**Subject** [SRRA] Notice of Administrative Corrections for "specially adopted rules" posted to NJDEP Web site

A Notice of Administrative Corrections pertaining to the specially adopted rules adopted by the Department on December 7, 2009 to implement the Site Remediation Reform Act has been published in the April 19, 2010 New Jersey Register (NJR). A courtesy copy of this Notice has been posted on the NJDEP Rules and Regulations website at <https://www.nj.gov/dep/rules/adminchg/100419c.pdf>. The corrections included in the Notice are needed to correct inaccurate rule citations and web site addresses, and to correct typographical errors. Additionally, the Department is making administrative corrections to the Technical Requirements for Site Remediation (Technical Rules), N.J.A.C. 7:26E, to delete references to the priority pollutant list of contaminants from the Technical Rules.

In addition, the SRP will be soon be posting updated courtesy copies of the following rules to reflect the Notice of Administrative Corrections: Administrative Requirements for the Remediation of Contaminated Sites (N.J.A.C. 7:26C), Technical Requirements for Site Remediation (N.J.A.C. 7:26E), Industrial Site Recovery Act Rules (N.J.A.C. 7:26B), and Underground Storage Tank rules (N.J.A.C. 7:14B).

Lastly, be aware that the SRP is preparing a second Notice of Administrative Corrections. This Notice will likely be published in the NJR during the Summer 2010. The SRP will again post updated versions of any SRP rules that are impacted by this second Notice.
