[SRRA]: The Department announces the availability of the revised Ecological Evaluation Technical Guidance (Version 2.0, August 2018)

The Ecological Evaluation Technical Guidance has been updated from version 1.3 to version 2.0. Revisions to this technical guidance include, but are not limited to, new language to clarify and provide more details on the selection of, and data use from, background and reference locations, the selection of toxicity reference values (TRVs), the evaluation of extractable petroleum hydrocarbons, and the evaluation of historic fill in or impacting environmentally sensitive natural resources.

This updated technical guidance document, corresponding change log, and response to stakeholder comments can be found on the SRP Guidance Library (www.nj.gov/dep/srp/guidance/).
