## TIPS

Assess your risk to natural, health, & technology related hazards

Designate an emergency preparedness team

Create an emergency contact list with key phone numbers

Develop a checklist of actions to take before an emergency event

Flood proof your business; elevate or anchor supplies

Prepare an evacuation plan

Hackensack University Medical Center in Hackensack, NJ, has developed an all-hazards incident management program. This program includes a variety of plans, training, and education as well as continuous emergency preparedness exercises and drills. Hackensack University Medical Center is a **National Incident Management System (NIMS)** compliant organization. Exercises create and implement effective planning and preparedness for critical events. [Learn more!](#)
