

# SUSTAINABILITY TIPS

## Summer Festivals and Events

### Bring reusable items

Bring a reusable water bottle, food ware, and other items with you to avoid unnecessary waste and potential litter!

### Properly manage trash and recyclables

Make sure to leave the festival site clean and ready for the next event by properly managing trash and recyclables.

### Use excess food as compost or leftovers

Avoid food waste by using excess for compost or as leftovers.

### When feasible, use carpool or public transit

Lower your emissions and decrease traffic this summer by utilizing public transit or carpooling!

### Be respectful of the local environment

Do your best to care for the environment while at a festival or event!
