[SRRA] Availability of DEP Technical Guidance document - Ground Water Investigation

The Department would like to announce the availability of the Ground Water Technical Guidance document for Site Investigation, Remedial Investigation and Remedial Action Performance Monitoring (version 1.0, dated April 3, 2012). This Guidance provides detail on how to conduct ground water remediation including background investigations, characterization and contaminant delineation in unconsolidated and bedrock formations, performance monitoring of remedial actions and recommended tools to conduct more efficient remediation.

This document was developed by the NJDEP's Ground Water Technical Guidance Committee, which consisted of NJDEP Staff and Stakeholders

The technical guidance document can be found at https://www.nj.gov/dep/srp/guidance/srra/gw_inv_si_ri_ra.pdf and the "Response to Comments" for the Technical Guidance document can be found at:
