September 29, 2021 - [EXTERNAL]: Site Remediation and Waste Management Program's NJ-GeoWeb Site Remediation Profile Training

From: NJ Department of Environmental Protection NJDEP@public.govdelivery.com
To: NJDEP@public.govdelivery.com
Date & Time: 9/29/2021 11:42:00 PM
Subject [EXTERNAL]: Site Remediation and Waste Management Program's NJ-GeoWeb Site Remediation Profile Training

[EXTERNAL]: Site Remediation and Waste Management Program's NJ-GeoWeb Site Remediation Profile Training

The New Jersey Department of Environmental Protection's (NJDEP's) Site Remediation and Waste Management Program (SRWMP) will be providing a detailed training on the NJ-GeoWeb Site Remediation Profile Training. The virtual training will be held on Wednesday, October 27, 2021, from 9:00 AM to 1:00 PM via GotoWebinar (see registration information below).

SRWMP is offering training on the Site Remediation profile in NJ-GeoWeb. The [Site Remediation profile in NJ-GeoWeb](#) is a customized version of NJ-Geoweb specifically designed to allow users to interact with Site Remediation related GIS data, including, but not limited to, the Known Contaminated Site List (KCSL), Immediate Environmental Concerns (IECs), Institutional Controls (CEAs and Deed Notices) and Underground Storage Tank (UST) Facilities. This training session will highlight the basics of navigating the NJ-GeoWeb platform, using the various tools within the Site Remediation profile application, as well as accessing and exploring the various SRWMP centric GIS layers included within this application. Demonstrations provided during the training session will highlight areas in the remediation process that can be supported using this application, including preliminary assessments, receptor evaluations and public notifications. This training session is designed to help both the novice user to get up and running and the experienced user to get the most out of the Site Remediation profile in NJ-GeoWeb.

Please be advised that attendees will not be able to follow along using the SRP Profile in NJ-GeoWeb during the training session as this may negatively impact the performance of the application. After the training session, the recording will be made available in a video format so that attendees can work through the material at their leisure using the SRP Profile in NJ-GeoWeb application.

The presentation is being delivered remotely and will only be available virtually. **NO in-person option for this training is offered at this time.** The maximum number of individual participants supported by GoToWebinar for this training is 500. Please do not hesitate to register if you are interested. As the capacity for this platform does not exceed 500 participants, additional slots cannot be made available.

Presenters:

Don Cramer, Bureau of Information Systems
Joe Stefanoni, Bureau of Information Systems
Alissa Ambacher, Moderator
Christina Page, Moderator

To Register for the Webinar::

Please register for the New Jersey Geo-Web Site Remediation Profile Training on October 27, 2021, 9:00 AM at:
Registration URL
<https://attendee.gotowebinar.com/register/8120803085120781324>
Webinar ID: 959-456-899

After registering, you will receive a confirmation email containing information about joining the webinar. **You will be able to join the webinar starting at 8:45 AM on October 27, 2021.**

Continuing Education Credits (CECs):

The NJDEP has applied to the Site Remediation Professional Licensing Board (SRPLB) for 3.0 Regulatory Credits for this course. Once the CECs are approved, certificates will be made

available via an email link to those participants who have requested to receive CECs and meet the requirements. Credits may be applicable to NJ PE licenses, PE licenses from other states, and PG licenses from other states; please verify the requirements that apply to your licenses.

The List of Board-Approved Continuing Education Programs is Available at:

www.nj.gov/lsrpboard/board/education/approved_continuing_education_courses_all_dates.pdf.

After the course, the Licensed Site Remediation Professional Association (LSRPA) will provide eligible attendees detailed instructions via email regarding how to obtain a CEC certificate.

Presentation Materials:

The slides and resulting audio will be posted on the DEP training web page

(www.nj.gov/dep/srp/srra/training/) after the presentation for future reference.

Celebrating its 50th anniversary in 2020, the New Jersey Department of Environmental Protection is dedicated to protecting New Jersey's environment and public health. The agency prioritizes addressing climate change, protecting New Jersey's water, revitalizing its communities and managing and promoting its natural and historic resources.

For the most recent information about the DEP, follow its Twitter feed at [@NewJerseyDEP](https://twitter.com/NewJerseyDEP) or visit www.nj.gov/dep.
