Bridgewater, New Jersey 08807

Location: Township of Bridgewater
Somerset, New Jersey
Block 712 Lots 4 & 7

Request: Petition for Reclassification of the Raritan River within Bridgewater Township

To Whom It May Concern,

Please find attached a copy of a letter dated March 27, 2014 prepared by Stanley J. Stempien to the State of New Jersey, Department of Environmental Protection, Attn: Mr. Bob Martin, Commissioner, 410 East State Street, Trenton, New Jersey, 08625 supporting the above request.

Located within Block 712 Lots 4 & 7 is an identifiable constant flowing spring that is a headwater to Cuckols Brook which is a tributary to the Raritan River.

Our intent is to reclassify the Raritan River and its tributaries as Category 1.

I have also attached a copy of a letter dated May 2014 prepared by Mark Harris, Environmental Specialist 2, Bureau of Inland Regulation for reference.

I thank you in advance for your time spent in this matter and I look forward to your discussion.

Sincerely,

David S. Stempien
