[SRRA]: Seats still available for October 29th Rutgers Case Study Training event

Seats are still available for the Case Study Training event for LSRPs being offered by the Department and the Rutgers Office of Continuing Professional Education on Thursday, October 29, 2015 8:30 AM - 4:30 PM in New Brunswick, NJ.

This course will satisfy the pre-requisite course requirement in order to take the March 15, 2016 LSRP Licensing Exam (or future exams) OR will qualify for Regulatory Continuing Education Credits. It will not count for both. This well-reviewed, interactive one-day workshop will engage Licensed Site Remediation Professionals (LSRPs) and other environmental professionals to work through a typical Site Remediation Program (SRP) Case starting with an ISRA triggering event, through all the phases of remediation (PA/SI/RI and RA), including applying for and implementing a remedial action permit and culminating in the issuance of an RAO. Please note attendance policy: No LSRP CECs will be awarded for attendees missing 45 minutes or more of class time.

Contact the Rutgers Office of Continuing Education to register:
