

DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF WATERSHED MANAGEMENT

REVISION TO THE ATLANTIC COUNTY WATER QUALITY  
MANAGEMENT PLAN

TAKE NOTICE that on August 9, 2006, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A. 58:11A-1 *et seq.*, and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Atlantic County Water Quality Management Plan (WQMP) was adopted by the Department. This revision modifies the Atlantic County WQMP to address the inclusion of an existing municipally owned and maintained recreational fishing pier. The Ventnor Municipal Fishing Pier, located in Ventnor City, Block 500 Lot 1, has an existing public bathroom which has been connected to the Atlantic County Utilities Authority's (ACUA) City Island Sewage Treatment Plant (STP) for decades; however the pier is not identified as being in the City Island STP's sewer service area in the Atlantic County WQMP. This revision will include this facility in the sewer service area of the ACUA's existing City Island STP which operates under New Jersey Pollutant Discharge Elimination System (NJPDES) Permit Number NJ0024473 and has a permitted flow of 40 million gallons per day. This revision is being adopted in accordance with N.J.A.C.7:15-3.5(b)1(i), which allows the Department to make corrections to the WQMP to include development existing at the time of the most recently adopted areawide WQMP or amendment affecting the site.
