OFFICE OF REGULATORY POLICY

AMENDMENT TO THE TRI-COUNTY WATER QUALITY MANAGEMENT PLAN

Public Notice

Take notice that on **SEP 10 1992**, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Tri-County Water Quality Management Plan was adopted by the Department. This amendment, which was proposed by Commerce Bank, N.A., modifies the Moorestown Township and Mount Laurel Municipal Utilities Authority (MLMUA) Wastewater Management Plans. The amendment identifies the Commerce Bank site located at Block 278-S, Lot 14A and the RE/Max site located at Block 278-S, Lots 14B and 14C in Moorestown Township, Burlington County, as sewer service area of the MLMUA Hartford Road sewage treatment plant (STP). The RE/Max site presently lies within Moorestown Township's sewer service area 3, which prohibits sewer service to new development. Only the existing real estate office in this area can be served by the MLMUA STP. The Commerce Bank site presently lies within the future sewer service area of the proposed Moorestown Township Water Pollution Control Plant (WPCP) #2. At such time as this proposed STP is operational and a truck line reaches the vicinity of both project sites, the wastewater flow from these sites will cease discharge to the MLMUA Hartford Road STP and connect into the Moorestown Township WPCP #2.
