DEPARTMENT OF ENVIRONMENTAL PROTECTION AND ENERGY OFFICE OF LAND AND WATER PLANNING

AMENDMENT TO THE LOWER DELAWARE WATER QUALITY MANAGEMENT PLAN

Public Notice

Take notice that on MAR 20 1994 , pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Lower Delaware Water Quality Management Plan was adopted by the Department. The amendment acknowledges the existing Fairton Trailer Park discharge(s) to ground water at a planning flow rate of 46,900 gallons per day (gpd) from 130 existing units and 4 additional planned and approved units, previously not identified in the Lower Delaware WQM Plan. This amendment also allows an expansion to the existing Fairton Trailer Park discharge(s) to ground water to serve an additional 9 units with a projected planning flow rate of 3,140 gpd. Fairton Trailer Park is located at Clark's Pond Road and Ramah Road, being Block 35, Lot 2 and Block 36, Lot 64, a total of approximately 16.75 acres in Fairfield Township, Cumberland County. A total of 143 units with a projected wastewater planning flow of 50,050 gpd is now identified.

This amendment represents only one part of the permit process and other issues will be addressed prior to final permit issuance. Additional issues which were not reviewed in conjunction with this amendment but which may need to be addressed may include, but are not limited to, the following: antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under federal or State statutes or rules.
