

WASTE

CASE STUDIES

McCaffrey's of Princeton composts or donates the majority of the food waste generated in the market. All food waste generated by the perishable food departments including fruits, vegetables and proteins is collected and sent to an organics' composting business. Over a year, McCaffrey's reduces its food waste by 44,220 lbs. and saves \$1,540.

TIPS

Go paperless
or switch to
double sided
printing

Perform a
waste audit to
identify ways
to reduce
waste

Compost or
donate food
waste

Install recy-
cling bins and
educational
signage about
what can be
recycled

Offer a discount
to shoppers who
bring their own
bag or cup

Purchase
reusable print-
er cartridges &
plant-based
inks

Berje Inc., a flavor and fragrance manufacturer generates about 100 Scrap Pallets/7,500 Lbs. of wood per week. They offer all scrap pallets at no cost to a number of trucking companies. The pallets are reused as pallets and any minor damages are repaired. Berje used to have to pay for the disposal of the damaged pallets which could fill a dumpster each month. Through this initiative, they have saved over \$4,800 and 380,000 lbs of wood. [Learn More!](#)
