Optional: We welcome additional information that supports your proposal, including details about amenities (coffee shops, retail, restaurants, public bathrooms, etc.) located within ¼ mile of the proposed DCFC site.

This proposed DCFC site will be at the corner of a major intersection in our city that has been underdeveloped. The County road travels through this area, connecting residents and travelers to East Orange, West Orange, South Orange and RT 280 for Parkway connections to NY, PA, CAN and various territories. It sits across from multiple restaurants and residential buildings. This site is located between 2 NJ Transit train stations that serve our Main street and Valley Arts area. There are also hotels and county parks in close proximity.

Orange New Jersey has been called a transient city by local officials. This grant would maximize the impact of new developments and influence the advancement of our city. This city has unlimited potential with historical value and a progressive community.
