OFFICE OF LAND AND WATER PLANNING

REVISION TO THE TRI-COUNTY WATER QUALITY MANAGEMENT PLAN

TAKE NOTICE that on **MAR 08 1994**, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Tri-County Water Quality Management Plan was adopted by the Department. This revision updates the Mansfield Township Wastewater Management Plan (WMP) by identifying an existing 8,142 gallon per day discharge to ground water treatment facility and the associated service area of the National Auto Dealers Exchange. This facility was inadvertently omitted when the Mansfield Township Wastewater Management Plan was prepared in 1988.
