[EXTERNAL]: Site Remediation and Waste Management Program's Updates to the Case Inventory Document (CID) Training

The New Jersey Department of Environmental Protection's (NJDEP) Site Remediation and Waste Management Program (SRWMP) will be providing a detailed training on the updates to the Case Inventory Document (CID). The virtual training will be held on Thursday, February 18, 2021 from 9:00 AM to 12:00 PM via GotoWebinar (see registration information below).

The purpose of the CID is to provide a concise summary of the Areas of Concern (AOCs) at a site to the Department, regulated community, and interested parties. The training will offer a discussion on NJEMS, CID examples, and the new functions in the CID, including a demonstration using the CID, the new CID validator, and CID instruction clarifications. A question and answer period will follow each presentation.

The presentation is being delivered remotely and will **only** be available virtually. **NO in-person option for this training is offered at this time.** The maximum number of individual participants supported by GoToWebinar for this training is 500. Please do not hesitate to register if you are interested. As the capacity for this platform does not exceed 500 participants, additional slots cannot be made available.
