DIVISION OF WATERSHED MANAGEMENT

REVISION TO THE NORTHEAST WATER QUALITY MANAGEMENT PLAN

TAKE NOTICE that on **MAY 01 2003**, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A.58:11A-1 et seq, and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Northeast Water Quality Management Plan was adopted by the Department. The revision also modifies the West Milford Township Wastewater Management Plan (WMP). This revision serves to correct the southeastern boundary of the Morsetown Ridge Sewage Treatment Plant Service Area located in West Milford Township, Passaic County to accurately reflect lot line delineations. The Eagle Ridge at West Milford development is currently discussed in the WMP as being served by the Morsetown Ridge Sewage Treatment Plant. Recent submittal of more accurate delineations of the project site show that a portion of Lot 20, Block 5301 was inadvertently omitted from the sewer service area delineation. This revision corrects the West Milford Township Sewer Service Area Map that is part of the West Milford WMP to accurately reflect the lot line boundary and include the entire project in the sewer service area delineation. There will be no change in flow or the number of units as a result of this revision.

Lawrence J. Baier, Director
