SRP Announces initiation of additional Technical Guidance development

The NJDEP's Site Remediation Program Announces the initiation of additional Technical Guidance Development

The DEP's Site Remediation Program is evaluating the start of a 2nd round of Technical Guidance development. To assist in this undertaking, stakeholder input is being solicited on ideas for new Technical Guidance topics.

This information should be submitted between now and June 18, 2012 and forwarded to George Nicholas (NJDEP Lead for SRP Technical Guidance Development) at George.Nicholas@dep.nj.gov. A meeting will be held on June 20th, 2012 at the NJDEP's 401 East State Street building (Trenton, NJ) in the 1st floor Public Hearing room from 2:30-4:00. Discussion topics will include feedback regarding new Technical Guidance topics and plans to move forward.

It is recognized that the nature of Technical Guidance topics will affect stakeholder participation, however, it is requested that any stakeholders who would like to be involved in the process please forward their contact information to George Nicholas at the email address noted above. Information requested would include name, whether you are an LSRP, work phone, email, and any affiliation that would also be represented (e.g., Environmental Organization, LSRPA, Builders Association, Chemistry Council, other RP group, etc.).
