LSRP Continuing Education Requirements

36 Continuing Education Credits (CECs) over 3 year LSRP license renewal period:

Minimum no. of CECs must be satisfied in these categories:

- 3 CECs Ethics
- 10 CECs Regulatory
- 14 CECs Technical
- +9 CECs Discretionary

Board can require “CORE” courses

Continuing Ed Credits (CECs)

- One CEC is equivalent to 1 hour of instruction from university, college, DEP, LSRPA & other professional organizations
- Conferences Conventions Workshops 1hr = $\frac{1}{2}$ CEC
 - Up to 8 CECs allowed within 3 year renewal cycle
 - Changes to this policy are up to discretion of LSRP Board
- Webinar and On-Line Courses: CEC is 1:1 but exam is required
- CECs available for presentations, publications but not 1:1 credit

Dates & Events

- May 13 & 14 *Contaminant Vapor Migration & Intrusion
2 days - 13 Tech. CECs , Mt Laurel*
- April 15 NJDEP Analytical Guidance Training
- May 28 Breakfast Seminar: Risk Management
for LSRPs, East Windsor
- Sep. 16 & 17 *Groundwater Contamination & Remedial
Principles and Practices
2 days - 13 Tech. CECs, E. Windsor*

****Courses presented by the LSRPA in partnership with
Northwest Environmental Training Center***

Thank You

NJDEP ONLINE SERVICES AND NEW ELECTRONIC CID

OVERVIEW OF TODAY'S TRAINING

Elaine DeWan

Chief, Bureau of Information Systems, NJDEP

609-292-9418

Elaine.DeWan@dep.state.nj.us

CASE INVENTORY DOCUMENTS

Erick Kinsel, Bureau of Inspection and Review
609-292-8723
Erick.Kinsel@dep.state.nj.us

New Case Inventory Document

Purpose of the CID remains the same:

- Track the progress of all AOCs from identification through RAO
- Identify the current case status
- Summarize the work completed and planned for each AOC

Why Change?

- To incorporate “lessons learned” from 3 years in LSRP Program
- To upload with ePortal submissions
- To provide more consistent reporting using dropdown lists
- To reduce the need for narrative in the Activity Column

What's Changed?

- The AOC spreadsheet has been expanded
- More specific information requested
- Most fields use dropdown lists
- Less narrative needed in the Activity column

AOC ID & AOC Type

Case Inventory Document Version 1.2 02/20/14	
AOC ID	AOC Type
AOC-1	
	Storage tank and appurtenance - Above ground storage tank
	Storage tank and appurtenance - Federal Regulated Under ground storage tank
	Storage tank and appurtenance - State Regulated Under ground storage tank
	Storage tank and appurtenance - Unregulated Under ground storage tank
	Storage tank and appurtenance - Silo
	Storage tank and appurtenance - Rail car
	Storage tank and appurtenance - Piping, above/below ground pump station, su
	Storage tank and appurtenance - Loading and unloading area

A total of 46 AOC Types
to choose from

- AOC Types are from the Tech Regs
- Every potential AOC should be listed and have it's progress tracked

AOC Details

Inventory Document Version 1.2 02/20/14	
AOC Type	AOC Details
Storage tank and appurtenance - State Regulated Under ground storage tank	1/3000 gallon #2 Fuel Oil UST
Environmental media - Media Ground water	ground water plume from leaking AST (AOC3)
Drainage system and area - Building floor drain and piping	floor drain in west production room
Drainage system and area - Building floor drain and piping	floor drains in shipping room

- Additional AOC info should be given in AOC Details

Confirmed Contamination

AOC Details	Confirmed Contamination	AOC Status

- “Yes” if contamination is > remediation standard
- “Undetermined” if AOC not yet investigated
- Once “Yes”, leave as “Yes”

A total of 26 Remedial Action Types to choose from

- Three columns provided
- Up to three Remedial Action Types listed per AOC
- Additional Remedial Action Types can be included in the Activity column

Activity

4		
5	Was an Order of Magnitude Evaluation Conducted?	Activity
7		Dec. 2009 RAR - Soil contamination (TCE) was detected above the soil standards. Soil source of TCE was excavated and post-ex results below the Soil Standards. TCE and daughter products detected in GW. GW contamination is off-site and was delineated horizontally and vertically. Contamination shows diving plume. On-site both shallow (15') and deep (75') overburden were contaminated. Off-site, only the deep overburden was contaminated. On-site contamination was remediated to the GWQS. Off-site contamination was monitored for two years. Levels have decreased and decreasing trend is evident. Passes Mann-Whitney. GW RAP application submitted. Once issued, a Limited Restricted Use RAO-A will be issued.
8		

- Do not repeat information reported elsewhere in CID
- Brief comments
- Summarize work conducted and planned
- Include only relevant information

Miscellaneous Items

- Do not alter the structure of the spreadsheet
- Do not skip rows between AOCs
- Upload CID as spreadsheet, do not convert to PDF
- The CID is not very printer friendly

Implementation

- Rollout of new CID
- Mandatory use with ePortal submissions
- Updated CID required for each ePortal submission

QUESTIONS?

Online Remedial Investigation Report Submission

Scott Tyrrell, Bureau of Information Systems
609-292-9418
scott.tyrrell@dep.state.nj.us

New RIR Online Submission

- Accepts the new electronic CID
- Allows submission of very large RIR files
- Displays only questions required based on previous answers
- Streamlines submission inspection

Welcome to New Jersey Department of Environmental Protection's (NJDEP) Online Business Portal

NOTICE: The NJPDES Monitoring Reports (DMRs, WCRs, RTRs) service is now available. Our apologies for the inconvenience this may have caused.

NOTICE: Please be advised that the reporting year 2013 Community Right to Know reporting deadline has been extended to April 1st, 2014.

NJDEP Online can now be accessed via the myNewJersey Portal at <http://www.nj.gov> or accessed directly from this page by selecting 'Log in to NJDEP Online'. NJDEP Online offers two different types of online services, **Registered** and **Non-Registered**:

Non-Registered Services - These are simplified services that **DO NOT** require having an account or logging into myNewJersey to access or complete. Simply click [here](#) for a listing of the available **Non-Registered** services, select a service and begin.

Registered Services - These services **DO** require having a myNewJersey Portal account in order to access and complete. If you do not have a myNewJersey Portal account, you are able to create one during the registration process OR simply click the "NEW USERS..." button to begin the registration process. You will also be able to use this same myNewJersey account to access additional online services provided by other New Jersey Departments. Click [here](#) for a listing of the available **Registered** services.

NEW [NJDEP Online New User Registration Instructional Video](#) (Video will open in a new window. Please make sure your computer volume is enabled.)

[NJDEP Online New User Registration Instructions](#) (Please read the instructions thoroughly before continuing. Instructions will open in a new window so you can print them or follow along. If you do not have Adobe's free Acrobat PDF reader please download it [here](#) in order to read or save the instructions.)

Already a registered user?

Log in to NJDEP Online

Some NJDEP Online services have associated fees. A Visa, MasterCard, Discover, American Express credit card, or a valid checking account is required for online payment of the required fees.

Note: For use with Mozilla Firefox 3.5 or higher or Microsoft Internet Explorer 7.0 or higher.

Use this service when submitting a completed Remedial Investigation Report (RIR) for an area of concern or the entire site. In this service, the user will select the facility, confirm the site location, provide contact information, update and upload the case inventory document, and provide the DEP with the details of the remedial investigation that the LSRP has conducted. Finally, the LSRP will certify their submittal.

Help screens are available throughout the service. These provide links to useful SRP websites.

For additional information regarding remedial investigation activities, go to the DEP's Guidance Document Library website by clicking the [link](#). See also the applicable Site Remediation rules by clicking the [link](#).

The grid below contains a list of Site Remediation Facilities that have been associated with your user profile. Please select the Facility related to this submission prior to clicking continue. If you do not see the facility for which you would like to make this submission, you may use the Facility Search link at the bottom of this page to add a Facility to your user profile.

Select	Facility	Facility ID	Facility Type	Municipality	Address
<input checked="" type="radio"/>	SRP UST WEB TEST PI	164220	SRP-PI	Trenton City	401 E STATE ST
<input type="radio"/>	USTS 129 ESSEX ST	031438	SRP-PI	Jersey City	129 ESSEX ST

Clicking a column title will sort the table by that column.

If you do not see the Facility you are looking for, it may be because the facility associated with the Facility has not been added to your user profile. To search for facilities and add them to your profile, please [click here](#).

CASE SELECTION

Select the case that pertains to this service submission. Use the communication center number, incident number, notice of intent (NOI) number, or ISRA transaction number to assist in selecting the correct case. Note that the Case Tracking Number is auto-generated by the Department.

If the service is going to apply to more than one of the cases listed on this page, you must contact Bureau of Case Assignment (BCAIN) at 609-292-2943 and have the cases merged prior to continuing with this service. Alternatively, you may continue with this RIR service by completing a separate RIR submission for each case.

Select	Activity Number	Activity Type	Case Tracking Number	Status	Status Date	Case Name	Document Title
<input checked="" type="radio"/>	LSR140001	LSRP New Case	139098	Active	05/29/2017	SRP UST WEB TEST PI	E091234 OLD FORGE PROPERTY

Clicking a column title will sort the table by that column.

The LSRP must be retained for this case in order to continue. The Annual Remediation Fee Form (ARFF) must be up to date in order to complete the RIR service.

Additional Site Information

Note: You cannot change or edit the information displayed under the "Location Address" screen. The name of the City (being a local name) may not match the name of the Municipality (the Incorporated name). You can only check this information for accuracy. If the information is incomplete or incorrect, contact BCAIN at (609) 292-2943

"Location Description" text box is usually blank. The user cannot edit this text box. Information that is present in this text box is unusual site information that does not fit the norm. Examples: Sites with no street address number, discharges that have occurred in the middle of a street, etc.

Verify the X and Y coordinates. If they are not correct, select the "Undo Location" button, and follow the directions as stated under the "Coordinate Selection" section below.

Case Name: SRP UST WEB TEST PI

Location Address:

Line 1: 401 E STATE ST
Line 2:
Line 3:

Location Description:

***Block and Lot:**

I certify that a valid block/lot combination does not apply for this Project.

***Block and Lot:**

I certify that a valid block/lot combination does not apply for this Project.

Row	*Block	*Lot	County	Municipality	Remove
1	4	5	Mercer	Trenton City	

[Add Row](#)[Add Range](#)

Note: Each block and lot must be on a separate line.

Coordinate Selection

Use the 'Map Tool' along the left side of the map to zoom in to the specific location of your Facility. If the Facility location is incorrectly located on the map, implement the following steps:

1. Click the 'Undo Location' button
2. Click on the specific point of the map to indicate the location of your Facility; and then
3. Click the 'Set Location' button to set the point as the location of your Facility.

Upon clicking 'Set Location' the X and Y Coordinate information associated with your Facility will automatically be updated. Choose the location reference that applies from the dropdown, and you will be able to continue with your service.

Case Inventory Document (CID) Upload Confirmation

AOC/CID reconciliation instructions:

The DEP service has attempted to match your current AOCs with AOCs uploaded from earlier submissions. "System found match". Verify the accuracy of this information, and make corrections as necessary.

If the DEP service did not match a current AOC correctly with an AOC listed from a previous submission, you will be prompted to create a new AOC.

AOC ID	New AOC?	Associate with Existing AOC	AOC Type
AOC1A	Yes		Storage tank and appurtenance - Federal Regulated U
AOC1B-test	Yes		Storage tank and appurtenance
AOC-2 test added incident	Yes		Drainage system and area - Building su

To obtain additional information regarding each of the AOC's associated with your case, please launch

CID Confirmation Left Side

The screenshot shows a web browser window with the URL https://www-depstg.state.nj.us/DEP_R5P/Orchestrate.do. The page header includes navigation links for business, government, services A to Z, and departments. A search bar is present with the text "Skip Navigation" above it. The user profile section shows "User Profile", "Certifications", "Payments", "Documents and Forms", "Permit Folder", and "NJDEP Open Gov". The user's name is "Tymell (STYRR8)" and the case number is "164220". The case title is "SRP UST WEB TEST PI". There are links for "Help" and "Logout".

Case Inventory Document (CID) Upload Confirmation

AOC/CID reconciliation instructions:

The DEP service has attempted to match your current AOCs with AOCs uploaded from earlier submissions. The results are displayed below. If a match was found, the column "New AOC?" will be populated "No", and the accuracy of this information, and make corrections as necessary.

If the DEP service did not match a current AOC correctly with an AOC listed from a previous submission, match them by selecting "No" in the "New AOC?" column and selecting the correct AOC from the dropdown menu.

AOC ID	New AOC?	Associate with Existing AOC	AOC Type	AOC Description	Contaminant
AOC1A	Yes		Storage tank and appurtenance - Federal Regulated Under ground storage tank	TEST1 3 status to NFA 5000-gal. USTs, piping and dispensers west of sta. bldg.	Yes
AOC1B-test	Yes		Storage tank and appurtenance - Silo	TEST 2 1 550-gal. used motor oil ust, adjacent to south wall of station bldg.	Yes
AOC-2 test added incident	Yes		Drainage system and area - Building sump and pit	TEST 3 status to SI Concrete lined sump in Repair Garage	No

To obtain additional information regarding each of the AOC's associated with your case, please launch the [AOC Report](#).

CID Confirmation Right Side

Submissions. The results are displayed below. If a match was found, the column "New AOC?" will be populated "No", and the "Associate with Existing AOC" column will be populated with "System found match". Verify submission, match them by selecting "No" in the "New AOC?" column and selecting the correct AOC from the dropdown under the column "Associate with Existing AOC".

AOC Type	AOC Description	Contaminated	AOC Status	Status Date	Incident/Comm. Center #s	NJDEP ID
General Regulated Under ground storage tank	TEST1 3 status to NFA 5000-gal. USTs, piping and dispensers west of sta. bldg.	Yes	NFA-A DEP Issued (Unrestricted Use)	08/01/2013	10-03-01-1516-18, 11-03-01-1516-18	
Appearance - Silo	TEST 2 1 550-gal. used motor oil ust, adjacent to south wall of station bldg.	Yes	RAO-E (Limited Restricted Use)	08/01/2013	10-03-01-1130-27	
Area - Building sump and pit	TEST 3 status to SI Concrete lined sump in Repair Garage	No	SI	08/01/2013	89-03-10-1131-45

Case Inventory Document (CID) Upload Confirmation

• Please note, the following Communication Center Numbers are not listed at the case: 10-03-01-1516-18, 11-03-01-1516-18, 10-03-01-1130-27, 89-03-10-1131-45. A Confirmed Discharge Notice may need to be submitted for those numbers.

DOC/CID reconciliation instructions:

The DEP service has attempted to match your current AOCs with AOCs uploaded from earlier submissions. The results are displayed below. If a match was found, the column "New AOC?" will be populated "No", and the user should verify the accuracy of this information, and make corrections as necessary.

If the DEP service did not match a current AOC correctly with an AOC listed from a previous submission, match them by selecting "No" in the "New AOC?" column and selecting the correct AOC from the dropdown under the "Associate with Existing AOC" column.

AOC ID	New AOC?	Associate with Existing AOC	AOC Type	AOC Description	Contaminated
AOC1A	Yes		Storage tank and appurtenance - Federal Regulated Under ground storage tank	TEST1 3 status to NFA 5000-gal. USTs, piping and dispensers west of sta. bldg.	Yes
AOC1B-test	Yes		Storage tank and appurtenance - Silo	TEST 2 1 550-gal. used motor oil ust, adjacent to south wall of station bldg.	Yes
AOC-2 test added incident	Yes		Drainage system and area - Building sump and pit	TEST 3 status to SI Concrete lined sump in Repair Garage	No

For more information regarding each of the AOC's associated with your case, please launch the [AOC Report](#).

AOC/TANK RELATIONSHIP

Associate AOCs with registered underground storage tanks (USTs) by selecting the AOC from the dropdown.

If your regulated UST is not listed, then complete an Underground Storage Tank Facility Certification Questionnaire, which can be found by clicking on the [link](#).

Be advised, failure to properly identify size and contents of the Site USTs, may result in the Department requesting you to withdraw your submission, and may ultimately affect the validity of a Response Action Outcome (RAO).

Multiple USTs may be associated with a single AOC (e.g. multiple USTs in a tank field, identified as one AOC on the CID).

AOC	UST Tank Piping Registration Only	UST Tank Registration Preferred ID	UST Tank Registration Name	NJDEP ID	Tank ID Number	Tank System Size	Contents	Other Contents	Tank Status	Closure Number	Ina D

SCOPE

Answer the following questions. Note that the total number of contaminated AOCs for your case (individually - do not combine) refers to the entire case, not just contaminated AOCs addressed in this submittal. If the RI is complete for all AOCs associated with this case, enter the date the RI was complete.

What is the total number of contaminated AOCs associated with this case?

What is the total number of contaminated AOCs addressed in this submission?

Is the Remedial Investigation complete for contaminated AOCs addressed in this submission?

Is the Remedial Investigation complete for all contaminated AOCs addressed in this case?

Date Remedial Investigation complete for all contaminated AOCs associated with this case.

Select the appropriate media. Mixed media means anything other than soil alone or ground water alone.

Media:

Select the appropriate media. Mixed media means anything other than soil alone or ground water alone.

Media:

Is residue present?

Add rows for any Interim Remedial Measures (IRMs) conducted up to the time of the submission.

If free product is present, Identify whether the free product is light non-aqueous phase liquid (LNAPL) (measured thickness of 0.01 feet or greater) or dense non-aqueous phase liquid (DNAPL) product (See the US EPA DNAPL Overview for definition by clicking on this link).

Row	IRM/RM	Media	Reporting Form Submitted	Other Description	Remove
1	DNAPL				

Add Row

Answer the following question regarding radionuclides. If radionuclides were detected in any media, choose "Yes".

Are radionuclides present?

Save Continue

RIR DETAILS

This page is to provide information on the completed remedial investigation for soils. For general assistance on soil issues. Refer to the Department's technical guidance documents, by clicking on the [link](#).

SOIL INVESTIGATION

If soil contamination is greater than the Applicable Remediation Standard, select all of the contaminated soil conditions that apply by adding rows. If soil contamination is not present above the Applicable Remediation Standard, select "no" and proceed to the historic fill questions.

Is the soil contamination greater than the Applicable Remediation Standard ?

- Yes
- No

Answer the following questions regarding historic fill. Complete the dropdown with all criteria that support the presence of historic fill. Add additional rows as necessary.

For more information, click on the [link](#).

Is historic fill present?

Answer the following questions regarding soil reuse. Additional information can be obtained from the soil reuse guidance. The soil reuse guidance may be found by clicking the [link](#).

Did the remedial investigation include sampling to characterize any on-site contaminated media for on-site reuse?

Complete this section to identify Applicable Remediation Standards, including any compliance averaging, compliance options, and site specific standards that were utilized. The Remediation Standards rules and Basis and Background documents are available by clicking the [link](#).

On June 2, 2008, the NJDEP adopted new Soil Remediation Standards (N.J.A.C. 7:26D). For Phase In Guidance for Use of Remediation Standards, N.J.A.C. 7:26D, click on the [link](#).

The ground water (N.J.A.C. 7:9C) and surface water (N.J.A.C. 7:9B) remediation standards were previously effective and are available by clicking the [link](#).

APPLICABLE REMEDIATION STANDARDS

Indicate if a compliance averaging method was used to determine compliance with an exposure pathway. If "Yes", identify the specific pathway(s) and method(s) within the table provided. Add rows for all that apply. Additional information on compliance averaging can be found in the NJDEP Technical Guidance for the Attainment of Remediation Standards and Site-Specific Criteria Document by clicking the [link](#).

Has compliance averaging been utilized to determine compliance with a Pathway?

Indicate if the compliance option was utilized for the Impact to Ground Water pathway and identify which compliance option was used. Add rows for all that apply. Guidance on compliance options can be viewed by clicking the [link](#).

MISCELLANEOUS

If dioxin was detected in soil, ground water, or sediment utilizing acceptable analytical methods select "Yes".
If dioxin was not included in the laboratory analysis, select "N/A".

Has dioxin been detected in any site media?

Indicate whether any new information has been generated during the RI that changes or contradicts any conclusions previously provided in reports. Add all rows that are applicable. Provide specific details of any changes or corrections by adding an additional row and selecting "Other Information"; then include the description of new information in that row.

Has new information been identified that changes conclusions from a previous submission?

You must complete the following question below. Answer "Yes" to the question if past NJDEP-documented deficiencies were addressed in this submission or there were no past NJDEP-documented deficiencies associated with this submission.

Have past NJDEP-documented deficiencies been addressed in this submission?

320779	Site Remediation Reform Act (SRRA) - Report and Workplan Services - Milestone Document Submission (RI) - RIR Entire Site	05/31/2017	

I certify under penalty of law that I believe the information provided in this document is true, accurate, and complete. I am aware that there are significant civil and criminal penalties, including the possibility of fine or imprisonment or both, for submitting false, inaccurate or incomplete information. As a Licensed Site Remediation Professional, I am also aware of my duties and responsibilities under the Site Remediation Reform Act at N.J.S.A. 58:10C-1 et seq. and certify that the information submitted herein is in accordance with the provisions of that Act. I further understand that as a Licensed Site Remediation Professional, if I am found by the Site Remediation Professional Licensing Board to have violated any provision of the Act, I am subject to disciplinary action by the Board, which may include a monetary penalty, license suspension or revocation, or possible imprisonment.

Name of Certifying Party: Scott Tyrrell

Please Note

You may click on a previously visited page (above) to navigate back to that screen.

As per N.J.A.C. 7:14B-9.2, the owner or operator of an underground storage tank (UST) who intends to close an UST system by removal or abandonment in place shall at least 14 calendar days prior to the anticipated closure date complete this online service and notify all county and municipal health departments along with the applicable local authority issuing a demolition permit.

Prior to completing this online service the UST owner or operator must ensure that the facility has an Underground Storage Tank Registration as required by N.J.A.C. 7:14B-2.2 and all USTs are properly listed. If the facility or the UST(s) subject to this closure is/are not registered as required by N.J.A.C. 7:14B-2.2, before this online form is completed the owner or operator shall register by submitting a completed New Jersey Underground Storage Tank Certification Questionnaire (FCQ) with the appropriate fee when required as specified by N.J.A.C. 7:14B-3.2. In addition, if the specific UST(s) that are the subject of this Closure Notice are not registered, they must be added to the registration by completing the FCQ before this online form is completed. Please go to http://datamine2.state.nj.us/DEP_OPRA/OpraMain/categories?category=Underground+Storage+Tanks and click on 'UST Registration Summary Report' for further details about this UST facility.

Note:

- 1) The licensed site remediation professional (LSRP) performing this closure will be required to certify this submission;
- 2) This online Closure notification form should be submitted prior to the submittal of an LSRP Notification of Retention or Dismissal form unless an SRP case already exists related to this site where this closure activity is occurring;
- 3) In addition, a New Jersey Underground Storage Tank Certification Questionnaire must be completed and submitted to the Department within seven days upon completion of all closure activities contained in this submission;
- 4) Any discharge of hazardous substances identified during closure must be reported to the Department's Hotline at 1-877-927-6337 (1-877-WARNDEP) and remediated pursuant to N.J.A.C. 7:26E; and
- 5) Within one year of closure, a site investigation report (SIR) pursuant to N.J.A.C. 7:26E-3.14 must be submitted.

Please certify by clicking in the checkbox below to verify that the location of the UST Facility listed in this submittal is correct.

Location Notification:

I hereby certify that the location of the property for which I am submitting this service is the same as the site location displayed above.

TANK SELECTION

The following list of tanks is from the Department's UST Registration database for the selected UST facility. They represent information submitted by the Owner or Operator on a New Jersey Underground Storage Tank Certification Questionnaire. If the UST(s) which are the subject of this closure are not listed, the Owner or Operator must submit a New Jersey Underground Storage Tank Facility Certification Questionnaire that can be found at <http://www.nj.gov/dep/srp/forms/ust/ust021b.pdf>, and register the UST(s) prior to completing this online form. **Changing the Information of a registered UST listed below to represent a non-registered UST that is the subject of this closure is not permitted.**

Select the appropriate checkboxes below for the UST(s) that is/are to be included with this submission. Please Note: 'Piping length' (ft) is a required field. If piping is being closed without an associated tank, please choose 'Yes' for 'Piping Only'. 'Tank Status' represents the current status prior to the completion of this closure activity.

Note: A New Jersey Underground Storage Tank Certification Questionnaire (refer to the link above) must be completed and submitted to the Department within seven days upon completion of all closure activities contained in this submission as per N.J.A.C.7:14B-2.4c.

This section asks if Closure has occurred prior to this submittal. If an UST was previously removed, please enter the 'Closure Date' and the name of the Company or Individual who performed the Closure. A 'Yes' to the question 'Closure has occurred prior to this submittal?' requires that all fields must have an entry. After research, please answer to the best of your ability. In regards to 'Abandonment in Place', please answer 'No' to the question 'Has Closure occurred prior to this submittal?' if the UST has not been closed properly pursuant to the American Petroleum Institute Recommended Practice 1604, 'Closure of Underground Petroleum Storage Tanks'.

Has Closure Occurred prior to this submittal?

Yes

Date of closure (MM/DD/YYYY):

03/12/2014

Name of Company or Individual who performed the closure:

SUN OIL

<u>Facility Name:</u>	SRP UST WEB TEST PI
<u>Facility Address:</u>	401 E STATE ST, NJ 00000-0435 Trenton City Mercer County

Decommission, close and conduct a site investigation for the UST(s) and all associated piping specified in this approval in accordance with the Technical Requirements for Site Remediation, N.J.A.C. 7:26E.

The management of any excavated soils must follow the requirements listed in N.J.A.C. 7:14B-8.2.

Note: The UNDERGROUND STORAGE TANK SERVICES CERTIFICATION ACT, N.J.S.A. 58:10A-24, requires all services performed on an UST system for the purpose of complying with P.L.1986, c.102 to be performed by or under the immediate on-site supervision of a person certified by the Department for that service. The certified person providing that service must be employed by a business that is also certified by the Department for that service.

This Permit must be displayed at the Site during the Approved Activity and must be made available for inspections at all times.

The above listed facility is hereby granted approval to perform the attached activities in accordance with N.J.A.C. 7:14B-1 et. seq.

Sincerely,

Kirstin Hahn, Bureau Chief
Bureau of Case Assignment & Initial Notice
