[SRRA]: Landfills Investigation Technical Guidance: Update

The Department would like to announce that the Landfills Investigation Technical Guidance has been revised from version 1.2 to version 1.3. Revisions include correction of grammatical errors, updating of website links and references, revised contact information for committee members, and updating references for guidance documents and regulations. Minor wording changes were also made to increase clarity, and two sections in the SI and RI chapters regarding geophysical surveys were merged to reduce redundancy.

Technical guidance documents are available for review and download from SRP's guidance library at www.nj.gov/dep/srp/guidance/.
