Subject Technical Guidance for the Attainment of Remediation Standards and Site-Specific Criteria (Version 3.1) and calculator now posted

Contaminated Site Remediation & Redevelopment (CSRR) posted Technical Guidance for the Attainment of Remediation Standards and Site-Specific Criteria (Version 3.1, March 2025) and a supporting Rounding Calculator.

The guidance document was revised to correct a citation in Table 4-1. In addition, to assist the regulated community, CSRR has developed a Rounding Calculator and a Calculator Information Sheet. The Rounding Calculator, when used in conjunction with the guidance provided in Appendix B of the Attainment Guidance, may be used to ensure that rounding is performed correctly.

The updated Attainment Guidance and change log can be found on the Guidance Library (<https://dep.nj.gov/srp/guidance/>), along with the Rounding Calculator and its Information Sheet. The previous version of this technical guidance can be found on the Guidance Library Archive (<https://dep.nj.gov/srp/guidance/guidance-archive/>).

The New Jersey Department of Environmental Protection is dedicated to protecting New Jersey's environment and public health. The agency prioritizes addressing climate change, protecting New Jersey's water, revitalizing its communities and managing and promoting its natural and historic resources.
