Subject [SRRA]: Updates to Coordination of NJDEP and USEPA PCB Remediation Policies

[SRRA]: Updates to Coordination of NJDEP and USEPA PCB Remediation Policies

The Site Remediation Program has posted revised Coordination of NJDEP and USEPA PCB Remediation Policies guidance on its web page to update the previous guidance dated March 3, 2011. The revised guidance (March 1, 2013) includes additional information on the TSCA Performance-based Disposal option as codified in 40 CFR 761.61(b) for soil as a bulk PCB remediation waste. The update also clarifies the Licensed Site Remediation Professional's notification responsibilities under TSCA and how they should document their coordination with the USEPA in key document submissions to the NJDEP. The updated Coordination of NJDEP and USEPA PCB Remediation Policies guidance document can be accessed at <https://www.nj.gov/dep/srp/guidance/pcbremediation/>.
