HR&A

Morris Pesin Drive Corridor + Waterfront Future Vision Circulation

The Morris Pesin Drive Corridor + Waterfront zone is envisioned as a more connected, accessible, and resilient mobility system, with safe circulation for all park users.

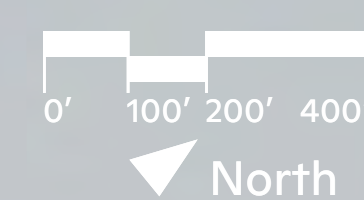

The Shuttle Service is returning!

The Liberty State Park Shuttle Program will be returning to the park this summer! Last summer's pilot program proved to be a great success, with around 3,700 riders taking the shuttle between July and September. We are excited to continue this free shuttle program for all park users and are looking forward to seeing all of you back on the shuttle again this year. Stay tuned for more information on when the shuttle program will start, and how you can ride the park's free shuttles this summer!

Legend

- Shuttle Stop
- Pedestrian/Passive Bicycle Circulation
- Pedestrian Only Circulation
- Dedicated Bicycle Circulation
- Bicycle Parking/Rental Station
- Parking

QUESTION: Do the proposed pedestrian, bike, and transit paths and amenities get you where you want to go?

Morris Pesin Drive Gateway

The entry to the Morris Pesin Drive Corridor is transformed into a welcoming and pedestrian-friendly gateway to Liberty State Park's southern waterfront.

What would make a more welcoming park entrance?

Please share your thoughts on a post-it note here :

- More focus on park spaces...
- Clearer views to the water...

Hudson River Waterfront Walk

The vision for the Hudson River Waterfront Walkway reimagines the experience at the water's edge with more shade and waterfront overlooks to enhance views.

What would enhance your experience at the waterfront?

Please share your thoughts on a post-it note here :

- More shade along the waterfront path...
- Flexible use of Great Lawn spaces...
