refer to Physical Setting Source Map Findings.

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Mesozoic
System:	Triassic
Series:	Triassic
Code:	Tr *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	BOONTON
Soil Surface Texture:	gravelly - loam
Hydrologic Group:	Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.
Soil Drainage Class:	Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	MODERATE
Depth to Bedrock Min:	> 60 inches
Depth to Bedrock Max:	> 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	8 inches	gravelly - loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay. FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 2.00 Min: 0.60	Max: 5.50 Min: 4.50
2	8 inches	30 inches	gravelly - loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay. FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 2.00 Min: 0.60	Max: 6.00 Min: 4.50
3	30 inches	60 inches	gravelly - sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 0.20 Min: 0.06	Max: 6.50 Min: 5.60
4	60 inches	72 inches	loamy fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 2.00 Min: 0.06	Max: 7.30 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: shaly - loam
silt loam
extremely stony - loam
unweathered bedrock
very stony - loam
stony - silt loam
loam

Surficial Soil Types: shaly - loam
silt loam
extremely stony - loam

unweathered bedrock
very stony - loam
stony - silt loam
loam

Shallow Soil Types: cobbly - fine sandy loam

Deeper Soil Types: gravelly - loam
unweathered bedrock
gravelly - sandy loam
gravelly - fine sandy loam
stratified

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory
Source: Department of Environmental Protection
Telephone: 609-984-2243

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

New Jersey Public-Community Water-Supply Wells
Source: Department of Environmental Protection, Geological Survey
Telephone: 609-984-6587

New Jersey Ambient Ground Water Quality Network Data
Source: Department of Environmental Quality
Telephone: 609-984-6587
Ambient Groundwater Quality of the New Jersey Part of the Newark Basin. Natural groundwater quality in the Newark Basin summarize natural groundwater quality in sedimentary bedrock formations of the Newark basin part of the Piedmont physiographic province of New Jersey.

STORET Water Quality Monitoring Stations
Source: Department of Environmental Protection
Telephone: 609-984-6831
STORET maintains the locations of water quality monitoring stations from NJDEP's NJ STORET (Modernized) database. A station is a location at which a data collection event takes place, such a collection of a field sample, measurement of field parameters or evaluation of environmental habitats.

Water Well Permit Information
Source: Department of Environmental Protection
Telephone: 609-984-6831
Permits to drill wells. Once constructed, the driller must submit a well record document with the as-built description of the well. Drillers also submit a well abandonment report whenever a well has been decommissioned.

Applicability Questionnaire

Is this a Single Family Dwelling with a land disturbance of one acre or more that was determined to be exempt from Chapter 251 certification? No

Is the discharge associated with a quarrying activity? No

Is the discharge associated with a landfill? No

Is there less than 1 acre of disturbance as per SCD calculations? No

SCD Certified Plan

SCD Certification Code: SH5KEC08KR
251 Identification Code: 218-H-4123

Soil Conservation District - HUDSON-ESSEX-PASSAIC
80 Orchard St
Bloomfield, NJ , 07003, (862) 333-4505

Application Specific Information

Area of Disturbance: 2

Is this a new facility? N

Project description:
The scope of this project includes the replacement of an existing natural turf athletic field with synthetic turf with underdrain system, installation of retaining walls, replacement and reconfiguration of an existing parking lot, construction of a dog run area, construction of a playground area with rubberized play surface, as well as miscellaneous improvements to associated stormwater management facilities, sidewalks and landscaping

Describe the current land use and general nature of disturbance activity:
The current land use is recreational and will remain as such upon completion of construction. Disturbance will occur in two parts to minimize area and length of disturbance. Field turf replacement and underdrain/subsurface detention installation will be performed first. Upon completion and stabilization of the field area, the remainder of the site improvements will be performed.

Do you have any existing NJPDES permits? N

NJPDES Permits: N/A
Permit has a storm water component: N/A

Certification Information

Based on the information provided, your project is subject to permit regulations under N.J.A.C. 7:14A-1.2 and 2.4.(b).11 "Stormwater discharge associated with construction activity"

As a courtesy we have compiled all of your responses and listed them in this report. You have provided all of the information displayed in this report. Please be sure to read all of the Stormwater Construction Permit terms and conditions to ensure you are in compliance at all times during the construction activity. You may print this report for your records.

Responsible Official - Doug Hopper **Date** - 09/14/2018

PRELIMINARY ASSESSMENT REPORT
NORTH BERGEN BOARD OF EDUCATION
1401 64TH STREET
NORTH BERGEN, NJ 07047

EXECUTIVE SUMMARY

The North Bergen Board of Education (hereinafter "**NBBOE"**) retained Bell Environmental Consultants, Inc. (hereinafter "**BELL**") to prepare a Preliminary Assessment (PA) of a series of adjacent properties (Block 205, Lots 22, 30 & 84) with a general street address of 1401 64th Street, Township of North Bergen, Hudson County, 07047 (hereinafter "the Site"). The Site Location Map is provided as Figure 1. The findings and conclusions of this PA report are based on the conditions observed at the time of Site reconnaissance which was conducted on February 21, 2013. The PA Report consists of the completed New Jersey Department of Environmental Protection (NJDEP) Preliminary Assessment Data Gathering Checklist and referenced attachments. The PA has been conducted in general accordance with the requirements set forth in the Technical Requirements for Site Remediation. The NJDEP PA form has not been included as submittal of this PA to the NJDEP is not anticipated. The PA findings are summarized below:

- The Site is improved with three (3) cinder block buildings utilized as a Recreation Building (Lot 22), a youth center (lot 22) and a township recreation building (Lot 30), as well as a playground in the north corner of Lot 30. Complementing the buildings are paved parking areas with the majority of Lot 22 being an unpaved athletic field. Sanitary wastewater is reportedly handled via a township sanitary system and the Site is serviced by a municipal water supply. Available records, aerial and Sanborn maps suggest that the Site was vacant until at least 1936 at which time the Sanborn maps indicate an auto wrecking facility occupied a portion of the Site. These operations were absent from both the prior 1910 and the subsequent 1950 Sanborn maps so a worst case scenario is an operational history from 1911 to 1949. Subsequently, the property was vacant and developed as an athletic field complex by the Township of North Bergen.
- The Site is not referenced in any EDR database and there appear to have been no USTs on the site (historically or currently).
- Six (6) potential Areas of Concern (AOC) were identified from the site reconnaissance and data obtained for the Site. These are discussed below:

    - **AOC 1 (Auto Wrecking Operations on Block 221, Lot 10)** – AOC-1 addresses the historical presence of auto wrecking operations on Block 221, Lot 10 (across 64th Street). This is a potential AOC for both subject Site Block 205, Lot 22 and Block 205, Lot 30 as it is located in a probable hydraulically upgradient location. The potential operational timeframe (i.e., worst case 1911 to 1949) would be prior to any environmental regulations and the probability exists that discharges did occur at this location. Absent further information from the property owner indicating that this area has been investigated by the property owner, ***Further investigations are recommended.***

    - **AOC 2 (Auto Wrecking Operations on Block 205, Lot 30)** – AOC-2 addresses the historical presence of an auto wrecking operations on the NE Portion of the subject Site (Block 205, Lot 30). The potential operational timeframe (i.e., worst case 1911 to 1949) would be prior to any environmental regulations and the probability exists that discharges did occur at this location. ***Further investigation is recommended***.

    - **AOC 3 (Merlo Site on Block 205, Lot 81)** – AOC-3 addresses the documented soil and ground water contamination on the Merlo site (Block 205, Lot 81) which is located (based on surface topography) in the presumed upgradient position from the subject Site (Block 205, Lot 84). Absent further information from the property owner indicating that this area has been investigated by the property owner, ***Further investigations are recommended.***

- **AOC 4 (Auto Wrecking Operations - Block 231, Lot 44)** – AOC-4 addresses the historical presence of auto wrecking operations on Block 231, Lot 44 (North of subject Site Block 205, Lot 30). The potential operational timeframe (i.e., worst case 1911 to 1949) would be prior to any environmental regulations and the probability exists that discharges did occur at this location. However, this AOC appears topographically lower than the subject site. ***No further investigation is recommended***.

- **AOC 5 (Potential Farmland - Block 205, Lot 22 and 30)** – AOC-5 addresses the possibility of historical usage (early 1900s) as farmland based on a review of the aerial photographs. The NJDEP has developed a protocol for addressing such acreage (see Attachment E) especially applicable to sensitive populations. ***Further investigation is recommended***.

- **AOC 6 (Historical Fill - Block 205 Lot 30)** – AOC-6 addresses the visible presence of fill material in the North/Northeast section of Lot 30. It appears, based on the elevation difference between the ball field and the parking area, that upwards of 4 feet of fill of unknown quality have been brought onto the site. ***Further investigation is recommended***.

1.0 PRELIMINARY ASSESSMENT DATA CHECKLIST & FORM

PRELIMINARY ASSESSMENT DATA GATHERING CHECKLIST

(2) Section refers to the section in the PA Submittal

2.0 APPENDIX A – SITE DESCRIPTION

2.1 Location and Legal Description

The Site consists of Block 205, Lot 22 (approximately 2.69 acres), Block 205, Lot 30 (approximately 2.07 acres) and Block 205, Lot 84 (approximately 0.49 acres), with a general street address of 1401 64th Street, Township of North Bergen, Hudson County, 07047. The Site is 100% land (i.e., no streams, rivers or other water bodies are on the site). The Site regional location is shown on Figure 1. A current tax map showing the legal designations for the Site and surrounding properties is included as Figure 2.

2.2 Site and Vicinity General Characteristics

2.2.1 Geology

The Site is located in the Township of North Bergen, Hudson County, which is located within the Newark Basin, which is one of a series of block-faulted half-graben basins that extends southwest from Rockland County, New York to Lancaster County, Pennsylvania. The Newark Basin, contained within the Piedmont Physiographic Province, is dominated by Upper Triassic to Lower Jurassic non-marine sedimentary stream and lake deposits. It is interbedded with quartz, olivine-poor, theolitic basaltic lava flows and intruded by diabasic sills and dikes. The sediments in the basins dip between 5^0 to 15^0 southwest. The bedrock underlying the site is reported a Jurassic Diabase. Based on a review of the United States Department of Agriculture (USDA) Soil Conservation Service (SCS) Soil Survey for Bergen County, the Site is situated within the Dunellen - Urban Land Soil Association. This association is nearly level to steep, deep, well drained, loamy and gravelly sandy loam soils, and urban land on outwash plains and terraces that overlie stratified sand and gravel deposits. Slopes range from 0 to 5 percent and there are multiple outcrops of bedrock both on the site and across 64^{th} Street.

2.2.2 Hydrogeology

Ground water in the North Bergen region occurs within both thin surface alluvial deposits and fracture zones within the underlying consolidated bedrock. However, the lack of overburden in most of the subject area yields a regional hydrology that is typically confined to the bedrock aquifer system.

2.2.3 Surface Water

Based on topographical evaluations, surface water runoff from the Site (when there is any) would appear to travel via overland flow toward Grand Avenue and Meadowview Avenue which are topographically lower in elevation than the Site.

2.3 Current and Historical Use of the Property

The Site is improved with three (3) cinder block buildings utilized as a Recreation Building (Lot 22), a youth center (lot 22) and a township recreation building (Lot 30). Complementing the buildings are paved parking areas with the majority of Lot 22 being an unpaved athletic field. Additionally, there is a playground in the north corner of Lot 30. Sanitary wastewater is handled via a township sanitary system and the Site is serviced by a municipal water supply. Available records, aerial and Sanborn maps suggest that the Site was vacant until at least 1936 at which time the Sanborn maps indicate an auto wrecking facility occupied a portion of the subject site. These operations were absent from both the prior 1910 and the subsequent 1950 Sanborns so a worst case scenario is an operational history from 1911 to 1949. Subsequently, the property was vacant and developed as an athletic field complex by the Township of North Bergen.

2.4 Current Uses of the Adjoining Properties

The Site is located in a predominantly residential area with minor commercial industrial. North of the subject Site is another athletic field complex. Located to the East and South are residential properties. Located to the west is an industrial/commercial property (Merlo) which has documented soil and ground water contamination.

2.5 Historic Fill

The NJDEP Historic Fill Map is a publicly available GIS application. Historic fill is a media that typically includes metal and base neutral contaminant concentrations above regulatory standards. A review of the NJDEP Historic Fill Maps and a site review do not indicate the presence of historic fill at the Site. However a review of the site suggests the presence of fill on the north/northwest section of Lot 30 as the parking areas is approximately 4 feet above the ball field elevation. It is probable that non-native fill has been used at the site to create a level topography over the underlying undulating top of bedrock.

3.0 APPENDIX B – INFORMATION PROVIDED BY THE CLIENT

3.1 Title Records

Title records were not provided and are not included in this PA.

3.2 Owner, Property Manager Information

There was no information, other than what had already been obtained, provided by the owner.

3.3 Reason for Performing Preliminary Assessment

NBBOE is considering the redevelopment and use of the site.

4.0 APPENDIX C – SANBORN FIRE INSURANCE MAPS

Environmental Data Resources, Inc provided copies of Sanborn Fire Insurance Maps. Copies of the maps are included as Attachment A. Due to the scale and relative clarity of the maps, site features were not discernable on all maps.

YEAR	SITE	NORTH	SOUTH	EAST	WEST
1900	Site not yet constructed – Possible Farmland	Vacant	Residential	Residential	Residential / Commercial
1910	No Change	No Change	Lincoln School Appears	No Change	No Change
1936	64th St. Present / Auto Wrecking Facility on NE Portion of Lot 30 / House appears on Lot 84	Auto Wrecking Facility appears NE of site on what is now the adjacent ball field	No Change	No Change	Two USTs appear on what is now Block 205, Lot 81 (Merlo)
1950	Auto Wrecking Facility Gone, Minor Structures on site	Auto Wrecking Facility gone	Liberty Ave becomes Meadowview Ave.	Auto Salvage Site appears next to Lincoln School	No Change
1979	Additional Athletic Structures onsite / Property designated as Athletic Field / House on Lot 84 Gone	Second Athletic Field, across 64th Street now designated	No Change	Auto Salvage Site Gone and appears to be parking for Lincoln School	UST Designation gone on Block 205, Lot 81 (Merlo)
1988	No Change	No Change	No Change	No Change	No Change
1991	No Change	No Change	No Change	No Change	No Change
1994	No Change	No Change	No Change	No Change	No Change
1995	No Change	No Change	No Change	No Change	No Change
1999	Recreation Center Bldg Appears	No Change	No Change	No Change	No Change
2001	No Change	No Change	No Change	No Change	No Change
2002	No Change	No Change	No Change	No Change	No Change
2003	No Change	No Change	No Change	No Change	No Change
2005	No Change	No Change	No Change	No Change	No Change
2006	No Change	No Change	No Change	No Change	No Change

5.0 APPENDIX D – RECORDS REVIEW

The following sources were researched to obtain information for the Site and adjacent properties that have the potential to impact the Site:

5.1 Federal, State and Local Agencies

The reviews of the government agencies contacted are presented below. Any documents received subsequent to submittal of the PA report will be reviewed and forwarded for inclusion. Copies of those files received in response to Freedom of Information (FOIA)/Open Public Records Act (OPRA) requests are included in Attachment B.

- **New Jersey Department of Environmental Protection (NJDEP)** – The NJDEP was contacted through the online OPRA form. Records were requested for the site. This report will be supplemented, as necessary, upon receipt of the records.

- **Hudson County** – an OPRA request was sent to Hudson County for all available records. This report will be supplemented, as necessary, upon receipt of the records.

- **Township of North Bergen** – An OPRA request was sent to the Township of North Bergen for all available records. This report will be supplemented, as necessary, upon receipt of the records.

- **United States Environmental Protection Agency (USEPA)** – The USEPA was not contacted as the site has had no operations since the origination of the EPA.

5.2 Industrial Site Recover Act List Review

The Industrial Site Recovery Act (ISRA) was adopted in 1997 to require owners or operators of selected industrial establishments to notify the NJDEP upon the initiation of certain triggering transactions. After submittal of the notice, an owner or operator of an industrial establishment was required to obtain a No Further Action (NFA) Notification from the NJDEP, or NJDEP approval of a Remedial Action Workplan or remediation agreement. The Site does not show up on this list.

5.3 The NJDEP Known Contaminated Site List (KCSL)

The NJDEP KCSL database is a publicly available database that identifies properties in New Jersey where soil and/or ground water contamination are known to exist. The KCSL includes properties where remediation is required but not yet begun, currently underway, or where remediation is complete. The Site does appear in the database and there appear to be no sites in close proximity to the Site with the exception of the All American Emblem Company located at 6612 Durham Avenue. No records or other information was available..

5.4 The NJDEP Regulated Underground Storage Tank (UST) Facilities List

The NJDEP UST database is a list of all such facilities in a County or a Municipality. The Site is not listed and there are no sites listed proximal to the Site.

5.5 Environmental Data Resources, Inc. (EDR) Database Review

EDR provided a database of State and Federal discharge reports, regulated users, and active/inactive cleanups of regulated contaminants which was used to identify the Site and nearby properties on a regulatory database. The complete EDR report is provided in Attachment C. A complete listing of those records searched for the EDR report is included in the Government Records section of the EDR report. A summary description, and by no means all inclusive, of some of the databases is summarized below:

- **Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS)** – CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

- **CERCLIES – No Further Remedial Action Planned (NFRAP)** – As of February 1995, CERCLIS sites designated "No Further Remedial Action Planned" (NFRAP) have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund Action or NPL consideration. EPA has removed approximately 25,000 NFRAP sites to lift the unintended barriers to the redevelopment of these properties and has archived them as historical records so EPA does not needlessly repeat the investigation in the future. This policy change is part of the EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens promote economic redevelopment of unproductive urban sites.

- **CORRACTS** – Corrective Action Report, CORRACTS identifies hazardous waste handlers with RCRA correction action activity.

- **EDR Historical Cleaners** – EDR searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry, etc.

- **ENG Controls** – Legal documentation that restricts the use of contaminated property, and hold owner(s) to the regulatory/statutory requirements for cleanup.

- **FINDS** – Facility Index System. FINDS contains both facility information and "pointers" to other sources that contain more detail.

- **HIST LUST** – Historic leaking underground storage tanks which is no longer updated or maintained by the NJDEP.

- **HWS** – Known contaminated sites in New Jersey that includes sites under the purview of the Site Remediation Program which have contamination present at levels greater than the applicable cleanup criteria for soil and/or groundwater standards. The sites appearing in Known Contaminated Sites in NJ are classified as either active, where the site is assigned to a specific remedial program area, or pending, where the site is awaiting assignment to a specific remedial program area.

- **INST Control** – A Classification Exception Area is an institutional control providing notice that groundwater contamination exists in a particular location above State standards.

- **ISRA** – The ISRA process begins with determining if the Act applies to your type of business and transaction. The provisions of ISRA only apply to industrial establishments. Industrial establishments refer to the type of business operations and transaction that would subject a facility to review under ISRA. An industrial establishment must meet each of the following three criteria: the place of business or real property at which such business is conducted, having a NAICS code and limitations; the place of business must have been engaged in operation on or after December 31, 1983; and the place of business must involve the generation, manufacture, refining, transportation, treatment, storage, handling or disposal of hazardous substances or hazardous wastes.

- **LIENS** – A listing of properties with environmental liens. The listing includes sites from the Site Remediation & Waste Management Program against sites where the NJDEP has placed either a 1st Priority or Regular Spill Fund Lien. 1st Priority Type Lien – a lien placed against the property where the discharge occurred providing that the owners of the property have some responsibility towards the discharge. A 1st Priority Lien is superior to other types of liens. Non-Priority (regular) Type Lien – a lien placed against the Responsible Party and their revenues and all real and personal property, other than the real property comprising the location of the discharge.

- **LUST** – Regulated UST Contamination Sites Listing. Leaking Underground Storage Tank Incident Reports. LUST records contain an inventory of reported leaking underground storage tank incidents. Not all states maintain these records and the information stored varies by state.

- **MANIFEST** – Contains hazardous waste manifest information.

- **MLTS** – Materials Licensing Tracking System.

- **NJ Spill** – Initial notification information of hazardous material incidents, where there is contamination reported to the NJDEP's Environmental Action Line. The NJDEP has not conducted any investigation to determine its validity or accuracy.

- **NJ Release** – Hazardous waste release. Initial notification information reported to the NJDEP's Action Line and the office has not conducted any investigations to determine its validity or accuracy.

- **NJDEP Bureau of Underground Storage Tanks (BUST)** – The NJDEP BUST database details registered underground storage tanks (USTs) located within New Jersey.

- **RCRA Notifier's Listing** – The Resource Conservation and Recovery Act (RCRA) Notifier's Listing contains information regarding facilities which are reported by the EPA to generate, treat, store, and/or dispose of hazardous materials/wastes.

A review of the database shows no mention of the site on any database. An analysis of those properties noted in the database yielded a result of all properties found to be of little to no concern either due to the nature of the contamination or the proximity (distance and upgradient or downgradient). EDR also identifies "*Orphan Sites*" (i.e., those sites that are identified on the database search but there is inadequate information to map them relative to the site) within the vicinity of the Site. Sixty Nine (69) "*orphan sites*" were identified in the EDR report which have been evaluated and determined to be of little to no concern. The closet site is at 6511 Durham (Residential Heating Oil discharge) but appears to be side gradient at best. The Site is not identified as an "*orphan site*".

6.0 APPENDIX E – HISTORICAL AERIAL PHOTOGRAPHIC DISCUSSIONS

Historical aerial photographs of the Site were interpreted for the years 1933, 1943, 1954, 1966, 1976, 1985, 1995, 2006, 2008, 2009, 2010, and 2011. Aerial photographs were provided by EDR. Observations made during review of these documents are detailed in the table shown below:

YEAR	SITE	NORTH	SOUTH	EAST	WEST
1933	Vacant Land Possible Farmland	Details are not discernable in aerial	Details are not discernable in aerial	Details are not discernable in aerial	Details are not discernable in aerial
1943	Vacant Land	Details are not discernable in aerial	Details are not discernable in aerial	Details are not discernable in aerial	Details are not discernable in aerial
1954	Vacant Land	Vacant Land	Residential	Residential	Mixed Use
1966	Ball field is Constructed	No Change	Mixed Use	No Change	No Change
1976	Details are not discernable in aerial	Details are not discernable in aerial	Details are not discernable in aerial	Details are not discernable in aerial	Details are not discernable in aerial
1985	Ball field is Constructed	Ball field is Constructed	Mixed Use	Residential	Residential
1995	No Change	No Change	No Change	No Change	No Change
2006	Rec Center Added	2nd Field Added	No Change	No Change	No Change
2008	No Change	No Change	No Change	No Change	No Change
2009	No Change	No Change	No Change	No Change	No Change
2010	No Change	No Change	No Change	No Change	No Change
2011	No Change	No Change	No Change	No Change	No Change

Notes:
(1) Due to the scale and clarity issues, site details were not readily discernible in all photographs.

7.0 APPENDIX F – SITE RECONNAISSANCE DISCUSSIONS

7.1 Methodology and Limiting Conditions

Site reconnaissance was undertaken on February 20, 2013 in order to note environmental conditions that could potentially affect the Site. Weather conditions at the time of site reconnaissance were clear and sunny. There were no general limitations imposed by physical obstructions or weather conditions. Representative photographs of the Site are provided as Attachment F.

7.2 Exterior Survey

The following table summarizes the findings of exterior observations of the Site.

EXTERIOR OBSERVATIONS			
Conditions	**Observed**	**Location and Description**	**AOC #**
Underground/Aboveground Storage Tanks	No		
Use, treatment, storage, disposal, or generation of hazardous substances or petroleum products	No		
Unidentified Substance containers	No		
Solid Waste (dumpsters/debris)	No		
Storage pads including drum and/or Equipment	No		
Areas of asphalt patch or surface depressions	No		
Stained soil or pavement	No		
Pools of liquid	No		
Surface impoundments and lagoons	No		
Storm sewer collection systems/catch Basins	No		
Wastewater and/or surface water bodies	No		
Wells (dry, irrigation, monitoring, abandoned, etc.)	No		
Public Utilities (source of potable water)	Yes	Connected to city water	
Septic systems	No		
Fill material	Yes	No indication of staining or odors	**AOC #6**
Areas of stressed vegetation	No		
Roof leaders (Process operations Vent to Roof)	No		
Unoccupied occupant spaces	No		
Loading or transfer areas	No		
Unusual odors	No		
Potential PCB transformers / capacitors	No		
Asbestos Containing Materials (ACMs)	No		
Lead Based Paint (LBP)	No		

7.3 Interior Survey

The following table summarizes the findings of interior observations of the Site.

INTERIOR OBSERVATIONS			
Conditions	**Observed**	**Location and Description**	**AOC #**
Containers not attributed to current use of Site	No		
Use, treatment, storage, disposal or generation of hazardous substances or petroleum products	No		
Storage pads including drum and/or waste storage (oil containing equipment)	No		
Solid waste (dumpsters/debris)	No		
Pools of liquid	No		
Stains or corrosion	No		
Loading and Unloading Areas	No		
Sinks/piping which receive process waste	No		
Areas of asphalt patch/surface depressions	No		
Heating/Cooling Source	Yes	Natural Gas Boilers	
Drinking water	Yes	Connected to City Water	
Incinerators	No		
Drains an Sumps	No		
Compressors	No		
Medical and Infectious Wastes	No		
Polychlorinated Biphenyls (PCBs)	No		
Asbestos Containing Materials (ACMs)	No		
Lead Based Paint (LBP)	No		

7.4 Storage Tanks

There are no storage tanks currently utilized at the Site.

7.5 Hazardous Materials

As of the time of the site reconnaissance associated with this PA, no raw material or chemical storage was noted.

7.6 Solid Wastes

No solid waste disposal was observed.

7.7 Polychlorinated Biphenyls (PCBs)

PCBs were used in the dielectric fluid of some transformers and capacitors manufactured prior to 1979. The EPA banned the use of PCBs in 1978. Electrical equipment and fluorescent light fixture ballasts manufactured prior to July 2, 1979 may contain PCBs. There were no transformers observed.

7.8 Asbestos Containing Material (ACM)

On July 2, 1989, the EPA issued a final rule banning most asbestos-containing products which, after appeal, addresses: flooring felt, roll board, and corrugated commercial, or specialty paper as well as products that have not historically contained asbestos. ACM means any material containing more than one (1%) per cent asbestos that has been applied to any part of a building or equipment. ACM represents a concern when it is subject to damage that results in the release of fibers. Friable ACM, which can be crumbled by hand pressure and is therefore susceptible to damage, is of particular concern. Non-friable ACM is a potential concern if it is damaged by maintenance work, demolition or other activities. An asbestos survey was not conducted as part of this investigation; however, no potential ACMs were observed.

7.9. Lead Based Paint

Use of lead in household paint was banned by the EPA, effective January 1, 1978. The EPA considers paint containing greater than 0.5% lead by weight to be "lead based". Federal regulations specify that lead paint hazards must be abated in residential buildings occupied by children under the age of six. A lead based paint (LBP) survey was not conducted as part of this investigation; however, no suspected LBP was observed.

7.10. Wastewater Discharge History

Historical information regarding disposal of sanitary waste on the site is provided below:

Discharge Period		Discharge Type	Discharge Location
From	To		
Construction	Present	Sanitary	Municipal Sewer

7.11. Areas of Concern

Based on all information gathered, the following are the listed Areas of Concern (AOC):

- **AOC 1 (Auto Wrecking Operations on Block 221, Lot 10)** – AOC-1 addresses the historical presence of auto wrecking operations on Block 221, Lot 10 (across 64th Street). This is a potential AOC for both subject Site Block 205, Lot 22 and Block 205, Lot 30 as it is located in a probable hydraulically upgradient location. The potential operational timeframe (i.e., worst case 1911 to 1949) would be prior to any environmental regulations and the probability exists that discharges did occur at this location. Absent further information from the property owner indicating that this area has been investigated by the property owner, ***Further investigations are recommended.***

- **AOC 2 (Auto Wrecking Operations on Block 205, Lot 30)** – AOC-2 addresses the historical presence of an auto wrecking operations on the NE Portion of the subject Site (Block 205, Lot 30). The potential operational timeframe (i.e., worst case 1911 to 1949) would be prior to any environmental regulations and the probability exists that discharges did occur at this location. ***Further investigation is recommended***.

- **AOC 3 (Merlo Site on Block 205, Lot 81)** – AOC-3 addresses the documented soil and ground water contamination on the Merlo site (Block 205, Lot 81) which is located (based on surface topography) in the presumed upgradient position from the subject Site (Block 205, Lot 84). Absent further information from the property owner indicating that this area has been investigated by the property owner, ***Further investigations are recommended.***

- **AOC 4 (Auto Wrecking Operations - Block 231, Lot 44)** – AOC-4 addresses the historical presence of auto wrecking operations on Block 231, Lot 44 (North of subject Site Block 205, Lot 30). The potential operational timeframe (i.e., worst case 1911 to 1949) would be prior to any environmental regulations and the probability exists that discharges did occur at this location. However, this AOC appears topographically lower than the subject site. ***No further investigation is recommended***.

- **AOC 5 (Potential Farmland - Block 205, Lot 22 and 30)** – AOC-5 addresses the possibility of historical usage (early 1900s) as farmland based on a review of the aerial photographs. The NJDEP has developed a protocol for addressing such acreage (see Attachment E) especially applicable to sensitive populations. ***Further investigation is recommended***.

- **AOC 6 (Historical Fill - Block 205 Lot 30)** – AOC-6 addresses the visible presence of fill material in the North/Northeast section of Lot 30. It appears, based on the elevation difference between the ball field and the parking area, that upwards of 4 feet of fill of unknown quality have been brought onto the site. ***Further investigation is recommended***.

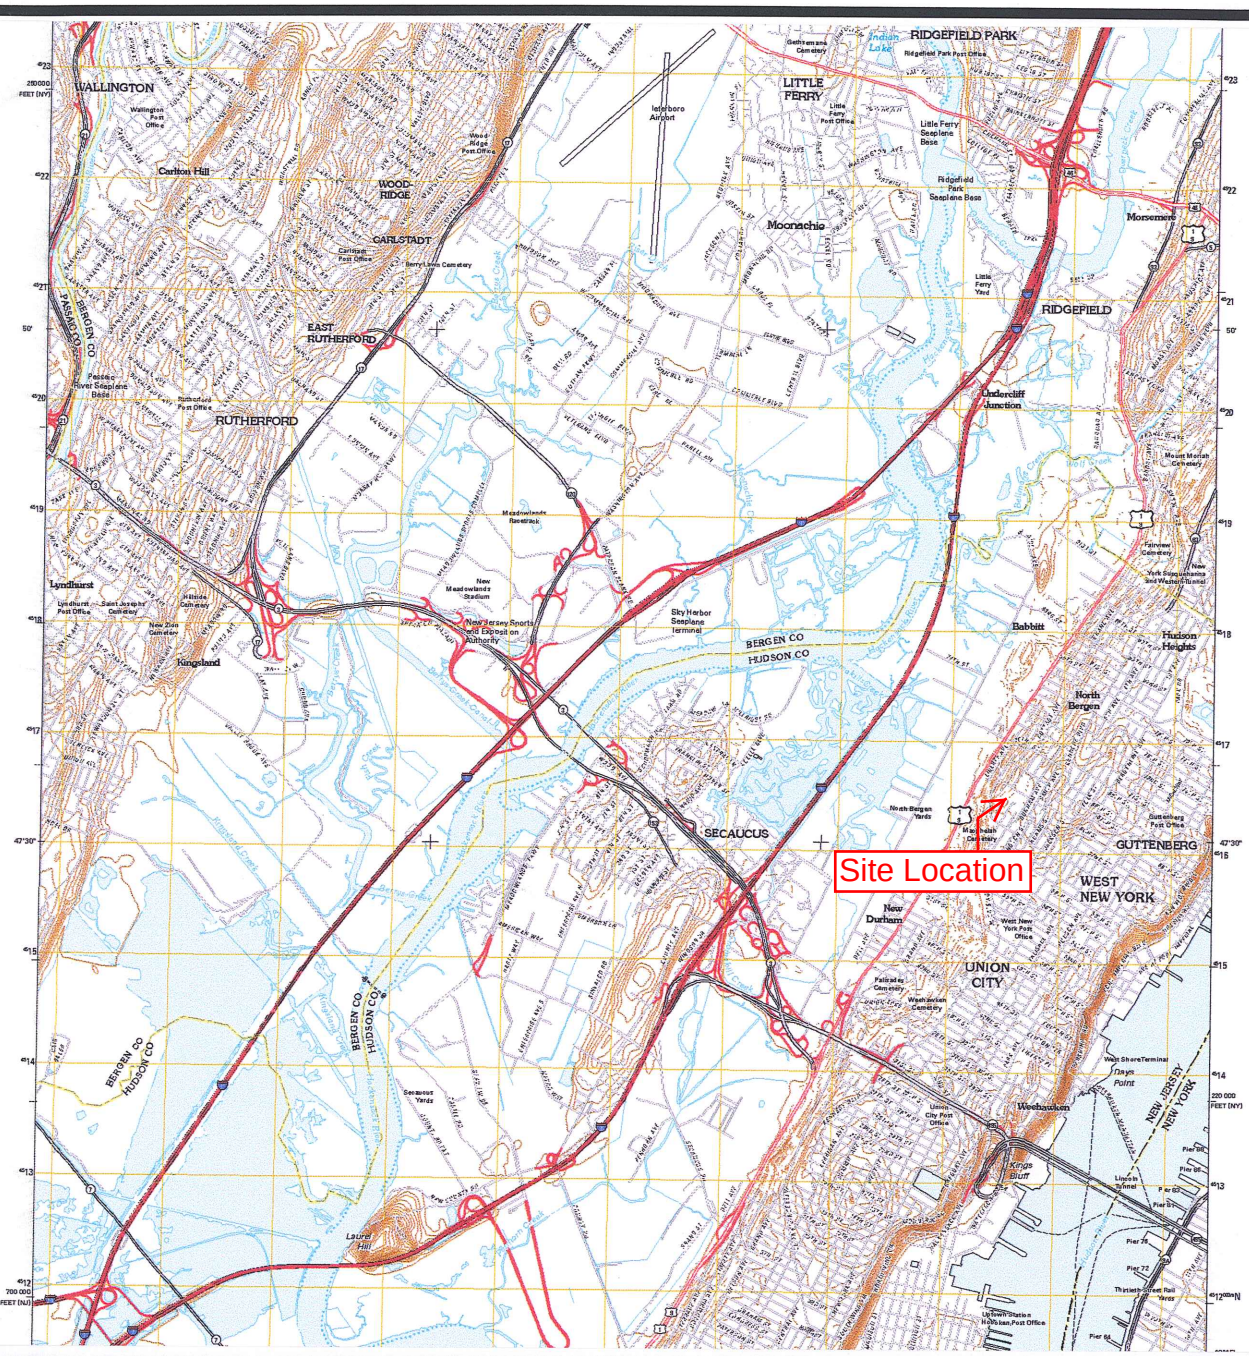

.

8.0 APPENDIX G – REFERENCES (Partial)

Information regarding the Site and adjacent properties was obtained from the following contacts/sources as part of this investigation:

- Township of North Bergen
- Hudson County Health Department
- Environmental Data Resources, Inc.
- New Jersey Department of Environmental Protection

_____

_____

[_____] **Copy of Ordinance or Resolution** [specify date, number, or other identifying information]

_____

_____

[_____] **Police Accident Report** Fee: _____

Identify Accident: _____

[✓] **Other** [specify] Any environmental information or issues at the site listed below. Any site inspections, reports, or fines for the property.

_____

[_____] **License Information** [Specify] _____

_____

_____

Information on a Specific Property Address 6215 Meadowview Avenue
Block 205 Lot 84

[_____] **Municipal Lien Search** Fee: $ 10.00
Municipal Lien Searches are provided by the designated search officer and will be provided within 15 days after the request is received and the fee paid, as provided in *N.J.S.A.* 54:5-11, et seq.

[_____] **List of Property Owners within 200'** Fee: _____
As provided in *N.J.S.A.* 40:55D-12, the fee is the greater of $.25 per name or $10.00

A request for access to or for a copy of Government Records should be submitted on this form which has been adopted by the Municipal Clerk as the Custodian of Records. Some records will be immediately available during normal business hours. Some records will require time to compile and to make the copies requested, but will normally be available during normal business hours and within seven (7) business days. If any document or copy which has been requested is not a public record or cannot be provided within the seven (7) business days, you will be provided with a response with that information within the seven (7) business days. Some records requested have specific fees or other response times established by statute. There is no fee involved in simply inspecting a document during normal business hours. This request may be filed electronically. In general:

- Immediate access is ordinarily available for to budgets, bills, vouchers, contracts, including collective negotiations agreements and individual employment contracts, and public employee salary and overtime information. Minutes of public meetings will be generally available immediately after the minutes have been approved.
- Records which are not readily available or which will require a search of records will be made available as soon as possible and the applicant will be provided with an interim report within seven [7] business days indicating the time which will be required to provide the records.
- Except as otherwise provided by law or regulation, the fee assessed for the duplication of a printed record shall be: first page to tenth page, $0.75 per page; eleventh page to twentieth page, $0.50 per page; all pages over twenty, $0.25 per page; for a police accident report there is an additional fee when the request is not made in person of $5.00 for the first 3 pages and $1.00 for each additional page, as provided by *N.J.S.A.* 39:4-131.
- Where a request is for a copy in a format other than a photocopy, reasonable efforts will be made to provide the information in the format requested. The cost will be based on the costs of producing the format requested.
- Where a legal determination must be made as to whether records are "public records" as provided by law, the request will be reviewed by the Municipal Attorney.

The term "public records" generally includes those records determined to be public in accordance with *N.J.S.A.* 47:1A-1. The term does not include employee personnel files, police investigation records, public assistance files or other matters in which there is a right of privacy or confidentiality or inter-agency or intra-agency advisory, consultative, or deliberative material or other material which is specifically exempted by law.

The Applicant hereby acknowledges receipt of a copy of this form with the date on which the information is expected to be available and the estimated cost. The applicant hereby certifies that he or she has not been convicted of any indictable offense under the laws of this State, any other state or the United States and is not seeking government records containing personal information pertaining the victim or the victim's family as provided by *N.J.S.A.* 47:1A-1 et seq..

This form, when signed by the municipal official shall constitute a receipt for any deposit received.

Information on a Specific Property Address 1401 64th Street

Block 205 Lot 30

[_____] **Municipal Lien Search** Fee: $ 10.00

Municipal Lien Searches are provided by the designated search officer and will be provided within 15 days after the request is received and the fee paid, as provided in *N.J.S.A.* 54:5-11, et seq.

[_____] **List of Property Owners within 200'** Fee: _____

As provided in *N.J.S.A.* 40:55D-12, the fee is the greater of $.25 per name or $10.00

A request for access to or for a copy of Government Records should be submitted on this form which has been adopted by the Municipal Clerk as the Custodian of Records. Some records will be immediately available during normal business hours. Some records will require time to compile and to make the copies requested, but will normally be available during normal business hours and within seven (7) business days. If any document or copy which has been requested is not a public record or cannot be provided within the seven (7) business days, you will be provided with a response with that information within the seven (7) business days. Some records requested have specific fees or other response times established by statute. There is no fee involved in simply inspecting a document during normal business hours. This request may be filed electronically. In general:

- Immediate access is ordinarily available for to budgets, bills, vouchers, contracts, including collective negotiations agreements and individual employment contracts, and public employee salary and overtime information. Minutes of public meetings will be generally available immediately after the minutes have been approved.
- Records which are not readily available or which will require a search of records will be made available as soon as possible and the applicant will be provided with an interim report within seven [7] business days indicating the time which will be required to provide the records.
- Except as otherwise provided by law or regulation, the fee assessed for the duplication of a printed record shall be: first page to tenth page, $0.75 per page; eleventh page to twentieth page, $0.50 per page; all pages over twenty, $0.25 per page; for a police accident report there is an additional fee when the request is not made in person of $5.00 for the first 3 pages and $1.00 for each additional page, as provided by *N.J.S.A.* 39:4-131.
- Where a request is for a copy in a format other than a photocopy, reasonable efforts will be made to provide the information in the format requested. The cost will be based on the costs of producing the format requested.
- Where a legal determination must be made as to whether records are "public records" as provided by law, the request will be reviewed by the Municipal Attorney.

The term "public records" generally includes those records determined to be public in accordance with *N.J.S.A.* 47:1A-1. The term does not include employee personnel files, police investigation records, public assistance files or other matters in which there is a right of privacy or confidentiality or inter-agency or intra-agency advisory, consultative, or deliberative material or other material which is specifically exempted by law.

The Applicant hereby acknowledges receipt of a copy of this form with the date on which the information is expected to be available and the estimated cost. The applicant hereby certifies that he or she has not been convicted of any indictable offense under the laws of this State, any other state or the United States and is not seeking government records containing personal information pertaining the victim or the victim's family as provided by *N.J.S.A.* 47:1A-1 et seq..

This form, when signed by the municipal official shall constitute a receipt for any deposit received.

Erin Barillas

From: Rick McGrath [rmcgrath@boswellengineering.com]
Sent: Tuesday, February 26, 2013 10:25 AM
To: Erin Barillas
Subject: OPRA Request (Our File No. NB-1244)

Erin,

I reviewed the other two (2) addresses included with your February 20, 2013 email. Both other addresses are in the vicinity of the Recreation Center and fields at the same site. There is no building with the address of #1401 64th Street. The location appears to be between Stan Newman Field to the north and the field at the Recreation Center to the south. #6215 Meadowview Avenue is the property in the southwest corner of Meadowview Avenue and 62nd Street.

Please be advised this office has no record of any work being completed at either location. This office over the years has taken a number of field improvements both behind the
Recreation Center and at Stan Newman Field. This included grading the field, surveying the field, replacement or repair of bleachers, replacement of light poles and similar park type projects. This office is unaware of any environmental issues in this area other than possibly a repair to a damaged sewer lateral.

Sent: Thursday, February 21, 2013 10:40 AM
To: Erin Barillas
Subject: OPRA request (FILE NO. NB-1244)

Erin,

This appears to be the Rec Center property. This office surveyed the field and designed improvements to the field and the Rec Center building. The building itself was designed by an architect many years ago. This office had nothing to do with that project. The parking lot was paved some years ago. This office has no other information on this property.

DEPOSITS

The custodian may require a deposit against costs for reproducing documents sought through an anonymous request whenever the custodian anticipates that the documents requested will cost in excess of $5 to reproduce.

Where a special service charge is warranted under OPRA, that amount will be communicated to you as required under the statute. You have the opportunity to review and object to the charge prior to it being incurred. If, however, you approve of the fact and amount of the special service charge, you may be required to pay a deposit or pay in full prior to reproduction of the documents.

YOUR REQUEST FOR RECORDS IS DENIED FOR THE FOLLOWING REASON(S):

(To be completed by the Custodian of Records – check the box of the numbered exemption(s) as they apply to the records requested. If multiple records are requested, be specific as to which exemption(s) apply to each record. **Response is due to requestor as soon as possible, but no later than seven business days.**)

N.J.S.A. 47:1A-1.1

- ☐ Inter-agency or intra-agency advisory, consultative or deliberative material
- ☐ Legislative records
- ☐ Law enforcement records:
  - ☐ Medical examiner photos
  - ☐ Criminal investigatory records (however, N.J.S.A. 47:1A-3.b. lists specific criminal investigatory information which must be disclosed)
  - ☐ Victims' records
- ☐ Trade secrets and proprietary commercial or financial information
- ☐ Any record within the attorney-client privilege
- ☐ Administrative or technical information regarding computer hardware, software and networks which, if disclosed would jeopardize computer security
- ☐ Emergency or security information or procedures for any buildings or facility which, if disclosed, would jeopardize security of the building or facility or persons therein
- ☐ Security measures and surveillance techniques which, if disclosed, would create a risk to the safety or persons, property, electronic data or software
- ☐ Information which, if disclosed, would give an advantage to competitors or bidders
- ☐ Information generated by or on behalf of public employers or public employees in connection with:
  - ☐ Any sexual harassment complaint filed with a public employer
  - ☐ Any grievance filed by or against an employee
  - ☐ Collective negotiations documents and statements of strategy or negotiating
- ☐ Information that is a communication between a public agency and its insurance carrier, administrative service organization or risk management office
- ☐ Information that is to be kept confidential pursuant to court order
- ☐ Certificate of honorable discharge issued by the United States government (Form DD-214) filed with a public agency
- ☐ Social security numbers
- ☐ Credit card numbers
- ☐ Unlisted telephone numbers
- ☐ Drivers' license numbers
- ☐ Certain records of higher education institutions:
  - ☐ Research records
  - ☐ Questions or scores for exam for employment or academics
  - ☐ Charitable contribution information
  - ☐ Rare book collections gifted for limited access
  - ☐ Admission applications
  - ☐ Student records, grievances or disciplinary proceedings revealing a students' identification
- ☐ Biotechnology trade secrets N.J.S.A. 47:1A-1.2
- ☐ Convicts requesting their victims' records N.J.S.A. 47:1A-2.2
- ☐ Ongoing investigations of non-law enforcement agencies (must prove disclosure is inimical to the public interest) N.J.S.A. 47:1A-3.a.
- ☐ Public defender records N.J.S.A. 47:1A-5.k.
- ☐ Upholds exemptions contained in other State or federal statutes and regulations, Executive Orders, Rules of Court, and privileges created by State Constitution, statute, court rule or judicial case law N.J.S.A. 47:1A-9
- ☐ Personnel and pension records (however, the following information must be disclosed:
  - An individual's name, title, position, salary, payroll record, length of service, date of separation and the reason for such separation, and the amount and type of any pension received
  - When required to be disclosed by another law, when disclosure is essential to the performance of official duties of a person duly authorized by this State or the US, or when authorized by an individual in interest
  - Data contained in information which disclose conformity with specific experiential, educational or medical qualifications required for government employment or for receipt of a public pension, but not including any detailed medical or psychological information N.J.S.A. 47:1A-10

N.J.S.A. 47:1A-1

- ☐ "a public agency has a responsibility and an obligation to safeguard from public access a citizen's personal information with which it has been entrusted when disclosure thereof would violate the citizen's reasonable expectation of privacy."

Burnett v. County of Bergen, 198 N.J. 408 (2009). Without ambiguity, the court held that the privacy provision "is neither a preface nor a preamble." Rather, "the very language expressed in the privacy clause reveals its substantive nature; it does not offer reasons why OPRA was adopted, as preambles typically do; instead, it focuses on the law's implementation." "Specifically, it imposes an obligation on public agencies to protect against disclosure of personal information which would run contrary to reasonable privacy interests."

Executive Order No. 21 (McGreevey 2002)

- ☐ Records where inspection, examination or copying would substantially interfere with the State's ability to protect and defend the State and its citizens against acts of sabotage or terrorism, or which, if disclosed, would materially increase the risk or consequences of potential acts of sabotage or terrorism.
- ☐ Records exempted from disclosure by State agencies' proposed rules.

Executive Order No. 26 (McGreevey 2002)

- ☐ Certain records maintained by the Office of the Governor
- ☐ Resumes, applications for employment or other information concerning job applicants while a recruitment search is ongoing
- ☐ Records of complaints and investigations undertaken pursuant to the Model Procedures for Internal Complaints Alleging Discrimination, Harassment or Hostile Environments
- ☐ Information relating to medical, psychiatric or psychological history, diagnosis, treatment or evaluation
- ☐ Information in a personal income or other tax return
- ☐ Information describing a natural person's finances, income, assets, liabilities, net worth, bank balances, financial history or activities, or creditworthiness, except as otherwise required by law to be disclosed
- ☐ Test questions, scoring keys and other examination data pertaining to the administration of an examination for public employment or licensing
- ☐ Records in the possession of another department (including NJ Office of Information Technology or State Archives) when those records are made confidential by regulation or EO 9.

Other Exemption(s) contained in a State statute, resolution of either or both House of the Legislature, regulation, Executive Order, Rules of Court, any federal law, federal regulation or federal order pursuant to N.J.S.A. 47:1A-9.a.

(Please provide detailed information regarding the exemption from disclosure for which you are relying to deny access to government records. If multiple records are requested, be specific as to which exemption(s) apply to each record.)

REQUEST FOR RECORDS UNDER THE COMMON LAW

If, in addition to requesting records under OPRA, you are also requesting the government records under the common law, please check the box below.

A public record under the common law is one required by law to be kept, or necessary to be kept in the discharge of a duty imposed by law, or directed by law to serve as a memorial and evidence of something written, said, or done, or a written memorial made by a public officer authorized to perform that function, or a writing filed in a public office. The elements essential to constitute a public record are that it be a written memorial, that it be made by a public officer, and that the officer be authorized by law to make it.

☐Yes, I am also requesting the documents under common law.

If the information requested is a "public record" under common law and the requestor has a legally recognized interest in the subject matter contained in the material, then the material must be disclosed if the individual's right of access outweighs the State's interest in preventing disclosure.

Please set forth your interest in the subject matter contained in the requested material:

_____

_____

_____

Note that any challenge to a denial of a request for records under the common law cannot be made to the Government Records Council, as the Government Records Council only has jurisdiction to adjudicate challenges to denials of OPRA requests. A challenge to the denial of access under the common law can be made by filing an action in Superior Court.

1. All government records are subject to public access under the Open Public Records Act ("OPRA"), unless specifically exempt.
2. A request for access to a government record under OPRA must be in writing, hand-delivered, mailed, transmitted electronically, or otherwise conveyed to the appropriate custodian. N.J.S.A. 47:1A-5.g. The seven (7) business day response time does not commence until the records custodian receives the request form. If you submit the request form to any other officer or employee of the ***County of Hudson***, that officer or employee must either forward the request to the appropriate custodian, or direct you to the appropriate custodian. N.J.S.A. 47:1A-5.h.
3. Requestors may submit requests anonymously. If you elect not to provide a name, address, or telephone number, or other means of contact, the custodian is not required to respond until you reappear before the custodian seeking a response to the original request.
4. The fees for duplication of a government record in printed form are listed on the front of this form. We will notify you of any special service charges or other additional charges authorized by State law or regulation before processing your request. Payment shall be made by cash, check or money order payable to the ***County of Hudson.***
5. ***You may be charged a 50% or other deposit when a request for copies exceeds $25.*** The appropriate ***Departmental*** custodian will contact you and advise you of any deposit requirements. You agree to pay the balance due upon delivery of the records. Anonymous requests in excess of $5.00 require a deposit of 100% of estimated fees.
6. Under OPRA, a custodian must deny access to a person who has been convicted of an indictable offense in New Jersey, any other state, or the United States, **and** who is seeking government records containing personal information pertaining to the person's victim or the victim's family. This includes anonymous requests for said information.
7. By law, the ***County of Hudson*** must notify you that it grants or denies a request for access to government records within seven (7) business days after the agency custodian of records receives the request. If the record requested is not currently available or is in storage, the custodian will advise you within seven (7) business days after receipt of the request when the record can be made available and the estimated cost for reproduction.
8. You may be denied access to a government record if your request would substantially disrupt agency operations and the custodian is unable to reach a reasonable solution with you.
9. If the ***County of Hudson*** is unable to comply with your request for access to a government record, the custodian will indicate the reasons for denial on the request form or other written correspondence and send you a signed and dated copy.
10. Except as otherwise provided by law or by agreement with the requester, if the agency custodian of records fails to respond to you within seven (7) business days of receiving a request, the failure to respond is a deemed denial of your request.
11. If your request for access to a government record has been denied or unfilled within the seven (7) business days required by law, you have a right to challenge the decision by the ***County of Hudson*** to deny access. At your option, you may either institute a proceeding in the Superior Court of New Jersey or file a complaint with the Government Records Council ("GRC") by completing the Denial of Access Complaint Form. You may contact the GRC by toll-free telephone at 866-850-0511, by mail at PO Box 819, Trenton, NJ, 08625, by e-mail at *grc@dca.state.nj.us*, or at their web site at *www.state.nj.us/grc*. The Council can also answer other questions about the law. All questions regarding complaints filed in Superior Court should be directed to the Court Clerk in your County.
12. Information provided on this form may be subject to disclosure under the Open Public Records Act.

Access to Government Records Under the New Jersey Open Public Records Act (N.J.S.A. 47:1A-1 et seq.)

Information Regarding the Requested Records

If your request is in reference to a single facility, please provide the name of the facility, and the name of the operator name of the facility:	Facility Name: **North Bergen Rec Center** Operator Name:	
Please provide the owner name the facility or parcel of land:	Owner Name: **North Bergen Board of Education**	
If your request is in reference to a specific parcel of land, please provide the street address, block, lot and property owner of the parcel of land: (Note: if the property in question is over multiple blocks and lots, please list all in the description field below)	Street Address 1: **6300 Meadowview Avenue** Street Address 2: Block: **205** Lot: **22**	
If your request is in reference to a facility, site or parcel of land, please provide the Municipality and County where the facility, site or parcel of land is located:	County: Municipality:	
If the request is in reference to a particular permit issued by NJDEP, please provide the type of permit and any identifying numbers such as permit, incident or case numbers. (i.e. Fishing, Hunting, Hazardous Waste, Solid Waste, Land Use, NJPDES, Pesticides, Stream Encroachment, TWA, UST, Water Allocation)	List Permit Type:	List ID Numbers:
If your request is in reference to an individual, please provide the individual's name and type, and if the individual is a DEP employee, your relationship with the individual:	Individual's name: Type of Individual: Relationship:	
If the an individual was specified above, the individual was DEP Licensed, please specify the license type the individual holds:	License Type:	

The New Jersey Department of Environmental Protection has responded to your submitted Open Public Records Act (OPRA) record request. The following information will help you understand the response and your next available actions.

Tracking #: This is the Department's assigned Tracking # to your OPRA record request, which should be used in all corresponding matters.

Record Request Response:

- **In Progress** – Based on the nature of the request, the records sought, and/or the manner to which the records may exists, the Department requires additional time to investigate and respond to the request.
- **Filled** – Based on the information provided in your request, the Department was able to investigate and respond to your record request.
- **Denied** – Based on the nature of the request and/or the records sought, the Department has denied your request pursuant to a specific exemption(s) cited in N.J.S.A. 47:1A-1 seq.
- **Partial** – The Department has identified both responsive government records and records being denied based on the nature of the request and/or the records sought, that do not meet the definition of a government record pursuant to a specific exemption(s) cited in N.J.S.A. 47:1A-1 seq.

Disposition Notes: Provides detailed information concerning the Department's response to your request.

Accessing Records: Dependent on the volume of records and your interest, there are five (5) methods available to access the responsive government records:

- **File Review** – Schedule a file review with the Department to directly access the records and take notes or tag records of interest for copying. Copying can be performed by either the Department's onsite Copying Unit at State duplication fee costs or by the requester employing a Copy Vendor Service. If there are records stored in archives, a five-day processing period will be included prior to scheduling a review.
- **Copy Request** – All records of interest will be copied by the Department's onsite Copying Unit at State duplication fee costs unless a Copy Vendor Service is employed.
- **Electronic Records Request** – Dependant on the size & nature of the e-records, the Department will email the records or provide a CD or DVD.
- **Fax Request** – Based on the number of pages, the Department faxes the responsive records.
- **Web Access** – The responsive records can be access directly through the Department's web site. Web address will be provided.

Access to Government Records Under the New Jersey Open Public Records Act (N.J.S.A. 47:1A-1 et seq.)

1. The fees for duplication of a government record are specified below. We will notify you of any special charges, special service charges or other additional charges authorized by State law or regulation before processing your request. Payment shall be made by check or money order payable to the State of New Jersey and mailed to the address specified below.

Hard Copies:	Letter & Legal size	= $0.05 per page	**Electronic Records:** CDs = $2.00 per CD
	Oversized Maps (Color)	= $5.00 per map	DVDs = $2.00 per DVD
	Oversized Maps (B&W)	= $3.00 per map	

2. Pursuant to OPRA (C.47:1A-5c & C47:1A-5d), the Department will apply special service charge for any extraordinary expenditure of time and effort to accommodate a request. The special service charge will be based on the actual direct cost of providing the records. The requester shall have the opportunity to review and object to the charge prior to it being incurred; however, in the event the requester objects to the special service charge, the request will be closed and access to the records will not be granted.

3. By law, the Department must notify you that it grants or denies a request for access to government records within seven business days after the custodian of the record requested receives the request, provided that the record is currently available and not in storage. If the record requested is not currently available or is in storage, the custodian will advise you within seven business days when the record can be made available and the estimated cost. You may agree with the custodian to extend the time for making records available, or granting or denying your request.

4. You may be denied access to a government record if your request would substantially disrupt agency operations and the custodian is unable to reach a reasonable solution with you.

5. If the Department was unable to comply with your request for access to a government record, the custodian will indicate the reasons for denial on the request form.

6. Except as otherwise provided by law or by agreement with the requester, if the custodian of the record requested fails to respond to you within seven business days of receiving a request form, the failure to respond will be considered a denial of your request.

7. **Resolution of Disputed Findings:**

   In the event that a requester does not agree with the Department's record response, the requester should:

   No Records - Reexamined the request details to evaluate if all of the information was provided that could aid the Department in locating records. The Department's ability to identify records of interest is in direct correlation to matching the Department information with the information provided on the request. Such important identifiers are Facility/Site Name, Address, Case #, Permit #, Block/Lot.

   Denial - If your request for access to a government record has been denied or unfilled within the time permitted by law, you have a right to challenge the decision by the Department to deny access. The Department denies access to records only when those records do not meet the definition of a government record and/or public access is not allowed pursuant to the law. At your option, you may either:

   a. Contact the Office of Record Access to re-visit the matter or provide further explanation.

   b. Institute a proceeding in the Superior Court of New Jersey

   c. File a complaint in writing with the Government Records Council (GRC). You may contact the GRC by toll-free telephone at 866-850-0511, by mail at PO Box 819, Trenton, NJ, 08625, by e-mail at *grc@dca.state.nj.us*, or at their web site at *www.state.nj.us/grc*. The Council can also respond to other questions about the law.

8. Information provided on this form may be subject to disclosure under the Open Public Records Act.

EDR MGP ---------- EDR Proprietary Manufactured Gas Plants

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site List

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list, as provided by EDR, and dated 11/02/2012 has revealed that there is 1 CERC-NFRAP site within approximately 0.5 miles of the target property.

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 08/19/2011 has revealed that there is 1

CORRACTS site within approximately 1 mile of the target property.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 09/11/2012 has revealed that there is 1 RCRA-TSDF site within approximately 0.5 miles of the target property.

GENERAL ELECTRIC INTERNATIONAL	*6001 TONNELLE AVE*	*W 1/8 - 1/4 (0.165 mi.)*	*K52*	*102*

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 09/11/2012 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
GENERAL ELECTRIC INTERNATIONAL	*6001 TONNELLE AVE*	*W 1/8 - 1/4 (0.165 mi.)*	*K52*	*102*

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 09/11/2012 has revealed that there are 4 RCRA-CESQG sites within approximately 0.25 miles of the target property.

HWS RE-EVAL: The locations were removed from the Known Contaminated Sites list for a variety of reasons. Some of the sites were taken off the list because they were inactive, some were not assigned a case worker and some were no longer contaminated. Inspectors from the DEP are now undertaking a full re-evaluation of each of the locations statewide. That includes visual and environmental tests to see whether contamination still exists.

A review of the HWS RE-EVAL list, as provided by EDR, and dated 09/20/2007 has revealed that there are 8 HWS RE-EVAL sites within approximately 1 mile of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 09/11/2012 has revealed that there are 12 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

ISRA: The ISRA process begins with determining if the Act applies to your type of business and transaction. The provisions of ISRA only apply to industrial establishments. What is an industrial establishment? The term "industrial establishment" refers to the type of business operations and transactions that would subject a facility to review under ISRA. An industrial establishment must meet each of the following three criteria: The place of business or real property at which such business is conducted, having a North American Industry Classification System (NAICS) code listed in N.J.A.C. 7:26 B - Appendix C subject to the specified exceptions and limitations. The place of business must have been engaged in operations on or after December 31, 1983; and The place of business must involve the generation, manufacture, refining, transportation, treatment, storage, handling, or disposal of hazardous substances or hazardous wastes.

A review of the ISRA list, as provided by EDR, and dated 10/02/2012 has revealed that there are 63 ISRA sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR US Hist Auto Stat: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR US Hist Auto Stat list, as provided by EDR, has revealed that there are 15 EDR US Hist Auto Stat sites within approximately 0.25 miles of the target property.

EDR US Hist Cleaners: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR US Hist Cleaners list, as provided by EDR, has revealed that there are 7 EDR US Hist Cleaners sites within approximately 0.25 miles of the target property.

Environmental Interest/Information System
NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:
Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

GENERAL ELECTRIC INTERNATIONAL INC (Continued) **1000212383**

Waste code: D005
Waste name: BARIUM

Waste code: D008
Waste name: LEAD

Waste code: F003
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste code: F005
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System

GENERAL ELECTRIC INTERNATIONAL INC (Continued) **1000212383**

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large

CHAMPION COLLISION INC. (Continued) **1000302417**

databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:
Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT

CROWN CORK AND SEAL COMPANY INC (Continued) **1000437357**

WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Waste code: D004
Waste name: ARSENIC

Environmental Interest/Information System
AFS (Aerometric Information Retrieval System (AIRS) Facility

CROWN CORK AND SEAL COMPANY INC (Continued) **1000437357**

Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
NJ-NJEMS (New Jersey - New Jersey Environmental Management System). The Department of Environmental Protection (NJDEP) manages large databases of environmental information in this integrated system.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 10/01/2012
Date Data Arrived at EDR: 10/11/2012
Date Made Active in Reports: 12/20/2012
Number of Days to Update: 70

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

State- and tribal - equivalent CERCLIS

SHWS: Known Contaminated Sites in New Jersey

The Known Contaminated Sites in New Jersey includes sites under the purview of the Site Remediation Program which have contamination present at levels greater than the applicable cleanup criteria for soil and/or groundwater standards. The sites appearing in Known Contaminated Sites in New Jersey are classified as either active, where the site is assigned to a specific remedial program area, or pending, where the site is awaiting assignment to a specific remedial program area. Sites where no further action (NFA) designation has been given are not included in this report unless there are other areas of identified contamination which have not been remediated. This report includes sites being remediated under all of the various regulatory programs administered by the Site Remediation Program such as: Federal Superfund Program, Federal Resource Conservation and Recovery Act (RCRA), New Jersey's Industrial Site Recovery Act (ISRA), New Jersey's Underground Storage of Hazardous Substances Act, New Jersey's Spill Compensation and Control Act, New Jersey's Solid Waste Management Act, New Jersey's Water Pollution Control Act.

HWS RE-EVAL: Site Re-Evaluation Report

The locations were removed from the Known Contaminated Sites list for a variety of reasons. Some of the sites were taken off the list because they were inactive, some were not assigned a case worker and some were no longer contaminated. Inspectors from the DEP are now undertaking a full re-evaluation of each of the locations statewide. That includes visual and environmental tests to see whether contamination still exists.

HIST HWS: Known Contaminated Sites Listing

The Known Contaminated Sites in New Jersey report is a municipal listing of sites where contamination of soil and/or ground water is confirmed at levels greater than the applicable cleanup criteria or standards. Remedial activities are underway or required at the sites with an on-site source(s) of contamination and at locations where the source(s) of contamination is unknown. Sites with completed remedial work that require engineering and/or institutional controls have reporting measures in place to ensure the effectiveness of past actions, and some include maintenance and/or monitoring

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 12/10/2012

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

LIENS: Environmental LIENS

A listing of properties with environmental liens. The listing includes sites from the Site Remediation & Waste Management Program Sites where the Department has placed either a 1st Priority or Regular Spill Fund Lien against. 1st Priority Type Lien - a lien placed against the property where the discharged occurred providing that the owners of the property have some responsibility towards the discharge. First Priority Lien is superior to other types of liens. Non-Priority (Regular) Type Lien - a lien placed against the Responsible Party & their revenues and all real and personal property, other than the real property comprising the location of the discharge.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

FINDS: Facility Index System/Facility Registry System

Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

ISRA: ISRA Database

The ISRA process begins with determining if the Act applies to your type of business and transaction. The provisions of ISRA only apply to industrial establishments. What is an industrial establishment? The term "industrial establishment" refers to the type of business operations and transactions that would subject a facility to review under ISRA. An industrial establishment must meet each of the following three criteria: The place of business or real property at which such business is conducted, having a North American Industry Classification System (NAICS) code listed in N.J.A.C. 7:26 B - Appendix C subject to the specified exceptions and limitations. The place of business must have been engaged in operations on or after December 31, 1983; and The place of business must involve the generation, manufacture, refining, transportation, treatment, storage, handling, or disposal of hazardous substances or hazardous wastes.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

USGS TOPOGRAPHIC MAP

Target Property Map:	40074-G1 WEEHAWKEN, NJ NY
Most Recent Revision:	1995

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

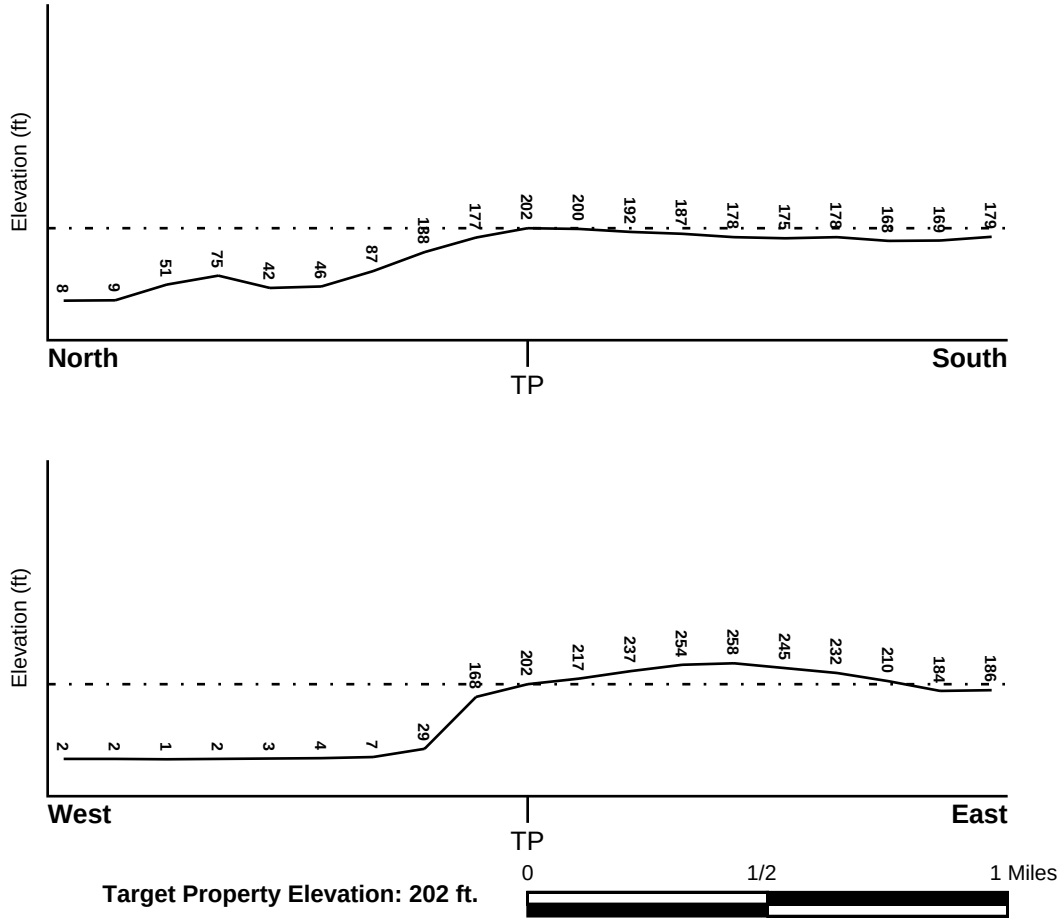

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 202 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County	FEMA Flood Electronic Data
HUDSON, NJ	YES - refer to the Overview Map and Detail Map

Flood Plain Panel at Target Property: 34017C - FEMA DFIRM Flood data

Additional Panels in search area: 34003C - FEMA DFIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
WEEHAWKEN	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
1	1/4 - 1/2 Mile ENE	WSW

For additional site information, refer to Physical Setting Source Map Findings.

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Mesozoic
System:	Triassic
Series:	Triassic
Code:	Tr *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	BOONTON
Soil Surface Texture:	gravelly - loam
Hydrologic Group:	Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.
Soil Drainage Class:	Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	MODERATE
Depth to Bedrock Min:	> 60 inches
Depth to Bedrock Max:	> 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	8 inches	gravelly - loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay. FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 2.00 Min: 0.60	Max: 5.50 Min: 4.50
2	8 inches	30 inches	gravelly - loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay. FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 2.00 Min: 0.60	Max: 6.00 Min: 4.50
3	30 inches	60 inches	gravelly - sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 0.20 Min: 0.06	Max: 6.50 Min: 5.60
4	60 inches	72 inches	loamy fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 2.00 Min: 0.06	Max: 7.30 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: shaly - loam
silt loam
extremely stony - loam
unweathered bedrock
very stony - loam
stony - silt loam
loam

Surficial Soil Types: shaly - loam
silt loam
extremely stony - loam

unweathered bedrock
very stony - loam
stony - silt loam
loam

Shallow Soil Types: cobbly - fine sandy loam

Deeper Soil Types: gravelly - loam
unweathered bedrock
gravelly - sandy loam
gravelly - fine sandy loam
stratified

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory
Source: Department of Environmental Protection
Telephone: 609-984-2243

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

New Jersey Public-Community Water-Supply Wells
Source: Department of Environmental Protection, Geological Survey
Telephone: 609-984-6587

New Jersey Monitoring Wells
Source: Department of Environmental Quality
Telephone: 609-984-6587
Ambient Groundwater Quality of the New Jersey Part of the Newark Basin. Natural groundwater quality in the Newark Basin summarize natural groundwater quality in sedimentary bedrock formations of the Newark basin part of the Piedmont physiographic province of New Jersey.

OTHER STATE DATABASE INFORMATION

RADON

State Database: NJ Radon
Source: Department of Environmental Protection
Telephone: 609-984-5425
Radon Test Results

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EDR Aerial Photo Decade Package

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Aerial Photo Decade Package

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. Historic Pesticide Contamination

Information for home owners, home buyers and other members of the public

With the development of New Jersey's agricultural land, builders, buyers and sellers are becoming aware of the possible presence of pesticide residues in former farmland soils. Homebuyers are considering this issue among the various environmental factors which may affect properties, such as the quality of drinking water, the presence of lead-based paint and radon gas, and the integrity of any heating oil tanks. The New Jersey Department of Environmental Protection (NJDEP) formed a task force to examine this issue and to make recommendations to assist those involved with properties which may have contamination due to the historical use of pesticides.

Background:

A wide variety of pesticides have been used in New Jersey over the last 100 years. Arsenic-based pesticides were used extensively to control agricultural pests in fruit orchards, vegetable fields, golf courses and turf farms, from the turn of the century until the late 1960s. DDT and Aldrin were used extensively for a wide range of insect pests on vegetables and fruits throughout the 1950s and 1960s. These pesticides tend to bind tightly to the soil, most often in the surface layer and are persistent in the environment and thus may be present in the soil long after they have been applied. Breakdown of the products is slow.

As a result, residues of a number of pesticides can be found in soils at levels that may pose a human health risk when the land changes from farms to other uses. **Arsenic, Lead, DDT and Aldrin** (along with several metabolites or breakdown products) are considered to be the primary "pesticides of concern" (See reverse side for more information on these substances). These pesticides were selected based on several factors, including their extensive agricultural use for many years, their persistence in the environment, and the fact that they have been detected at elevated concentrations at various locations in New Jersey.

In addition to levels that may result from past application of pesticides, arsenic is naturally occurring in soil at levels that can vary widely throughout the state. Sandy soils tend to have lower concentrations, while soils with high organic or clay content tend to have higher concentrations of arsenic. Although some metals such as arsenic can be expected to occur naturally at elevated levels, man-made compounds such as DDT and Aldrin/Dieldrin indicate human impacts to the soil.

NJDEP estimates that up to five percent of the state's acreage may be impacted. **The primary concern has to do with human health impacts resulting from long-term ingestion of contaminated soil, particularly by children.**

For further information, please contact the NJDEP Site Remediation Program (SRP) at one of the following locations:

For site-specific guidance in northern NJ:
Northern Field Office
(973) 669-3960

For site-specific guidance in southern NJ:
Southern Field Office
(609) 584-4150

For general information:
Bureau of Community Relations
(609) 984-3081 or
(800) 253-5647

The Task Force report is available on the SRP Web Page at www.state.nj.us/dep/srp

..over

Recommendations:

☐ Soil sampling should be conducted when an agricultural property changes land use (i.e. farmland developed into a housing development or municipal park).

☐ Soil sampling should be conducted in former agricultural areas intensively used by children (schools, daycare centers, playgrounds)

☐ At any time, if a property owner wants NJDEP approval of their investigation, they would need to conduct a thorough environmental evaluation of the property and should consult NJDEP for guidance.

☐ Homeowners interested in testing the soil on their own property should consult the task force report or contact NJDEP for guidance on the sampling procedures.

☐ Several actions can be taken to minimize the chance of contact with contamination that may be in the soil.

- Keep good grass coverage; this acts as a barrier to contact with the soil below.
- Cover any disturbed or excavated soil.
- Wash fruits and vegetables from your garden before eating. Uptake of contaminants into the food is not as much of a concern as possible ingestion of the soil.
- Wash hands and face after playing outside and before meals and snacks.
- Wash toys and pacifiers frequently.
- Mop surfaces where children play.

The costs of remediating a site will vary depending on the level and distribution of the contamination, the size and layout of the site, and the remedy (or remedies) chosen. Possible remedies include capping contaminated areas, blending contaminated soils with clean soils, and excavation of contaminated soils.

ARSENIC

(NJDEP Unrestricted Soil Cleanup Criteria = 20 parts per million or ppm)

Long-term exposure can cause skin abnormalities, including the appearance of dark and light spots on the skin, which may ultimately progress to skin cancer. Arsenic has also been associated with an increased risk of liver, bladder, kidney and lung cancer.

LEAD

(NJDEP Unrestricted Soil Cleanup Criteria = 400ppm)

Lead is of particular concern for infants and young children because it can affect their developing brain and nervous system. High levels of lead affect the nervous system and kidneys of adults and children.

DDT AND ITS BREAKDOWN PRODUCTS

(NJDEP Unrestricted Cleanup Criteria for DDT = 2ppm, DDE = 2ppm, DDD = 3ppm)

DDT and its breakdown products are classified as probable human carcinogens, DDT is suspected of causing liver and pancreatic cancer in humans. Short-term exposure to high doses of DDT primarily affects the nervous system.

ALDRIN AND ITS BREAKDOWN PRODUCT

(NJDEP Unrestricted Cleanup Criteria for Aldrin = .04pmm, Dieldrin = .042ppm)

In the environment and in the body, Aldrin breaks down rapidly to Dieldrin. Dieldrin is a probable human carcinogen that causes liver tumors in test animals.
