Subject [SRRA] [SRRA] Getting the word out about SRRA and the LSRP Program

On April 15, 2011 the Site Remediation Program (SRP) distributed an information package about SRRA and the LSRP program, via email, to a broad list of groups, associations, and news outlets across the state. The email contained several items including a brief written overview of the program, a quick reference guide and a power point sideshow. SRP asked the email recipients to share the attached materials with their members and constituents to help get the word out about SRRA and the LSRP Program. These materials are posted on the Department's Web site at https://www.nj.gov/dep/srp/srra/lrsp/lrsp_program_overview.htm
