

# Delaware Bay Shellfish Resources

March 2021

NJ Marine Fisheries Administration

Artificial Reef Sites

Maintained Channels

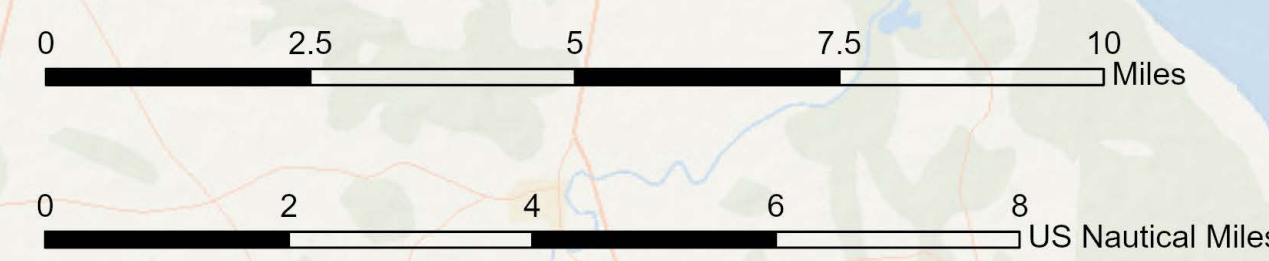

Open Space (Federal, State, Local & Non-profit)

Delaware Bay Leases

Tongers Areas

Managed Natural Oyster Seed Beds

This chart is for general reference only as a snapshot-in-time depiction of resource, cultivation, and management areas known at the time of publication. It only represents the New Jersey territorial waters of the Bay. It does not represent all potential fish and shellfish resources, riparian rights, or areas used by different commercial or recreational fisheries. The public is advised to work through the Division of Land Resource Protection's pre-application process to obtain additional information about an area of interest.

This map was compiled by the New Jersey Department of Environmental Protection (NJDEP) Division of Fish & Wildlife (DFW) using various data sources including information by the National Oceanic and Atmospheric Administration, New Jersey Department of Transportation, NJDEP, county governments, and nonprofit groups. Mapped features and facilities are approximate and presumed correct for planning and reference purposes only. The State of New Jersey and its departments or agencies make no representation as to the completeness and accuracy of this map for any purpose. Users are encouraged to seek primary data sources for confirmation of site specific data whenever possible.
