Subject [EXTERNAL]: Post-Hurricane Ida site evaluations

[EXTERNAL]: Post-Hurricane Ida site evaluations

We hope that everyone is recovering from the impacts of the remnants of Hurricane Ida. At this time, it is essential to know the condition of sites where you are responsible for conducting remediation, and sites for which you are the retained LSRP. Please evaluate whether the storm caused any of the following:

- New discharges at your site. Any discharges of hazardous substances are required to be reported to the NJDEP Hotline at 877-WARNDEP.
- New immediate environmental concern conditions (water, vapor, direct contact). Immediate actions should be taken to address any immediate environmental concerns identified as part of this response.
- Changes to site conditions requiring a reexamination of your receptor evaluation to determine whether it still accurately represents potential impacts to receptors.

If you have topic-specific questions regarding site remediation, please refer to the SRP contact list, available at https://www.nj.gov/dep/srp/srra/srra_contacts.htm.

Celebrating its 50th anniversary in 2020, the New Jersey Department of Environmental Protection is dedicated to protecting New Jersey's environment and public health. The agency prioritizes addressing climate change, protecting New Jersey's water, revitalizing its communities and managing and promoting its natural and historic resources.

For the most recent information about the DEP, follow its Twitter feed at [@NewJerseyDEP](https://twitter.com/NewJerseyDEP) or visit www.nj.gov/dep.
