

## Contaminated Site Remediation & Redevelopment

**From** NJ Department of Environmental Protection  
**To** NJDEP@public.govdelivery.com  
**Date & Time** 7/11/2025 10:52 AM EDT  
**Subject** Updated Receptor Evaluation Form and Instructions

Contaminated Site Remediation & Redevelopment has updated the Receptor Evaluation Form and Instructions. Significant revisions are listed below. Please see the change log for a full list of changes.

- Section E has been revised to clarify that potable and irrigation wells (permitted and unpermitted) must be identified within the required distances referenced in the New Jersey Technical Requirements for Site Remediation.
- Instructions were added to Section C which was revised to provide clarification on the types of documents which could be required to be submitted with a receptor evaluation.
- Hyperlinks relevant citations and guidance documents were updated.
- The following statement was added to Section G: "*Pursuant to N.J.A.C. 7:26E-4.8, the Ecological Risk Assessment is required to be conducted during the RI phase of the remediation and must be completed within the RI Regulatory Timeframe.*"

The form, instructions, and change log are available on the Forms Library webpage at:  
<https://dep.nj.gov/srp/forms/>.

---

The New Jersey Department of Environmental Protection is dedicated to protecting New Jersey's environment and public health. The agency prioritizes addressing climate change, protecting New Jersey's water, revitalizing its communities and managing and promoting its natural and historic resources.
