

PUBLIC NOTICE

ENVIRONMENTAL PROTECTION

CONTAMINATED SITE REMEDIATION & REDEVELOPMENT

Notice to Receive Interested Party Comments on proposed Modifications to the Direct Oversight Requirements for the Cherry Hill US Gas Site at 2348 Marlton Pike West in Cherry Hill, Camden County, Department Program Interest Number 024848.

Take notice that the New Jersey Department of Environmental Protection (the “Department”) hereby gives notice of proposed modifications of the requirements for Direct Oversight under N.J.S.A. 58:10C-27c. and N.J.A.C. 7:26C-14.2(b). The Department is providing public notice of the proposed modifications in accordance with the Site Remediation Reform Act (SRRA) at N.J.S.A. 58:10C-27.g.(2) and upon the determination that the adjustments set forth herein are in the public interest and protective of public health and safety and the environment.

The property referenced above is in Direct Oversight because the parties responsible for conducting the referenced remediation have violated one or more statutory, mandatory, and/or expedited site-specific remediation timeframes established pursuant to the SRRA (N.J.S.A.58:10C-1 et. seq). Specifically, Route 70 West Limited Liability Company did not submit to the Department a Site Investigation Report by the mandatory timeframe of March 1, 2012, an initial Receptor Evaluation by the mandatory timeframe of March 1, 2012, a Remedial Investigation Report by the mandatory timeframe of March 1, 2017, and a Remedial Action Report by the mandatory timeframe of February 28, 2020 for LSR150001, Route 70 West Limited Liability Company did not submit to the Department a Remedial Investigation Report by the mandatory timeframe of May 30, 2022 for LSR120001, and Route 70 West Limited Liability Company did not submit to the Department a Site Investigation Report by the mandatory

timeframe of August 22, 2020, and a Remedial Investigation Report by the mandatory timeframe of August 22, 2024 for LSR250001. To address these violations and demonstrate adjustments to Direct Oversight are in the public interest and protective of public health and safety and the environment, Route 70 West Limited Liability Company (Ordered Party) has agreed to (a) return to compliance by retaining a Licensed Site Remediation Professional (LSRP), (b) submit a Public Participation Plan, (c) submit an LSRP certified Remediation Cost Review, (d) execute an Administrative Consent Order (ACO) and (e) post a Remediation Funding Source (excluding a Self-Guarantee) to financially guarantee the completion of the cleanup within the timeframes established pursuant to an ACO. In addition, the Ordered Party has agreed to pay a penalty to resolve past remediation timeframe violations. Under the terms of the ACO the following proposed adjustments to Direct Oversight would be made:

- 1) The initial Receptor Evaluation for LSR120001 and LSR150001 was submitted on August 26, 2024.
- 2) The Site Investigation Report shall be submitted by September 1, 2025, with no extensions;
- 3) The Remedial Investigation Report shall be submitted by March 1, 2027, with no extensions;
- 4) If the above due dates are met, additional proposed Direct Oversight adjustments are earned as follows:
 - a) The Ordered Party may proceed with the remediation without prior Department approval;
 - b) The Ordered Party may pay annual remediation fees in lieu of Direct Oversight costs;

- c) The Ordered Party would not be required to submit a Feasibility Study;
- d) The Ordered Party would not be required to submit a Direct Oversight Summary Report; and
- e) The LSRP retained by the Ordered Party may select the protective remedy, rather than the Department doing so.

5) The Remedial Action Report shall be submitted by March 1, 2029, with no extensions.

Should the Ordered Party fully comply with the terms of the ACO, additional adjustments to Direct Oversight under #4 above may be granted, allowing the case to proceed in a manner consistent with the intent of the SRRA and the Licensed Site Remediation Professional Program with the exception that the Ordered Party shall continue to post a Remediation Funding Source. The Remediation Funding Source is based on an Annual Remediation Cost Review certified by an LSRP and is required until the remediation is completed with the LSRP retained to complete the remediation issuing either (a) an unrestricted use Response Action Outcome (RAO) or (b) either a limited restricted use or restricted use RAO that includes requirements to comply with an approved Remedial Action Permit.

Should the Ordered Party fail to comply with the proposed adjusted Direct Oversight terms of the ACO, the Ordered Party would have agreed as conditions of the ACO (a) that the terms of compliance revert back to full compliance with all provisions of Direct Oversight, (b) to pay stipulated penalties, (c) that the Department may draw down on the Remediation Funding Source to conduct the cleanup, and (d) that the Department may enforce the ACO in Superior Court as a final order.

Based on the ACO terms and no known impacts to public health at this time, the Department is making a determination that this proposed Direct Oversight modification is in the

public interest and protective of public health and safety. With the Ordered Party agreeing to the proposed terms and with a financial commitment established as a Remediation Funding Source, Department resources are best utilized by allowing this matter to proceed without direct Department oversight and instead under an LSRP who is obligated to ensure the remediation being conducted is protective of public health and the environment.

In accordance with the SRRA at N.J.S.A. 58:10C-27.g.(2), the information noted above serves as the Department's written determination of and rationale for the proposed modifications to the requirements of Direct Oversight. The action set forth herein shall not be effective until at least 60 calendar days from the date of this notice.

Nothing in this public notice affects Route 70 West Limited Liability Company's potential liability and obligations to the State Trustee, the Department or its Commissioner regarding natural resource injuries or damages.

A copy of the Department's files concerning the Site is available for review by contacting the Office of Record Access, NJDEP, PO Box 420, Mail Code 401-06Q, Trenton, NJ 08625-0420 or via e-mail at records.custodian@dep.nj.gov.

Interested persons may submit written comments on the proposed adjustments to Direct Oversight to Quentin Zorn, Enforcement Manager, NJDEP, Contaminated Site Remediation & Redevelopment, Bureau of Enforcement and Investigations, 401 East State Street, PO Box 420 - Mail Code 401-06U, Trenton, NJ 08625-0420 or electronically at Quentin.Zorn@dep.nj.gov.

All comments must be submitted within 30 calendar days of the date of this public notice. The Department will consider all comments received and may decide to withdraw or withhold consent to the proposed adjustments to Direct Oversight if comments disclose facts or

considerations that show that the adjustments to Direct Oversight are inappropriate, improper, inadequate, or not protective of public health and safety and the environment.

The action set forth herein shall not be effective until at least 60 calendar days from the date of this notice.
