[SRRA]: Technical Guidance Document Training: Planning for and Response to Catastrophic Events at Contaminated Sites

Training on the Planning for and Response to Catastrophic Events at Contaminated Sites Technical Guidance will be held on Tuesday, June 14, 2016 from 9:00 AM to 11:00 AM (check-in at 8:30 AM) in the DEP Public Hearing Room, 401 E. State Street, Trenton.

Program Description:

This training will provide an overview of the soon to be issued Technical Guidance on "Planning for and Response to Catastrophic Events at Contaminated Sites." In the wake of Superstorm Sandy, the Department, LSRPs, and persons responsible for conducting the remediation evaluated lessons learned and identified improvements that could be made to enhance remedial system resiliency for future catastrophic events. The resulting guidance and this training will discuss important topics related to catastrophic events, including:

- factors to consider in planning for and responding to catastrophic events;
- incorporating resiliency into the design and implementation of site remedies;
- retro-fitting vulnerable sites to decrease disruption to existing systems;
- establishing communication networks, chain-of-command structures, and procedures to be used during catastrophic events; and
- how to re-assess systems and review lessons learned to better prepare for future catastrophic events.

A Case Study will also be presented to help illustrate these concepts.

Presenters:

- George Nicholas , Moderator, NJDEP
- Neil Jiorle, LSRP, French & Parrello Associates
- Nicholas Santella, Ph.D., Brownfield Science & Technology Inc.
- Gary Pearson, NJDEP Emergency Management Program

To attend the training in person:

Please register on the LSRPA website at: www.lsrpa.org

To register for the Webinar:

Go to <https://attendee.gotowebinar.com/register/147197493958080771>. Once registered you will receive an email confirming your registration with information you need to join the Webinar.

Continuing Education Credits:

The Department has applied to the SRPL Board for 2.0 Scientific/Technical continuing education credits (CECs) for this course. CECs will be available for in-person attendance (cannot miss more than 45 minutes of the program) and also for Webinar participants (must be logged in for entire program and answer 3 out of 4 webinar quiz questions).

Presentation Materials:

The slides and resulting audio will be posted on the DEP training web page shortly after the presentation for future reference.

Technical guidance documents are available for review and download from SRP's guidance library at www.nj.gov/dep/srp/guidance/index.html.
