

Site Remediation Reform Act (SRRA) Listserv Archives

April 19, 2010 - [SRRA] The Alternative Soil Remediation Standard Application Form has been updated to version 1.1

From: SRRA <SRRA@dep.nj.gov>
To: srra@listserv.state.nj.us
Date & Time: 4/16/2010 2:44 PM
Subject [SRRA] The Alternative Soil Remediation Standard Application Form has been updated to version 1.1

The Alternative Soil Remediation Standard Application Form has been updated to version 1.1. Previous versions of this Form referred to the "Guidance for the application of remediation standards, site-specific criteria, and screening levels pursuant to the Technical Requirements for Site Remediation (N.J.A.C. 7:26E)." This guidance document is not currently available, and reference to it has been removed from this Form. The relevant information from this guidance document referred to when Department pre-approval is needed prior to using certain direct contact soil exposure pathway alternative remediation standards and/or site-specific impact to ground water soil exposure pathway remediation standards. The necessary information has now been added to the instructions, section B1.

The form is available via the SRRA Forms page: <https://www.nj.gov/dep/srp/srra/forms/>
