Subject [EXTERNAL]: Updated Remedial Action Permit (RAP) Applications/Forms and Instructions available

[EXTERNAL]: Updated Remedial Action Permit (RAP) Applications/Forms and Instructions available

The Contaminated Site Remediation & Redevelopment Program (CSRPP) has updated the RAP applications/forms and instructions as a result of the revised Ground Water RAP Guidance Document (version 2.1). Significant changes to the RAP applications/forms include the following:

- A reminder to pay the ground water active system RAP fee and complete the Active Remediation section for a Technical Impracticability (TI) determination on the Ground Water RAP Initial and Modification Applications;
- The inclusion of the Vapor Intrusion Change in Use Evaluation Plan for when the sub-slab soil gas contamination is greater than the Residential Soil Gas Levels for non-residential structure on the RAP Applications; and
- Additional checkboxes to clearly indicate the scenario(s) for the sub-slab soil gas contamination remaining beneath any building(s) in the affected receptor/vapor intrusion summary sections on the RAP Applications.

The applications/forms and instructions, along with the change logs, are available on the CSRPP's website at <https://dep.nj.gov/srp/forms/>.

The New Jersey Department of Environmental Protection is dedicated to protecting New Jersey's environment and public health. The agency prioritizes addressing climate change, protecting New Jersey's water, revitalizing its communities and managing and promoting its natural and historic resources.
