[SRRA]: Hot topic: Training - Updates to the Immediate Environmental Concern (IEC) Technical Guidance and Real World Topics

Training on Updates to the Immediate Environmental Concern (IEC) Technical Guidance and Real World Topics:

Thursday, September 24, 2015 from 4:00 to 5:30 in the DEP Public Hearing Room, 401 E. State Street, Trenton

Program Description:

Presenters will provide training on what's new in NJDEP's IEC Technical Guidance, how LSRPs should handle an IEC caused by an unknown/off-site source, discuss the requirements for IEC source control and explain when IEC oversight ends. Presenters will provide real world examples to show how to evaluate data and use multiple lines of evidence when evaluating potential IEC conditions. They will also present common problems they encounter on IEC cases.

Presenters: Andrew Sites, Manager of IEC Unit, Steve MacGregor and Jared Makrancy, IEC Case Managers Tessie Fields - Moderator

In person attendance is limited, so registration for all attendees will be on a first come first served basis. The Department is awaiting the SRPLB's approval of 1.5 regulatory CECs for this training.

Registration:

In order for non-NJDEP staff to attend in person, please register on the LSRPA website at:

www.lsrpa.org

Register for Webinar:

To register for the webinar please go to:

<https://attendee.gotowebinar.com/register/620891286756253954>. Once registered you will receive an email confirming your registration with information you need to join the Webinar.

Presentation Materials:

The slides and resulting audio will be posted on the NJDEP training web page shortly after the presentation for future reference. Continuing education credits are not offered for this course.
