

RADON

IS YOUR HOME SAFE?

Radon is a radioactive gas that comes from the breakdown of naturally occurring uranium in soil and rock

RADON IS
Invisible • Odorless • Tasteless

RADON IS

The 2nd Leading
Cause of Lung
Cancer in the United
States

The Leading Cause
of Lung Cancer for
Non-Smokers

Responsible for up to
22,000 Deaths per
Year

TAKE ACTION!
TEST YOUR HOME!

Homeowners can test
for Radon themselves
or hire a New Jersey
Certified Radon
Measurement
Company

Test Kits are available
from Hardware Stores,
Local Health
Departments or
Certified Businesses

MITIGATE YOUR HOME!

The New Jersey Department of Environmental
Protection recommends you mitigate your
home if your test results indicate radon levels
of 4 pCi/L or more
