

NJPACT
Climate Change & Transportation
Stakeholder Session

DATE: SEPTEMBER 18, 2020

TIME: 2:00PM-4:00PM

PLATFORM: VIRTUAL TEAMS MEETING

Topic: Overview

Topic: Inundation Risk Zone

Topic: Critical Facilities & Infrastructure

Question 1	What does resiliency mean to you?
Question 2	What steps have you taken to increase resiliency of your infrastructure considering the threats of climate change?
Question 3	When expanding existing operations or siting new facilities, how do you assess the potential vulnerability of the site to climate threats?
Question 4	What challenges do you face when making necessary resiliency improvements?
Question 5	What tools do you currently use to assess the vulnerability of your investments?
Question 6	How do environmental issues figure into your resiliency strategy?
Question 7	Are there specific regulatory changes that NJDEP can make to facilitate resiliency improvements while ensuring protection of the environment, public health, safety and welfare?

Topic: EO 215

Question 1	What are you already doing to address resilience planning/climate change for your projects? What policies and procedures are in place? Are these in response to federal requirements?
Question 2	What types of projects are impacted by these policies and procedures? Can they be improved?
Question 3	With respect to EO 215, how can the process be improved while continuing to ensure protection of natural resources?
Question 4	With respect to EO 215, what do you see as its value? What protections does it achieve that are not otherwise addressed by existing regulatory standards?

Closing: Open Forum
